THE FOOTSTEPS PROJECT

In celebration of the University of Kent’s 50th anniversary, the Board of the University of Kent in America, Inc. is offering alumni and friends in the USA the opportunity to become involved in a unique project which will support the next generation of Kent students.

The Footsteps Project will allow the University’s supporters to become part of the very fabric of its campus in Canterbury, by establishing a pathway of engraved bricks which are being laid across the campus, following the route of the historic Canterbury and Whitstable Railway. University staff, students, alumni and friends have already chosen to be part of this project.

Funds raised by this project will build on the success of the UKA Scholarship Program, which supports the next generation of Kent students by helping to fund future Kent-Fulbright Scholars coming to Kent from the USA. An engraved brick could record your time at the University of Kent, carry an inspirational message to future students, or make a dedication to the person who most inspired you.

By supporting the University of Kent in America, you can make it possible for another student to share your Kent experience.

For more information about the project visit
