Feedback Form

One of the ways in which we can improve modules is to take account of the reactions of students to the lectures given each year. Please take this opportunity to provide feedback by filling in the boxes and writing in your comments, as appropriate.

Any constructive suggestions you may have, would be most valuable. Your anonymous and confidential replies could help to improve the module in the future.

In the questions below extremes of responses are indicated by a (1) or (5) as shown for each question. (3) would be an "average" response. Please tick the space which best matches your impressions. N/A means that you feel this question is not applicable to the module or your situation. Many thanks for your assistance.

Please state your degree programme :
