

Employability Points: Points Ranges Explained

As seen by the Points Classification 2015-16, for a large number of activities, it is possible to be awarded a range of points. For example, for volunteering, you can be awarded between 10 and 40 points for each activity you log.

Ultimately, to gain the maximum possible points for each activity, the EP team requires you to provide sufficient detail. Please see below some general areas which can be considered for all activities which have a range of points available.

If you have any questions, please contact the EP team.
