COME AND VISIT US

To find out more about visiting the University, see our website: www.kent.ac.uk/visit
Kent calendar

Welcome Week  21 September – 27 September 2015
Autumn term   28 September – 18 December 2015
Spring term    18 January – 6 April 2016
Summer term   9 May – 17 June 2016

Terms and conditions: the University reserves the right to make variations to the content and delivery of courses and other services, or to discontinue courses and other services, if such action is reasonably considered to be necessary. If the University discontinues any course, it will endeavour to provide a suitable alternative.

To register for a programme of study, all students must agree to abide by the University Regulations (available online at: www.kent.ac.uk/regulations).

Data protection: for administrative, academic and health and safety reasons, the University needs to process information about its students. Full registration as a student of the University is subject to your consent to process such information.
Kent university is a leading UK university. Ranked in the top 20 in The Guardian University Guide 2015, and in the top ten for student satisfaction in the 2013 National Student Survey, we attract a large number of international students, thanks to our global reputation for academic excellence, world-leading research and inspiring teaching.

Based in beautiful locations in south-east England and continental Europe, we offer an attractive, friendly and safe environment for your studies.

How to find out more 91
In 1965, the University of Kent welcomed its first arrivals – now known as the ‘first 500’, they became a close-knit community, all founding members of Eliot College, at that time the only college, on the University’s sole campus, Canterbury.

The first graduation ceremony took place in 1968 in Eliot College and, like its graduates, Kent had its own ambitions for the future. As one of the pioneering universities built in the sixties, it belonged to an era of growth and change. Kent was, then as now, known for its teaching innovation and excellent staff-student relations; its vision for growth took its first bold steps in this early decade in becoming an inclusive, international and inspiring community.
PRIDE IN OUR PAST/
Five decades later, we are a top 20 university. Known as the UK’s European university, we have grown from 500 to 20,000 students representing 149 nationalities, from one college to six, and from a single location to seven established sites throughout Europe.

From our original Canterbury campus, we have expanded within the UK to include a campus in Medway and a centre in Tonbridge, and into Europe with centres in Brussels, Paris, Athens and Rome. We foster a community in which we value global citizenship, ethical thinking and the development and application of new knowledge.

Our 50th anniversary year celebrated our heritage and our achievements and laid the foundations for a lasting legacy. Innovative student-led projects, initiatives in our curriculum, research of global significance and exciting campus developments continue to shape the future of the University – an inspiration to our community of students, staff and alumni for years to come.
INSPIRING YOUR FUTURE
Kent is one of the UK’s leading universities. Our academic schools produce world-class research, and Kent is rated as internationally excellent, leading the way in many fields of study.

Our academics are engaged in high-level research as well as teaching, so you study with some of the most influential thinkers in your field. Our teaching is designed to put you in touch with the latest ideas and help you to develop your own interests and essential skills. In the 2008 Research Assessment Exercise (RAE), Kent was ranked in the top 15% of UK institutions for world-leading research. This means that we are considered among the best research universities in the UK.

Studying with us is a stimulating and challenging experience. In the most recent National Student Survey, we received a rating of 90% for overall course satisfaction.
Kent is renowned for its teaching style; our academics have an outstanding ability to pass on their passion for study and debate. You will be challenged and encouraged, and benefit from the expertise of our academic staff.

The high quality of teaching at Kent allows you to become an independent thinker, capable of thriving in different situations. This approach is enhanced by the opportunity for you to attend numerous talks and workshops in related fields, allowing you to place your studies within a broader context. Our postgraduate students further develop their skills by presenting work at research seminars, participating in conferences and publishing papers. In the 2013 National Student Survey, Kent received a rating of 88% for the quality of its teaching.
SUPERB STUDENT EXPERIENCE

Our locations in Canterbury, Medway, Brussels, Paris, Athens and Rome provide a stunning backdrop for your studies, offering first-class academic and leisure facilities.

The University has a lively atmosphere and we encourage you to get involved in a wide range of activities and student societies. These provide many opportunities for personal development, whether it’s through involvement in the arts, sport, volunteering, or student politics. You can also widen your experience by taking advantage of our numerous overseas study and work options. Our postgraduate students are supported by the Graduate School, which co-ordinates a range of activities to encourage interdisciplinary dialogue and supports student-led initiatives such as social events, conferences and workshops.
A GLOBAL OUTLOOK

Our international reputation attracts academic staff and students from across the world: 41% of our academic staff come from overseas and last year, our students represented 149 different nationalities.

Kent has partnerships with some of the most prestigious universities in the world including Waseda University in Japan, University of Hong Kong, University of California (Berkeley), Athens University of Economics and Business, the Sorbonne and the École Normale Supérieure in Paris. Known as the UK’s European university, Kent also has its own postgraduate centres in Brussels, Paris, Athens and Rome.

Our international mix of students creates a dynamic and stimulating environment, giving you the opportunity to discover how different cultures address global issues and to make new friends from around the world.
A SUCCESSFUL FUTURE

Employers value the added confidence that comes from spending time abroad and a British qualification from a respected university is highly regarded around the world. Employers also value language skills in English, which is the language of international business.

Your course at Kent equips you with essential skills that can give you a competitive advantage when it comes to getting a job. Many of our students improve their professional skills and gain experience through a wide range of voluntary work opportunities or paid work placements. We also run a nationally recognised employability points scheme, which rewards student engagement in extra-curricular activities that develop and enhance transferable and life skills.

Kent has strong links with international businesses and many of our students have undertaken work placements at global companies such as IBM, Cisco, Microsoft, Intel, British Airways and Lucasfilm. Our Careers and Employability Service can advise you on international job opportunities after you graduate.
WHY WE CHOSE
THE UNIVERSITY OF KENT

Academic excellence
Stephanie Bourgeois from France is studying for a BSc in Biochemistry.

“I like the approach to teaching here; academics are happy to answer questions and to interact with students. I find the lectures very motivational, they pique your curiosity and for me the exciting bit is going to the library and pursuing the things you are interested in.

“The lecturers at Kent are excellent. You get to know them well and, as you move through the course, they are able to guide you towards projects, ideas or career paths that they think you will like.”

Inspirational teaching
Patrice Tanque from Brazil is studying for a BSc in Forensic Chemistry.

“Choosing Kent was an easy decision. The forensic programmes are ranked among the best in the UK and have a high graduate employment rate.

“The teachers bring fresh ideas and up-to-date materials from real cases to enrich the lectures. They are keen to help out and always make sure we are getting plenty of support.

“I was very fortunate to be awarded an International Scholarship, which meant I could dedicate myself to my studies.”

Specialist research
Sally Gao from China is studying for a PhD in Electronic Engineering.

“I have been very lucky with my supervisor, Professor Yong Yan, who is a world-class expert and the first IEEE Fellow in the UK in instrumentation and measurement.

“Professor Yong Yan has helped me to become a better researcher. I am inspired by his novel ideas and constructive suggestions. Under his supervision, my confidence has grown through such milestones as my first set of experiments, writing my first research paper and attending my first conference.”
A global outlook
Ritesh Randhir from India is studying for an MA in Creative Writing.

“It’s a lifetime experience that I’m finding very helpful for my writing skills.

“On campus, there’s such a variety of student nationalities. I’m able to interact with students from different countries, with different historical backgrounds and cultures, so I’m learning new things each day.

“Being here in the UK for one year is a major achievement for me, and I’m proud to be at Kent.”

Superb experience
Dilruwa Rajapakse from Sri Lanka is studying for a BA in International Business.

“Kent provides its students with many facilities for their benefit and comfort. The University offers the best accommodation facilities, employability opportunities and extra-curricular activities. For example, as a dancer, the Kent Union societies have always been there to polish my skills.

“Altogether, Kent makes its students feel vibrant, unique and confident, ready to face the challenges of the world.”

A successful future
George Temple from the United States is studying for an MA in English.

“The School of English is made up of a generous and knowledgeable faculty.

“In addition to practical experience working on a literary magazine, Splinter, I’ve learned more about the way poetry and prose are published worldwide. Having this information is invaluable whether I go into publishing or attempt to write ‘full-time’, because it’s recession proof – regardless of the economy, skills that relate to the distribution of information will be required in some context.”
A WELCOMING AND SUPPORTIVE COMMUNITY

We have a welcoming atmosphere at Kent. Our students describe the University as a safe and friendly place with a great social scene.

Welcome Week
To help you settle in when you arrive, we hold a special Welcome Week in September (at the beginning of the academic year). This includes a greeting at the airport, a special welcome dinner (giving you the chance to meet other international students) and trips to see local tourist attractions. This week takes place before the start of the term’s lectures and seminars so you have time to relax and make friends.

Our academic schools host events during Welcome Week to prepare you for your studies. There are also campus tours, themed evenings and sporting activities.

If you are arriving to start your programme in January, we greet you at the airport. And for students starting a pre-sessional course in May, June, July or August, we provide an online taxi booking service to help you arrange your transportation to Kent. Whichever point in the year you join us, we offer a series of support, induction and social events to help you settle in and make friends.

Supportive teaching
At Kent, we’re proud of our supportive teaching. Our academics are friendly and approachable, and students get high levels of contact time with their tutors and lecturers. Student feedback has helped us to develop well-designed and intellectually rigorous courses.

All of our students have an academic adviser – someone who can help if they have any problems. There is also a Student Learning Advisory Service that can provide tuition on everything from research skills to writing essays. We also make sure that you get training so you can make the most of our extensive library and IT resources.

If English is your second language, we can help you to develop your fluency. While you’re studying in the UK, you can have up to two hours of free English lessons a week.

Study resources
All students rely on being able to access a range of information. At Kent, we make sure that this process is as easy as possible.

Our library is well stocked and the most popular books are on short-term loan, which means you never have to wait too long. Our online resources are excellent, too, with a huge range of journals available. Technology is one of our priorities: we provide public computers so that when you’re on campus, you’ll always have access to the internet, the University’s network and a

STUDYING IN THE UK
For general information on studying in the UK and the British education system, see the British Council website at www.educationuk.org
range of software and public printers. We use technology in our teaching via online resources and podcasts of lectures.

**Social facilities**

At Kent, there are plenty of places to have fun and meet up with friends. Our campuses offer a range of high-quality cafés, bars, restaurants and sports facilities. The Canterbury campus has its own theatre, nightclub, cinema and music venue as well. There are numerous student societies that you can get involved in, including national societies. For more details on the social activities at our various locations, see p21-25.

Our UK campuses are located in the south-east of England, which means we have one of the sunniest locations in the country. During the summer, students make the most of this by socialising in the open-air café-bars on campus.

Less than an hour’s train travel from London and within easy reach of the coast and continental Europe, our UK campuses are ideally placed for you to explore a range of locations.

**Multicultural university**

Kent is a multi-faith university with chaplains from the Anglican, Buddhist, Catholic, Jewish, Muslim, Methodist, Pentecostal and Quaker traditions. Kent’s student societies celebrate a wide range of festivals such as Chinese New Year, Holi, Thanksgiving and Diwali. The University has recently established a Multicultural Events Fund, which students can apply to for a financial award of up to £350 to help them run their own multicultural event.

We also hold a series of events called WorldFest to celebrate international culture.

**Meet people from home**

To create a supportive student network, Kent has set up email groups and an international student ‘buddy’ scheme, which allows you to contact other students from your home country. But the support doesn’t end there. After you graduate, it’s also possible to get in touch with Kent alumni in your own country, providing a lifelong network of friends and professional contacts.

**Go Abroad – study and work placements**

Kent offers you a world of study and work placement opportunities – from China, Hong Kong and Thailand, to the US, Latin America and Europe. Whether you want to experience a different culture, make new friends, develop your language skills, grow in self-confidence, gain a new academic perspective, establish international contacts or enhance your employability, the Go Abroad experience offers you a wealth of personal, academic and professional benefits. Many of our students describe the time they spent overseas as one of the most exciting and formative periods of their lives.

To find out more, visit www.kent.ac.uk/goabroad
STUDENT LIFE IN CANTERBURY

Canterbury is a beautiful city less than an hour from London. Each year students from around the world fall in love with its cosmopolitan charm and it is consistently rated as one of the UK’s safest cities for students.

As you’d expect from a city with nearly 30,000 students, there’s a rich social life. In fact, according to a report from travel company Experian, Canterbury is the UK’s third most vibrant city. The city has museums, art galleries, clubs, bars, restaurants, sports facilities, a cinema and a theatre.

Campus life

Our Canterbury campus is set in 300 acres of beautiful parkland overlooking the Cathedral. This gives you the best of both worlds: green spaces on campus, yet only a 25-minute walk from the city centre. A frequent bus service runs between campus and the city.

Campus life is ideal for students from overseas as everything is in one place. In your spare time, you can enjoy the campus cinema and theatre, or attend concerts at the Colyer-Fergusson Building. The campus is also home to a range of bars and restaurants, shops and a student nightclub.

Student societies

Kent Union, the students’ union, has over 100 student societies. Many are focused on international culture such as the Afro-Caribbean, Asian, Chinese, German, Hellenic and Japanese societies; others include filmmaking, parkour freerunning and scuba diving. For more details, see www.kentunion.co.uk

Location

A huge bonus for our students is how close Canterbury is to London – the high-speed train service takes less than an hour. If you want to explore Paris or Brussels, you can catch a Eurostar train and be there in about two hours. It’s also easy to cross the Channel by ferry and get to international locations by flying from one of London’s airports. See p92 for more details.

Support

The campus offers a high level of support. University staff can help with all kinds of queries. Our student union provides an advice service, with guidance on immigration and visas, and has a Jobshop that can help you find part-time work. The Student Learning Advisory Service provides support in study skills, and our Centre for English and World Languages provides English language tuition. There is an on-site medical centre where you can register with a UK doctor who provides free medical care during your stay. Kent also employs its own counsellors and nurses.

Sport

In 2013, we completed a £4.8 million redevelopment of our sports facilities, improving our fitness suite and dance studios, and building indoor tennis and netball courts. We also have badminton, basketball and squash courts, and all-weather football pitches. There is a huge range of sports societies and teams, so you can develop your sporting skills, whether for leisure or to compete at an elite level.
STUDENT LIFE IN MEDWAY

Our Medway campus has won several design awards. Occupying grand buildings that were once part of a British naval base, the campus combines a historic setting with high-tech facilities to provide a stunning study environment less than an hour from London.

There’s a recording studio for those studying music, a fully equipped radio and TV newsroom for our trainee journalists, and studios for our arts students.

Location
The campus is close to London, next to the River Medway with our School of Music and Fine Art’s buildings based at the Chatham Historic Dockyard. Our student accommodation, Liberty Quays, is by the River Medway in an attractive modern development.

The campus has easy access to central London: trains from Ebbsfleet take under 20 minutes and trains from Chatham take approximately 55 minutes. If you want to explore Paris or Brussels, the Eurostar train from Ebbsfleet can take you there in about two hours. Airports are easily reached by road or rail – see p92 for details. The historic town centres of Chatham and Rochester are a short bus-ride away.

Social life
There is a strong sense of community on campus and students find it easy to make friends. For socialising, there’s a lively bar that holds regular theme nights. The range of societies and clubs on offer include the Afro-Caribbean, Asian, Bangladeshi, Irish, Islamic, Sikh and Spanish societies. Annual events include the Summer Ball, which is held at a large local venue and features one of the UK’s celebrity DJs. See www.gkunions.co.uk for details.

There are several cafés and restaurants on campus. Nearby is a multi-screen cinema showing the most popular movies. The local town of Chatham provides entertainment such as live music and a comedy club.

Sport
The University has a wide range of sports societies and being close to the river means that many students take part in activities such as rowing, canoeing and sailing. The nearby multimillion-pound sports centre, Medway Park (partly funded by the University), offers special rates to University of Kent students. Facilities include a swimming pool, fitness suite and an athletics track, as well as several sports halls. All facilities are built to a high standard and the Park was an approved pre-Games training camp for the London 2012 Olympic and Paralympic Games.

Also in the Medway area, you can enjoy an ice rink, dry ski slope, karting circuit, golf course with driving range and indoor bowls.

Support
Our students have easy access to support on campus. The Student Learning Advisory Centre can help you with study skills. Greenwich and Kent Students’ Union Together (GK Unions) can provide advice on many aspects of life in the UK, including how to register with a local doctor.
EUROPEAN CENTRES

At our four specialist postgraduate centres in Athens, Brussels, Paris and Rome, your studies are underpinned by the specialist facilities and resources of each location.

**Athens**

Kent’s Heritage Management MA offered in Athens teaches the skills required for the management of heritage sites. The degree is a collaboration between Kent and Athens University of Economics and Business (AUEB). Teaching is in English and there is a range of scholarships available.

**Location**

The programme is ideally located in the Athenian suburb of Eleusina, the birthplace of Aeschylus and one of the most important archaeological religious sites in the world as the location of the Eleusinian mysteries. Athens is only 30km away, so you have access to many other major historical sites including the Parthenon, Ancient Corinth, Nemea and Thebes.

Eleusis is a fairly large town with many amenities such as a sports centre, shops, restaurants, cafés, libraries, music schools and foreign language schools, a museum and a summer cinema. It has a good bus connection to Athens and the surrounding area.

**Social life**

There are many activities available in Eleusina at a discounted fee, including courses for non-Greek speakers in music, painting and dance. Eleusina is excellent for outdoor pursuits, and there is also an annual arts festival.

**Brussels**

Kent is the only UK university with a centre in Brussels. The courses are specialist postgraduate degrees related to the study of international affairs and taught in English.

Brussels is known as ‘the capital of Europe’ and is a major centre for political power, home to institutions such as the European Parliament, the European Commission and NATO. The city also attracts international NGOs, multinational corporations, ‘think tanks’, diplomats and lobbyists.

Our courses are at postgraduate level (Master’s and PhD) in areas such as international law, politics and international relations, international development, international economics, European public policy and migration studies.

Our academics have a network of professional contacts in the city, which means they are in touch with current developments. Practitioners from Brussels-based organisations contribute to courses and deliver guest lectures. They also provide useful contacts for students wishing to take an internship in Brussels.

**Location**

Our Brussels centre is a 15-minute drive from the city centre and there are good metro, bus and tram links. It’s easy to reach other European cities: London, Paris and Cologne are all around two hours by train, and Brussels has an international airport.

**Social life**

There is a close-knit community of students from over 60 nations. The University has its own academic facilities and students can use the libraries, entertainment and sports facilities of the Vrije Universiteit Brussel. Brussels is a cultural city and hosts music and film festivals and exhibitions.
Ernest Hemingway and Gertrude Stein. Excellent transport links with other major cities mean you can explore Europe with ease.

Social life
Your studies are based at the Columbia Global Center (known as Reid Hall), a charming building with picturesque courtyards and interiors. Shared with New York’s Columbia University, it holds its own cultural events, where you meet a wide range of other students. You are also encouraged to experience the city’s cinema, art, literature and drama.

Rome
Rome is arguably the most historically and archaeologically significant city in Europe, if not the world.

Our MA in Ancient History, Roman History & Archaeology, and History & Philosophy of Art offer you the opportunity to study in Rome for the spring term. On the ancient history and archaeology programmes, you study sites such as the Colosseum, the Pantheon and the Roman Forum, as well as the development of the city from the Rome of the Republic to the present day. On our History & Philosophy of Art programme, you focus on Renaissance and baroque art.

Location
In Rome, Kent students are based at the campus of the American University of Rome. Situated in the picturesque district of Monteverde, with shops and amenities close by, the campus is within walking distance of Rome’s historic centre.

Study facilities include computer workstations, free wi-fi, and full audio-visual equipment in all classrooms. Lecture rooms are housed in a former monastery where the gardens and terraces act as social spaces. The library, located in Evans Hall, a stately two-storey building, has over 15,000 volumes, a large collection of DVDs, as well as access to online databases and Rome’s other libraries.

Social life
Students from Kent at the American University of Rome have access to all support facilities, including an English-speaking GP on site, a counsellor, and support from staff in the Student Life Office. There is also a range of student societies, cultural events and sports clubs available to suit almost every interest.
Our University accommodation allows you to make an easy transition to living in the UK – you don’t have to worry about finding somewhere to live and all of your basic bills are included in the rent.

Canterbury

Our Canterbury campus houses over 5,500 students. Rooms are in flats, houses or colleges and are offered on a self-catered or part-catered basis. All of the bedrooms are for single occupancy and many have en-suite facilities. Your rent includes the costs of electricity, gas, water, personal belongings insurance and wired/wi-fi internet access.

Students enjoy living on our Canterbury campus – it’s in a beautiful green location overlooking the city and has everything you need within easy walking distance – laundry rooms, shops, restaurants and bars, a theatre, cinema and nightclub as well as a sports centre.

Our international students based at Canterbury are offered a room in University accommodation for their first year of study (providing they meet the application criteria). If you study for a Foundation Programme, you are offered University accommodation for both your foundation year and the first year of your degree.

Undergraduate self-catering options

For self-catering accommodation, you share a self-contained house or apartment with other students. Each has its own fully equipped kitchen, so you can choose to cook your own food or eat out on campus. They are let for the entire academic year (39 weeks), so you can stay there during the winter and spring vacations. Apartments have en-suite rooms, houses have a shared bathroom.

Undergraduate part-catering options

Bed and bistro accommodation is available to residents of the main building at Keynes College and Becket Court. The package includes an en-suite bedroom with breakfasts and dinners in our flagship bistro, Dolche Vita, on weekdays and in Rutherford dining hall at weekends.

Bed and breakfast accommodation is offered in Rutherford and Eliot Colleges only. Accommodation costs include breakfast, or an allowance towards an evening meal. There is a wide variety of other places to eat on campus.

If you choose part-catered accommodation, all rooms have access to a kitchenette with a kettle, small fridge and microwave. Please note that the kitchenette is only suitable for the preparation of hot drinks and snacks.

Bed and breakfast accommodation can be occupied for 37 weeks, including the winter and spring vacations (except for the University’s two-week closure period over Christmas/New Year).

Bed and bistro accommodation can be occupied for 31 weeks, not including the winter and spring vacations. This means that you need to move out for both of these vacations but, for the winter vacation only, you can leave your belongings in your room.
If you are here for a short-term study programme, shorter accommodation stays may be possible (subject to availability).

**Postgraduate self-catering options**

Woolf College offers postgraduate students with purpose-built accommodation on central campus. All rooms are for single occupancy and have en-suite facilities. Most rooms are arranged in flats for five to eight people with large shared kitchens. Some studio rooms are also available, with their own kitchen facilities.

Accommodation at Woolf College is available on a fixed 51-week contract (any postgraduates whose programme of study and academic registration is shorter than 51 weeks should contact the Accommodation Office before making an application for further advice).

**Private accommodation**

In the second year of study, most undergraduate students rent private accommodation. Usually they share houses; prices were roughly £90 to £110 a week (excluding bills) in 2014. If you prefer to live off-campus in your first year of study, our Accommodation Office can provide information and advice to help you find private accommodation.

**Medway**

Kent students are offered rooms in Liberty Quays. This is purpose-built student accommodation, just ten minutes’ walk from the campus. Each flat has six to eight single en-suite rooms and a shared, fully equipped kitchen. Each room has wired/wi-fi internet access. The accommodation has social areas and launderettes and there is a supermarket, Domino’s pizza and Subway food outlets.

International students at Medway are offered University accommodation for the first year of study (providing they meet the application criteria). Accommodation for further years is subject to availability. If you study on a Foundation Programme, you are offered University accommodation for both your foundation year and the first year of your degree.

If you prefer to live off-campus in your first year of study, our Accommodation Office can provide information and advice to help you find suitable private accommodation.

**Athens**

A list of suitable accommodation in Eleusina or central Athens is provided to all students. We also offer advice on arranging your own rented accommodation and liaise with landlords on your behalf. Please see www.kent.ac.uk/athens for details.

**Brussels**

Kent does not offer University accommodation in Brussels, but there are many private rental options available. Studio apartments with all charges included (water, electricity, gas, tenant charges) cost around €550-700 per month. A one-bedroom apartment with all charges included is around €650-800. Students who arrange flat-shares are often able to reduce costs even further. For details, see www.kent.ac.uk/ gettingstarted/brussels

**Paris**

For those students who are spending a term in Paris, we offer advice to help you to find suitable accommodation. One option is to stay with a host family. There are also organisations in Paris to help students find short-term accommodation, as well as private accommodation agencies.

For advice, please see www.kent.ac.uk/paris

**Rome**

The American University of Rome can, if you wish, arrange accommodation for you. Accommodation consists of furnished apartments with shared bedrooms (two students per room) in traditional, well-established neighbourhoods. See www.kent.ac.uk/rome for details.

**How to apply**

You receive details of how to apply for accommodation when you are offered a place at Kent. Applications for University accommodation are made online at www.kent.ac.uk/accommodation

*This table provides a quick reference guide for the accommodation options available at the University of Kent, including details on the number of rooms, undergraduate/postgraduate occupancy, laundry facilities, en suite, food included, kitchen facilities, and internet connection with some security restrictions. Additional information can be found on the university's website at www.kent.ac.uk/accommodation.
* A number of rooms are also available for wheelchair users or students with other disabilities.
** Kitchenettes contain a small fridge, microwave and kettle, and are only suitable for preparation of snacks and hot drinks.
*** Turing Houses have one bathroom shared between two rooms.
**** Accommodation at Liberty Quays is also available for 42 weeks or 51 weeks.

Please note: our student accommodation does not include parking facilities.

---

**Cost (£)** Fees quoted are for 2014/15 for the entire occupancy period unless otherwise stated and include all gas, electricity and water charges, personal belongings insurance and internet access.

FEES AND LIVING COSTS

International students from outside the EU

The figures quoted on the right are the standard fees for full-time students starting in the year 2014/15. They cover one academic year of study.

Please note that some courses, particularly postgraduate, charge more than the standard fee. For the latest details on fees, see our website, www.kent.ac.uk/finance-student/fees

Other living costs

To help you estimate your living costs we have an online calculator at www.kent.ac.uk/finance-student/livingcosts.html

Paying your fees

Tuition fees are charged for each year of study and are due at the start of the academic year. Some international students may be required to pay a proportion of their tuition fees before their arrival at Kent. An instalment plan is available but if you pay the full year’s fee before 31 August, you are granted an early payment discount of 2%.

See the Student Finance Guide at www.kent.ac.uk/gettingstarted/assoc/finance_fees.html

Undergraduate students who pay for their entire degree (three or four years of tuition fees) by 31 August have the fees frozen at the start of the course and receive a 5% discount on the total cost. Fees can be paid by a variety of methods, including online at: epay.kent.ac.uk/epay

Kent’s loyalty discount schemes

You receive a 10% discount on the first year’s tuition fees if you have a brother or sister at Kent, are the child of a Kent graduate, or are a Kent graduate returning to take a privately funded degree. See www.kent.ac.uk/finance-student/fees/loyaltydiscount.html

FUNDING AND SCHOLARSHIPS

The University offers a wide variety of financial support and scholarships. The figures quoted apply to the 2014/15 academic year.

Students from outside the European Union
The University offers a number of generous scholarships for our international students at undergraduate and postgraduate level. These include our International Scholarships for Undergraduate Students and International Scholarships for Taught Master’s Students, each worth £5,000 per annum (for up to three years of study for undergraduate students) towards the cost of tuition fees and offered to nationals of any country paying international fees. We also offer International Pathways scholarships; one full tuition fee scholarship for a student on a Pre-Master’s graduate diploma programme and a number of partial tuition fee scholarships for International Foundation Programme students, for one year of study worth £5,000 each.

We offer a range of other scholarships, including:
• The Hong Kong Alumni Undergraduate Scholarship
  These scholarships are for outstanding students from mainland China or Hong Kong. The awards are of £15,000 for the initial year of entry and renewable for up to a total of three years. The scholarships are open to full-time undergraduate students in any subject area.
• Santander scholarships
  Santander is offering scholarships of £5,000 each to support students from Iberian and Latin American countries studying for a full-time taught or research Master’s degree at Kent.

See www.kent.ac.uk/scholarships for details of these and other scholarships.

Accepted loans
The University of Kent participates in the William D Ford Federal Direct Loan Program for students who are US citizens. The University also accepts and processes Canadian student loans.

Students from within the European Union (EU)
The following scholarships and studentships are open to students from the EU. (Please note: EU status depends on nationality and residency.) There are also scholarships for specific subjects; check your academic school website for details.

Undergraduate study
• Tuition fee loan – EU undergraduate students can apply for a UK government loan to cover the cost of tuition fees. This is not paid back until after graduation and only when a certain level of salary is reached. See www.gov.uk/student-finance for details.

Postgraduate study
• UK Research Council funding; tuition fees only
• European jointly supervised PhD (Co-tutelle) scholarships; students must be registered for a jointly supervised award with another university in the EU, and spend at least two years at Kent.
Scholarships open to all students
The following scholarships and studentships are open to students of all nationalities. There are also scholarships for specific subjects, which range from partial to full fee waivers; check your academic school website for details.

Creative and sports scholarships
You can apply for a scholarship for excellence in the following areas:
- University Music Performance Scholarships – up to £5,000 a year
- University sports scholarships – between £250 and £5,000 a year
- Boxing scholarship – £250 – £2,250 a year
- Cricket scholarship – £2,500 a year
- Rugby scholarships – £2,000 a year
- Hockey scholarships – up to £2,000 a year.

Undergraduate study
The University of Kent offers one of the best scholarship schemes in the UK.
- We offer University scholarships of £2,000 a year to all students who achieve the following grades at A level: A*A*A; A*A*A; A*AA; AAA; A*A*B; A*AB; A*A*C (IB 35 points or more, including a minimum of 15 points for Higher Level subjects). For other equivalents, see www.kent.ac.uk/scholarships

Postgraduate study
Many schools at Kent offer a number of University postgraduate research scholarships, including 50th Anniversary Research Scholarships, all available for three years providing fees at the home/EU rate and a maintenance stipend equivalent to the UK Research Council rate (£13,863 per annum in 2014/15). Partial scholarships also offer generous financial support in recognition of academic excellence.

Other postgraduate scholarships at Kent include:
- University of Kent at Brussels Scholarships
- University of Kent at Paris Scholarships
- University of Kent at Rome Scholarships
- Alumni Postgraduate Research Scholarship
- Christine and Ian Bolt Scholarship – up to £10,000
- European jointly supervised PhD scholarships – 50% tuition fee reduction
- Dora Harvey Memorial Research Scholarships
- Santander scholarships – £5,000 (for one year) towards full-time taught or research Master’s degree (open to eligible students from Iberian or Latin American countries).

Graduate Teaching Assistantships
Most academic schools offer scholarships in the form of Graduate Teaching Assistantships (GTAs) whereby full-time postgraduate research students receive financial support in return for teaching. Many GTAs are ‘full’ awards which cover tuition fees at the home/EU rate plus a combined salary and maintenance grant of up to £13,863 per annum. Other GTA award levels vary in amount.

Find out more
Please refer to our webpages for full details of all scholarships: www.kent.ac.uk/scholarships or www.kent.ac.uk/pgfunding or www.kent.ac.uk/ugfunding
If you need help to reach this level, we offer a number of courses in English for Academic Purposes (EAP). These courses focus on developing your English language and study skills so that you can meet the level of proficiency required for your chosen academic course of study (see table, right). All courses are taught by Kent language tutors who are experts in the field of EAP.

Pre-sessional courses
If you need to raise your English language skills to the equivalent of 6.5 or 7.0 in IELTS (meeting level B2, as specified by the Home Office), you can attend one of our intensive pre-sessional courses in EAP. These courses prepare you for studying in English at undergraduate or postgraduate level and help you to gain the skills required by your chosen academic school. Satisfactory achievement on one of these courses can be used to meet Kent’s English language entry requirements (see right) in place of other external language examinations.

Our pre-sessional courses introduce you to the UK learning style and academic culture; expand your critical thinking skills, and develop your ability to read academic texts, participate in seminars and give presentations. Kent International Pathways at the University of Kent administers the courses, providing an intensive, full-time course of study with approximately 20 hours of classes per week. Teaching includes lectures, seminars, workshops, independent research tasks, and group and pair work.

Our pre-sessional courses are delivered at our campuses in Canterbury, Medway and Brussels:
• 38 weeks beginning the October before you start your degree
• Eight weeks beginning the October before you start the January International Foundation Programme (IFP)
• 29 weeks beginning in January
• 11 weeks beginning in June
• Six weeks beginning in July
• Four weeks beginning in August.

For more details and how to apply, see www.kent.ac.uk/ip

* Requirements for progression to Kent Business School and Kent Law School programmes are higher

Please note: We only accept TOEFL tests dated before 18 April 2014; for details of the test scores we require, see www.kent.ac.uk/ems/eng-lang-reqs
Other programmes

While you are studying for a Kent degree, you can continue to develop your English language through our In-sessional English skills programme, which is provided free of charge to our international students.

English language and academic skills tuition is also included within the University's other pathway programmes: International Foundation Programme (p36), the JYA English PLUS programme (p40) and our Pre-Master's graduate diplomas (p41). These are designed for international students who need to extend their existing academic qualifications or ability in English for direct entry to either an undergraduate or postgraduate degree.

**English language requirements**

Many international students are required to have a suitable grade in a Secure English Language Test (SELT) in order to meet the UK’s visa requirements. The various types of SELTs accepted at Kent are outlined in the table above.

If you are studying, or have studied recognised qualifications in English at an international school, you may not need to submit a valid SELT. For example, if you have completed IGCSEs or the International Baccalaureate syllabus. For details, see www.kent.ac.uk/ems/eng-lang-reqs/international.html

FOR DETAILS OF ALL ENGLISH LANGUAGE REQUIREMENTS, SEE: www.kent.ac.uk/ems/eng-lang-reqs/
If you are applying from a country where secondary education does not reach the level required for direct entry to a UK degree, you may need to take one of our foundation programmes in order to extend your existing academic qualifications, study skills or ability in English for direct entry to an undergraduate degree.

When you apply for a foundation programme at Kent, you specify the degree of your choice. This means that you are guaranteed a place on that course, providing you pass your foundation programme to a sufficient level.

Taught by our own academics, these programmes offer teaching of an exceptional quality. The courses are based at our Canterbury campus, so you have access to all of our leisure, support and study facilities. We also offer you a place in our student accommodation.

Kent’s International Foundation Programme
Kent’s International Foundation Programme (IFP) was one of the first international foundation programmes offered by a British university, and has now been in existence for over 20 years. The IFP is designed for international students and provides a solid foundation for degrees in the Humanities, Social Sciences and Sciences, including pathways to Architecture, Biosciences, Business, Computing, Economics, Engineering, Law, Psychology, Pharmacology and Physiology, and Sport and Exercise Science (For other science foundation programmes, see below).

The IFP is a modular course taught over three terms starting in September or January and provides training in academic subjects, in addition to English for Academic Purposes and academic skills. Students who successfully complete the IFP and meet the rules of progression are guaranteed entry to a wide range of degrees. For more details, see www.kent.ac.uk/ip.

It is also possible to study the Kent IFP in Turkey, (Istanbul) and in Hong Kong. The course of study is the same as that studied by students in the UK. For details of both options see www.kent.ac.uk/ip.

Other foundation programmes at Kent
The following degree programmes also offer a foundation year:
• Chemistry
• Computer Systems Engineering
• Electronic and Communications Engineering
• Forensic Science
• Mathematics
• Physics.

If you don’t have qualifications in the relevant subjects, or your grades are not high enough, the foundation year can help you to achieve the necessary entry requirements.
of work is required which demonstrates observational skills, artistic, conceptual and creative thinking, and analyses of colour, form and space.

You only need to take a foundation programme if your qualifications are not suitable for your chosen degree. You can check the entry requirements for your degree programme at www.kent.ac.uk/ug

The qualifications are listed as International Baccalaureate (IB) or A levels. However, you may have qualifications that are specific to your own country. For advice on whether these are suitable, please go to www.kent.ac.uk/internationalstudent and select your country. You can also email our International Development team at international@kent.ac.uk who will be happy to answer any questions you may have.

To apply

You can apply directly to Kent for our IFP: see www.kent.ac.uk/ifp

Alternatively, you can apply via UCAS. To make your UCAS application you can:

• complete your own application via the UCAS online form at www.ucas.com/apply

Or

• visit one of our overseas representatives (see p91) who can make an application on your behalf.

(DID YOU KNOW?)

Students who successfully complete a Pre-Master’s Graduate Diploma or IFP at Kent are entitled to a 10% discount on the first year’s fees for their main programme.
Kent’s undergraduate degrees are some of the best in the UK, designed to challenge you and take your studies to the highest level.

Undergraduate degrees usually take three years, and may include a term abroad. For students who take our Year Abroad or Year in Industry option, a degree usually takes four years.

We have approximately 400 degree courses and all of them offer exceptional teaching. For a list of subjects we teach, see p73-p81. It is also possible to study at degree level for one academic year or a shorter period of time (see Junior Year Abroad, p40).

Professional experience
Kent encourages you to gain professional experience. Many of our degrees offer a paid year in industry or a shorter work placement, which may be in the UK or overseas. You’re given support in gaining the necessary language skills and in finding the placement. We have links with leading international companies such as Sun Microsystems in the USA. Language students often take work placements as teaching assistants in countries such as Spain, France or Hong Kong.

Students also gain experience within our own award-winning clinics. These include the Sports Injury Clinic, the Kent Law Clinic and the Kent IT Consultancy. There are many volunteer roles offered by Kent Union Volunteering.

Career-focused teaching
Our degrees enable you to flourish in a competitive global economy. Graduates develop skills that make them better prepared to start their careers and more attractive to potential employers – six months after graduation in 2013, only 6% of Kent graduates were without a job or further study opportunity.

At Kent, whatever subject you study, you develop the skills and capabilities that employers are looking for. These include problem solving, independent thought, report-writing, time management, leadership skills, teamwork and good communication.

Our Careers and Employability Service can help you to plan your future career, for instance, by providing information on careers related to your studies, identifying transferable skills and putting you in touch with our Alumni Careers Network (where you can talk to a Kent graduate about their career). The Service also offers advice on job-seeking skills such as writing a CV and covering letter, interview techniques and aptitude tests.

In addition, Jobshop, a service provided by Kent Union, can help you find a variety of paid, part-time work. This helps you to develop skills and try out different areas of employment.

Teaching style
Our courses are designed to be stimulating and build up your confidence, step by step. Teaching methods include lectures, seminars, workshops, field trips, conferences, independent study and one-to-one tutorials. We also encourage you to develop independent study skills.
The first insight into a new topic is usually from taught lectures. The next step is to deepen that knowledge via seminars and workshops. Seminars are small study groups and the focus is on lively discussion. Workshops develop your skills in a laboratory or a studio. Both take place under the guidance of a tutor.

You are assessed by a mixture of coursework, seminar performance, practical assignments and examinations. The marks you get in the first year of a degree do not count towards your final result.

**International study and work abroad opportunities**

Many of our undergraduate degrees offer an option to go abroad, either to study at one of our prestigious partner universities, or on a work placement, but even if you’re registered for one of our other degrees, a period abroad is often possible. To find out more, see www.kent.ac.uk/goabroad

**Useful facts**

Most undergraduate degrees take three years to complete. Degrees which offer a year’s study abroad or a year’s work placement take four years to complete. The degree title depends on your field of study.

At Kent we offer:
- Bachelor of Arts (BA)
- Bachelor of Science (BSc)
- Bachelor of Engineering (BEng)
- Bachelor of Business Administration (BBA)
- Bachelor of Law (LLB).

We also offer some undergraduate degrees that take four years to complete and reach a higher level of study. These include:
- Master’s in Computer Systems Engineering/Electronic & Communications Engineering (MEng)
- Master’s in Physics (MPhys)
- Master’s in Pharmacy (MPharm).

**Entry requirements**

To apply for a degree at Kent, you need good skills in English language. Check our table on p35 for entry requirements. You also need to meet the academic entry requirements – see course details at www.kent.ac.uk/ug

If you are unable to meet the entry requirements, you can still gain a place on your chosen degree via one of our pre-sessional courses (p34) or one of our foundation programmes (p36).

If your qualifications are specific to your country, you can check whether they are suitable at www.kent.ac.uk/internationalstudent

If you have studied at another university, you may be able to transfer your credits on to a course at Kent. You may also be able to use work experience as credits. Please email international@kent.ac.uk for details.

**How to apply for a degree**

The Universities and Colleges Admissions System (UCAS) is a national system. It allows you to apply for a place at up to five UK universities. Simply complete the online form at www.ucas.com/apply

- Students from the European Union are advised to apply by 15 January 2015.
- Students from outside the European Union should aim for 15 January 2015 to guarantee consideration. However, if places are left, we may consider applications up to 30 June 2015.

For advice on any aspect of your application, contact International Development, or one of our overseas representatives (see p91). If your application is successful, you will receive an offer from Kent. There are two types of offer: an ‘unconditional offer’ guarantees you a place on the course; a ‘conditional offer’ is based on certain conditions, such as examination results.

**Late applications**

A process called ‘clearing’ takes place in August. Kent lists all of the degrees that still have places and this can give you another chance to apply. For details, see: www.kent.ac.uk/clearing

**Working in the UK**

Some international students are able to find part-time work in the UK (please check your student visa conditions). For the latest information see, www.gov.uk/government/organisations/uk-visas-and-immigration or email queries to us at advice@kent.ac.uk
A Junior Year Abroad (JYA) allows you to study at Kent alongside undergraduate students. The programme runs for the full academic year from September to June and is for native speakers of English or those with an excellent command of the English language.

You can study on a wide range of degree programmes – see p46-71 for the subject areas that we offer. You choose your modules before you arrive. The academic credits you earn at Kent can be transferred to your degree at home. While you’re here, it’s also possible to gain a Diploma from the University. The Diploma can be used as a qualification in its own right or provide you with credits to transfer on to an undergraduate degree at Kent. It may also help you to gain entry on to one of our postgraduate degrees at Kent.

All JYA students take modules worth 120 credits, split over the autumn and spring terms. You can choose modules from any degree and from any level.

There are also opportunities for postgraduate students to join us at Kent for a short period of study. Please contact International Development for details.

Accommodation
You are given the option of living on campus, providing you make your application by 31 July. See p26 for details of accommodation.

How to apply
If your university already has an agreement with us, then please apply via your university’s own ‘study abroad’ office. If your university does not have an agreement with us, you can still apply directly to Kent. However, you need to check that your university will accept the study credits you gain at Kent. For details, see www.kent.ac.uk/studying/short-term

Fall or spring semester
The Semester programmes are similar to the JYA, except that students stay for a shorter period of time. See www.kent.ac.uk/studying/short-term for details

JYA English PLUS
If you do not have the skills in English language to take our JYA, you may be interested in the JYA English PLUS programme, which has been specially designed to meet the needs of students whose first language is not English.

Taught on the Canterbury campus, it offers a combination of language training, study skills and the opportunity to study academic modules from across the University.

The programme is offered in two different lengths: a full year (from May to April) or part year (eight months from May to December). After your first 18 weeks of English language study (May to September), we assess your language skills. This helps to determine which modules you should follow from September onwards.

How to apply
For JYA English PLUS, you need to make an application by 15 February 2015. To complete your application, you need certificates of your academic results to date, a personal statement, a copy of your passport, and the agreement of your own university (to allow the transfer of academic credits). For more information, please contact our International Development team on international@kent.ac.uk
PRE-MASTER’S GRADUATE DIPLOMAS (GDIP)

Our range of Pre-Master’s graduate diplomas (GDip) prepare you for, and provide access to, Master’s degrees at Kent.

They allow you to develop your knowledge of your subject, improve your academic skills and your English language proficiency. The GDip programmes take one academic year (from September to June). Successful completion at a sufficient level guarantees you entry on to specific postgraduate Master’s degrees at Kent.

At the beginning of the course, you discuss your module choices with the International Pathways Manager and a lecturer from your academic discipline. You are given advice and a bespoke timetable is created to meet your needs. The course is specifically designed to develop your subject knowledge while building your language and academic skills through the study of compulsory English for Specific Academic Purposes modules. In addition, you select modules in your chosen subject area.

Subject areas include:
- Biosciences
- Business and Management
- Classical & Archaeological Studies
- Comparative Literature
- Computer Science/Computing
- English Language and Linguistics
- French
- German
- Hispanic Studies
- Italian
- Law
- Philosophy
- Politics and International Relations
- Psychology
- Religious Studies.

Please see p83 for the details of our postgraduate programmes.

Entry requirements
Applicants should have the equivalent of an honours degree from a UK or other approved university in a related subject, or an equivalent professional qualification. Consideration will be given to applicants holding equivalent qualifications or work experience. The English language requirement is 6.0 IELTS with minimum of 6.0 in each section or equivalent, except for International Management with Management English, where the English language requirement is 5.5 IELTS, with a minimum of 5.5 in each section. For further details, see www.kent.ac.uk/international-pathways/graduate/gdip-entry.html

How to apply
Online at www.kent.ac.uk/international-pathways/apply except for the Computing diploma, where you should apply online via www.kent.ac.uk/pg

Further information
See www.kent.ac.uk/international-pathways/premasters-gdips

For details of the Computing diploma, see www.cs.kent.ac.uk
POSTGRADUATE STUDY

Taught programmes
We offer a range of challenging postgraduate taught degrees, delivered by academics who are at the top of their field and actively involved in research.

Most postgraduate students can complete a Master's in one full calendar year. The Master's in Architecture takes two years. You follow a structured course and teaching is provided in seminars (small group discussions), lectures, tutorials and, for some courses, practical workshops. If you are taking a Master's, you complete a dissertation or practical project. If you are taking a Postgraduate Diploma, this is not usually expected.

Our taught programmes are:
• Pre-Master’s Graduate Diploma (GDip)
• Postgraduate Certificate (PCert)
• Postgraduate Diploma (PDip)
• Master of Arts (MA)
• Master of Business Administration (MBA)
• Master of Architecture (MArch)
• Master of Science (MSc)
• Master of Law (LLM).

Student life
When you join us at Kent, you become part of a postgraduate community, both within your own school and across the entire University. Postgraduates on all campuses have access to a wide range of social, study and support facilities, including the following.

• Our Graduate School provides support for all our postgraduates to meet socially and flourish in a welcoming and interdisciplinary atmosphere.
• Woolf College on our Canterbury campus is dedicated to the needs of our postgraduate students. It provides student accommodation, as well as a lecture theatre, seminar rooms and public spaces for intellectual and social gatherings.
• Our teaching centres in Athens, Brussels, Paris and Rome are exclusively for the use of postgraduate students and focus on subjects relevant to their locations.

International study placements
Kent’s international links provide a range of opportunities for postgraduate students to undertake part of their study or research abroad. International mobility within postgraduate programmes offers an experience that can enhance academic, personal and professional development. For details of the options available, see www.kent.ac.uk/goabroad.

Global Skills Award
The Global Skills Award training programme, delivered by Kent’s Graduate School, is designed to broaden your understanding of global issues and current affairs as well as develop personal skills to enhance your employability. All students taking a taught Master’s degree are eligible to apply for a place, which is free of charge.

After graduation
In a competitive global job market, a Master’s qualification from Kent enhances your employment prospects and earning potential and sets you apart from those who have an undergraduate degree.

Studying at postgraduate level can often help graduates to move into a new career and some of our degree programmes are designed to offer professional qualifications in areas such as law or social work.

We have an excellent employability record – over 94% of our postgraduate students who graduated in 2013 found a job or further study opportunity within six months.

How to apply
You can apply using our online application form at www.kent.ac.uk/pg Make sure that you submit your supporting documents, such as certificates and references, when you make
Research programmes

Within your research programme, you gain specialist knowledge in your field and develop your research and analytical skills to the highest level.

The focus is on independent study. You work on a personal research project under the guidance of a supervisor – an academic who is an expert in their field. You receive training in research methods, attend academic conferences and perform independent research. Our Graduate School co-ordinates a Researcher Development Programme, which covers topics including subject-specific research skills, research management, communication, networking, teamworking and career management skills.

Research supervision

Kent’s world-class academics provide you with top quality supervision. All of our PhD students are assigned a supervisory team of specialists in their chosen research area. In some subjects (most commonly the sciences), students join a team as part of an ongoing research project.

Supervisors guide and support your research, and your progress is monitored to ensure that you are on track to produce a thesis of value to the academic community. Throughout your studies, you are able to attend and contribute to research seminars and workshops.

Kent’s academic community

Our PhD students make an important contribution to the University’s academic activities, often presenting their research. Most PhD students are offered the chance to teach Kent’s undergraduate students. This paid work enriches students’ knowledge of their subject area and helps them to develop communication and teaching skills.

Research programmes

- Master of Arts (MA)
- Master of Science (MSc)
- Master of Law (LLM)
- Master of Philosophy (MPhil)
- Master of Research (MRes)
- Doctor of Philosophy (PhD)
External research degrees
We offer some ‘external candidature’ research programmes, which allow you to remain in your home country while studying under the supervision of a Kent academic.

New Route PhDs
New Route PhDs are four-year programmes that provide professional and transferable skills for PhD students. The first two years consist of taught subject-specific modules, modules in research and professional skills training, and a research element. Years three and four focus on the research project and thesis. These programmes are ideal for those who are aiming to work at a senior level in business, industry or academia.

Erasmus Mundus Joint Doctoral programmes
Kent also co-ordinates two highly prestigious Erasmus Mundus Joint Doctoral programmes: Text and Event in Early Modern Europe (TEEME) and the Doctorate in Cultural and Global Criminology (DCGC). Each programme combines the expertise and strengths of four European universities with established reputations in a relevant field.

Jointly supervised PhDs
Jointly supervised PhDs (or co-tutelle awards) offer research students the chance to be supervised by a member of staff at the University of Kent and a member of staff at a university in another country, resulting in a dual award: a PhD from Kent and a doctorate from a partner university. To enquire about co-tutelles, email graddean@kent.ac.uk

International study placements
Kent’s international links provide a range of opportunities for postgraduate students to undertake part of their study or research abroad. International mobility within postgraduate programmes offers an experience that can enhance academic, personal and professional development. For details of the options available, see www.kent.ac.uk/goabroad

How to apply
You can apply online at www.kent.ac.uk/pg – make sure you include all your supporting documents, such as certificates and references, with your application. For advice, please contact International Development or one of our overseas representatives (p91), or email international@kent.ac.uk

EU students should email information@kent.ac.uk

Research success at Kent
In the most recent Research Assessment Exercise (RAE), Kent was ranked 24th out of 159 institutions for world-leading research. This means that we are considered among the best research universities in the UK. (The RAE is an independent survey of all research activity within UK universities.)

Over 55% of our research was rated as world-leading or internationally excellent and eight of our subject areas were rated in the top ten nationwide.

Kent’s excellent RAE results are an indicator of the excellence in world-leading research activity across the University. This high level of excellence is underpinned by our ability to attract externally funded research, which now consistently exceeds £12 million per annum.
CHOOSING YOUR DEGREE

Studying for a degree at Kent allows you to achieve the highest academic standards. Our schools are engaged in world-class research and in the most recent National Student Survey (2013), Kent scored an excellent rating of 90% for course satisfaction.

In this section, we offer a guide to Kent’s schools and centres as well as an A-Z list of the undergraduate and postgraduate degrees on offer.

83 / Postgraduate degrees
91 / How to find out more
AMERICAN STUDIES

The Centre for American Studies has a range of internationally recognised scholars who specialise in American film, literature, history and politics. Many of our students visit the United States or South America via our exchange system.

Excellent resources
American Studies benefits from excellent library resources, and is especially strong in US literature, film and history. Specialist collections include slavery and anti-slavery, a large collection of works on photography and visual imagery, and a slide library with well over 100,000 classified slides. The Centre maintains close links with a number of US research institutions and archives; Kent is also within easy reach of London’s major library resources.

Postgraduate studies
The Centre’s research reputation makes it an excellent place to pursue your postgraduate studies. It currently has three specialist research clusters: the American West, US environmental issues and the study of race, ethnicity and borders.

Study abroad
Undergraduate students have the option to specialise in American history, American literature or Latin American studies. The programme gives students the chance to cover long-established academic areas, from the Civil War and slavery, to contemporary politics, along with innovative modules on Native American literature, US environmental issues, and Latin American history and culture (including a Spanish language option).

Key facts
Location
Canterbury.

High course rankings

World-leading research
The Centre for American Studies is interdisciplinary. The research interests of its staff are diverse and cover literature, history, politics, film and Latin American studies.

In the most recent Research Assessment Exercise, History at Kent was ranked 2nd in the UK and English at Kent was ranked 18th in the UK for research quality.

Study abroad
Undergraduate students on a four-year degree can spend a year at one of our partner universities in the USA, Canada or South America. American Studies students spending a year in the USA do not have to pay American universities’ (often high) tuition fees. Undergraduate students on a three-year degree can study for a term in the USA, Canada or South America.
ANTHROPOLOGY AND CONSERVATION

Kent’s School of Anthropology and Conservation offers a range of discipline-specific and unique cross-disciplinary programmes. Courses are taught by research-active specialists using excellent facilities.

Undergraduate studies
Anthropology is concerned with understanding humans and their relationship with the world. We offer a BA in Social Anthropology, a BSc in Medical Anthropology and the BSc in Anthropology, which incorporates our expertise across the anthropological disciplines. It is possible to spend a year abroad on all of our anthropology programmes. We also offer a range of joint honours degrees.

Conservation is about people, communities, communication, the law, economics, politics, management and change. No conservation initiative will thrive in the absence of any of these components. We offer two distinct programmes; a BSc in Wildlife Conservation and a BA in Environmental Social Science. The former focuses on conservation biology and wildlife conservation while the latter takes a broad interdisciplinary approach focusing on human interactions with the environment. It is possible to gain practical work experience on our one-year placement programme.

Postgraduate studies
Our active research expertise, research profile and diverse community make Kent an excellent choice for postgraduate studies.

Anthropology prides itself on its inclusive and interdisciplinary focus. It takes a holistic approach to human society, combining biological and social perspectives. We offer a range of MA, MSc and PhD programmes across the fields of environmental, social, biological and visual anthropology and ethnobotany.

Conservation programmes are delivered via the Durrell Institute of Conservation and Ecology (DICE) and integrate international conservation and development sustainability by combining natural and social sciences to design measures that help to conserve biological diversity. We offer a PhD in Biodiversity Management which attracts students from around the world, many of whom go on to work in academia or in top flight jobs in biodiversity conservation.

World-leading research
The School is at the centre of contemporary debates about environmental change, human evolution, biodiversity loss and the response of distinctive social-cultural communities to globalisation. Our expertise is encompassed within four research pillars: Biological Anthropology; Socio-cultural Anthropology; Conservation Biology and Human Ecology.

Key facts
Location
Canterbury.

High course rankings

DICE
The Durrell Institute of Conservation and Ecology is housed within the School. It is Britain’s leading research and training centre dedicated to conserving biodiversity and the ecological processes that support ecosystems and people.

Careers
Over 85% of our graduates progress on to further study or relevant employment.

In the most recent Research Assessment Exercise, 55% of our research was rated ‘world-leading’ or ‘internationally excellent’. The School attracts grants and scholarships from a range of funders including national and international research councils, private trusts and government and non-government agencies.

We have worked in over 80 countries; for details of our current projects see www.kent.ac.uk/sac
Architects are one of the driving forces behind the development of our built environment and have a profound influence on all our lives. Architecture is shaped by politics and economics, and yet it fashions and responds to the social lives of cities and communities.

Kent School of Architecture (KSA) has an excellent team of academic staff who contribute strengths in historical, environmental, technical and digital aspects of the subject.

Professional training
Our BA and MArch programmes, provide Part 1 and Part 2 of the qualifying examinations required to become a professional architect in the UK, as prescribed by the Architects Registration Board (ARB) and validated by the Royal Institute of British Architects (RIBA). They provide a grounding in design, cultural context, environment and technology, management, practice and law (MPL), and communication.

The BA (Part 1) covers: renewal and regeneration, landscape and the space between buildings, the design of housing and communities, and urban planning and the quality of urban life. During the MArch (Part 2), students become more self-reliant in designing a major project and satisfying the demands of a complex brief. They also specialise in a particular area and develop skills complementary to their design work.

A period of practical training or ‘year out’ is normally taken between Parts 1 and 2, when students find employment in an architectural practice.

Postgraduate programmes

Professional links
The School has excellent contacts with businesses and culture, including organisations such as the Kent Architecture Centre, RIBA and Kent County Council.

Kent also has links with schools of architecture in Lille, Bruges, Amsterdam, Rome, Düsseldorf and the USA (Virginia and California). MArch students can apply to study abroad at Virginia Tech in the USA, and there are many other opportunities for overseas exchange.

Students are able to take part in a mentoring scheme organised in collaboration with RIBA, which involves students in events with local practices.

Key facts
Location
Canterbury.

High course rankings
Kent was ranked 14th in the UK for Architecture in The Guardian University Guide 2015.

First-class facilities
The School of Architecture studios include a dedicated computing suite with a range of environmental and construction software, located in the main top-lit studios and seminar rooms, as well as a Digital Crit space. There is a fully equipped traditional and digital model-making workshop for constructing models and large-scale prototypes.

International reputation
Many of the School’s lecturers are highly active within contemporary debates and give papers at conferences nationally and internationally. Within the School is the Centre for Research in European Architecture (CREATe) and the Centre for Architecture and Sustainable Environment (CASE).

International scholarship
The School offers a scholarship for its MSc programme in Architectural Conservation; please contact us for further details.
The School of Arts has an international reputation for its teaching and research, and offers top-level arts teaching and research facilities.

The School is based in the Jarman Building and has teaching rooms, social spaces and a dedicated centre for postgraduate students. We have professional-standard drama studios, two theatres, a sound studio and a theatre design suite. There are also industry-standard film production facilities and viewing and library facilities, including our new Lupino Cinema for film screenings. Our Studio 3 Gallery has hosted work by artists, such as Peter Blake and Tracey Emin.

Drama and Theatre
This degree focuses on theatre from traditional text-based theatre to innovative performance practice; from theatre management to community theatre. Close links with the profession are reflected in guest lectures and opportunities for placement learning, leading to an excellent employment record. The School has partnerships with some of the major players in theatre including: Battersea Arts Centre, the Royal Shakespeare Company and The Gate.

Film
Film at Kent offers the chance to engage with cinema’s rich scope and history, from silent classics and mainstream Hollywood to world cinema and the avant-garde. Kent has a thriving film culture, with the Gulbenkian Cinema based on campus and a lively student film society. The focus is on traditional academic studies, but there are opportunities for innovative and creative practical studies, for example, in film programming or film criticism.

Art History
This degree offers a critically engaging and expansive approach to the discipline of art history, with modules covering art from the Renaissance to today and including photography and aesthetics. Many modules involve visits to London galleries, overseas visits to museums and other out-of-classroom activities.

History & Philosophy of Art
This degree combines the history of the visual arts with the study of the ideas that have driven artists to make the works they have. We have established strengths in contemporary art, photography, aesthetics, and European painting from the Renaissance. The degree also offers a number of practice-based courses to enable students to gain professional skills, such as print collecting and curating, photography, visual arts writing, drawing and an internship course enabling students to work for a major arts organisation.

Postgraduate studies
The strength and diversity of the School’s research allows it to offer a wide range of innovative postgraduate degrees. These include MA programmes with the chance to study for a term in Paris or Rome.

Key facts
Location
Canterbury.

High course rankings
Kent was ranked 10th in the UK for Drama and Dance, 2nd for Film and 8th for History of Art in The Guardian University Guide 2015.

World-class research
In the most recent Research Assessment Exercise (RAE), the School of Arts was ranked as one of the two best departments in the UK in terms of ‘research power’. This recognises both the quality of the research and the scale of the submission.

Study abroad
The School of Arts currently has arrangements for exchanges with universities across Europe, America, Asia and other destinations overseas, to allow you to spend either a term or year abroad.

Contemporary facilities
Our Jarman Building won a prestigious RIBA (Royal Institute of British Architects) Award in May 2010.

See also Music and Fine Art, p63.
The School of Biosciences provides a stimulating, supportive environment and has been rated one of the best departments in the country by its students.

The School of Biosciences has undergraduate degrees in Biochemistry, Biology and Biomedical Science and all of these programmes offer the chance to work in industry or study abroad for a year.

Biochemistry
Biochemistry deals with the way living organisms function at the molecular level. This covers organisms ranging from simple viruses and bacteria to mammals like ourselves. Biochemistry has a major impact on many of the problems that face mankind today, particularly in the areas of medicine, agriculture and the environment.

Biology
Biology influences our everyday lives, and is at the forefront of social change, for example, in stem cell research, genetically modified organisms, humanity’s effect on the environment, and the potential risks of some foods. It focuses on living organisms and their interactions with the environment.

Biomedical Science
Biomedical Science studies the biochemical processes that occur in the human body, especially in response to diseases or infection, making this a good choice for those interested in a career in the health services, the pharmaceutical industry or medical research.

Professional recognition
All four-year sandwich courses are accredited by the Society of Biology (SoB) and all Biomedical Science degree programmes are accredited by the Institute of Biomedical Science (IBMS).

Postgraduate studies
The School is an excellent choice for postgraduate studies. It ranks among the most active in biological sciences in the UK, with research funding in excess of £2.5 million per annum. We have recently refurbished our research laboratories and have MSc courses in: Cancer Biology; Drug Design; Infectious Diseases; Reproductive Medicine; Science and Ethics; Biotechnology and Bioengineering; and Science, Communication and Society.

Research in the School focuses on systems and processes in living cells. Our expertise in biochemistry, microbiology and biomedical science allows us to develop groundbreaking ideas in genetics, molecular biology, protein science and biophysics.

Key Facts
Location
Canterbury.

High course rankings
Biomedical Science has been ranked in the top ten in seven of the last nine National Student Surveys for student satisfaction.

World-class research
In the most recent Research Assessment Exercise, 35% of research was ranked as ‘world-leading’ or ‘internationally excellent’. A further 40% was ‘internationally recognised’.

Summer studentships
Each year, the School funds 15-20 competitive, eight-week summer studentships for undergraduates which offer hands-on research experience.

Research groups and centres
• Bacterial Pathogenesis and Sensing
• Bioprocessing and Molecular Therapeutics
• Cancer Targets and Therapies
• Centre for Molecular Processing
• Genomics and Reproductive Medicine
• Computational Biology
• Kent Fungal Group
• Molecular Motors and Cytoskeleton
• Protein Folding and Structural Biology
• Synthetic Biology
Kent Business School (KBS) provides a multicultural learning environment with a supportive and flexible approach to teaching.

Undergraduate studies

Business and management

Our degrees in Business Administration and Business & Management combine excellent academic training with good career prospects. You master areas including: accounting, human resource management, management science, strategy, and operations management. The International Business degree focuses on the global business environment; with the option to study a European language and spend a year overseas. Our Marketing degree gives you the skills to be successful in a competitive global environment; with the option to take a one-year work placement.

Accounting

Our accounting degrees respond to the needs and expectations of the accountancy profession. Accountants check the validity of company accounts – auditing – but also devise financial systems, conduct investment analysis, or advise on takeovers and taxation.

Postgraduate studies

The School offers a range of Master’s and PhD programmes.

• The Kent MBA first received accreditation in 2005, and has gained an international reputation for its innovative structure, which includes a European study tour and consultancy week.

• Master’s programmes in management allow graduates from any discipline, to pursue a career in management.

• MSc programmes in Management Science and Business Analytics benefit from Kent’s large research-active group in this area.

• Our Master’s programmes in finance and accounting comply with the requirements of the professional bodies and respond to the needs of the finance, accounting and financial services sectors.

• Our MSc in Human Resource Management (HRM), accredited by the Chartered Institute of Personnel and Development (CIPD) provides an insight into the key areas and international influences of HRM.

• The MSc in Logistics and Supply Chain Management is taught by experts from the Centre for Logistics and Heuristic Optimisation.

• The MSc in Marketing, accredited by the Chartered Institute of Marketing (CIM), enhances your marketing knowledge, giving you the expertise necessary for a career in a marketing-related position.

Key facts

Locations
Canterbury and Medway.

High course rankings
Kent was ranked 9th in the UK for student satisfaction in business in the most recent National Student Survey.

World-class research
In the most recent Research Assessment Exercise, 55% of our research was rated ‘world-leading’ or ‘internationally excellent’.

International links
KBS is a member of the European Foundation for Management Development (EFMD) and also has links with a number of top-class partner universities around the world. We attract student applicants from over 100 countries.

Work in industry/study abroad
Undergraduate students can make use of the School’s links with industry, and gain valuable experience, by spending a year either on a work placement or studying at one of our overseas partners in Europe or Asia.

Gain enterprise skills
The School offers modules on entrepreneurship that can give you the expertise you need to start your own business.
As an internationally recognised Centre of Excellence for programming education, the School of Computing is a leader in computer science teaching.

The School offers undergraduate degrees in Computer Science, Computing and Business Information Technology, as well as joint honours degrees in computing.

**Computer Science**

Computer Science is an exciting and rapidly developing subject that offers excellent employment prospects. Our degrees provide you with an understanding of the fundamentals of computer science as well as offering you a range of options in areas such as computer security and cryptography, mobile and ubiquitous computing, concurrency, data mining and cognitive neural networks.

**Computing**

Our degrees in Computing give you the skills you need for the application of computing to areas found in industry. These include e-commerce, information systems, and computer consultancy.

**Business Information Technology**

Business Information Technology incorporates much of the Computing course, but also includes financial accounting, marketing and enterprise.

**Computing (joint honours)**

A computing joint honours degree allows you to gain a thorough understanding of the application of computers, while studying another subject of your choosing.

**Kent IT Consultancy (KITC)**

Students can work as a consultant in the KITC, earning credit towards their degrees. The KITC offers a consultancy service to local businesses, including network management, web design and software development.

**Industry links**

We have strong links with industry, including companies such as IBM, Microsoft, Disney, HSBC, Oracle and Cisco.

**Makerspace**

The School has recently built a makerspace on the Canterbury campus, which offers exciting new teaching and collaboration opportunities. Among other equipment, it contains milling machines, a 3D printer, laser cutter and extensive space for building and making digital artefacts.

**Postgraduate study**

The School offers an inspiring environment for postgraduate students. It produces world-leading research in areas such as systems security, communications and memory management, as well as interdisciplinary work with biosciences and psychology. Two of our staff hold Royal Society Industrial Fellowships.

**Key facts**

**Location**

Canterbury and Medway.

**High course rankings**

The School of Computing is ranked 12th in the UK for graduate prospects in *The Guardian University Guide 2015*.

**World-class research**

In the most recent Research Assessment Exercise, 65% of our research was rated ‘world-leading’ or ‘internationally excellent’.

**Teaching excellence**

Two of our staff have received the ACM Award for Outstanding Contribution to Computer Science Education. The School is also home to two National Teaching Fellows, to authors of widely-used textbooks and to award-winning teaching systems such as BlueJ and Greenfoot.

**A year in industry**

The majority of the School’s undergraduate students choose to spend a year working in industry and this option is also available on our MSc programmes. Our Placement Team help our students to secure employment in a wide range of companies, including IBM, CERN, ARM, Cisco and Accenture, with employers both in the UK and abroad, including Switzerland, Hong Kong and the USA.
Economics examines some of the profound issues in our life and times, including: economic growth and sustainable development, emerging market economies, financial and monetary crises, environmental problems, international trade and aid to poor countries.

Undergraduates in the School of Economics have the opportunity to learn about these issues from economists who are highly regarded within the profession for emphasising the practical application of economics in all these arenas.

The undergraduate degrees on offer include a range of single honours and European programmes (which include the study of a language and a year in France, Germany or Spain).

Within our postgraduate student community, about half the students originate from outside the UK and Europe, including Africa, China, India, the Middle East, Pakistan, Russia and the USA. We have strong links with universities in Australia, Bulgaria, China, France, Germany, Japan and the USA, among others. This multicultural environment allows you to build the foundations for an international professional network.

Research strengths
The School has an international reputation for research in key areas of economics. Many staff advise government bodies including the UK Treasury, the Department for Environment, Food and Rural Affairs (Defra), the Department for International Development (DFID), and the European Commission. Staff also advise international organisations including the Organisation for Economic Co-operation and Development (OECD), the World Bank, the European Central Bank (ECB), and the United Nations Conference on Trade and Development (UNCTAD).

Postgraduate study
The School's taught courses offer excellent training in core economics with the chance to specialise in areas such as finance, econometrics, development, agriculture and the environment. Economics staff also teach on Kent’s postgraduate courses in Brussels. For research students, staff in the School can supervise PhDs in most major areas of the discipline, with particular strengths in macroeconomics, labour economics, applied microeconomics, time-series econometrics, agri-environmental economics, international trade and finance, and migration.

Key facts
Location
Canterbury.

High course rankings

World-class research
In the most recent Research Assessment Exercise, the School was ranked 16th in the UK; 75% of our submitted research was rated as either ‘world-leading’ or ‘internationally excellent’.

A year in industry
Undergraduate students can spend a year working in industry. The School has a placement officer who can offer advice and guidance.

Study in mainland Europe
Our European Economics undergraduate degrees provide an opportunity to study at one of our partner universities in France, Germany, Greece or Spain.
The School of Engineering and Digital Arts combines modern engineering and technology with the exciting field of digital media.

The School offers the following undergraduate degrees.

**Bioengineering**
This programme draws on established expertise in developing medical-electronic systems. You undertake laboratory practicals in both electronics and biology, and design bionics-related electronic systems under the supervision of academics from engineering and biosciences.

**Electronic and Communications Engineering**
Electronics-based products play a vital role in our lives, from diagnostic equipment used in hospitals to leading-edge fibre optic communications. We use state-of-the-art technology, which means you work at the forefront of all the major areas of electronic engineering, with the chance to turn ideas into real systems. It is possible to spend a year studying in Hong Kong.

**Computer Systems Engineering**
The range of uses for computers is increasing all the time – from smart phones and games consoles to aircraft flight control systems and global telecommunications. This degree develops the skills and expertise needed to design computer systems. It covers computer hardware and software, including electronics, interfacing and communications systems. It is possible to spend a year studying in Hong Kong.

**Digital Arts**
Digital technology has had a tremendous impact on all forms of communication in the 21st century. In this degree, you develop knowledge in areas such as interaction design, web design, digital film-making, computer animation and special effects. You are taught by experts in animation, communication, website design, film-making and photography.

**Multimedia Technology and Design**
Computing, communications and entertainment have converged to create new media possibilities. These industries need people who can combine digital technology skills with creative ability. This degree develops knowledge in areas such as web development and interactive applications, digital photography, digital film-making, 3D modelling and special effects.

**Postgraduate studies**
Our spread of research expertise allows us to respond rapidly to new developments and makes the School a good choice for your postgraduate studies. We have research funding from the UK Research Councils, European research programmes, industrial and commercial companies and government agencies.

**Key facts**

**Location**
Canterbury.

**High course rankings**
The School of Engineering and Digital Arts was 12th in the UK in the 2013 National Student Survey and 11th in The Guardian University Guide 2015 for student satisfaction.

**World-class research**
In the most recent Research Assessment Exercise, 40% of our research was rated ‘world-leading’ or ‘internationally excellent’, with a further 45% judged as ‘internationally recognised’.

**Creative facilities**
Students have access to our extensive computer suites as well as photographic and production studios, with green-screen, motion-capture and 3D scanning facilities. Our Digital Media Hub provides an opportunity to work on client-led projects.

**Professional links**
Staff meet regularly with senior industrialists to ensure that our courses keep up to date with industry, and undergraduates have the chance to spend a year working in industry.

Our degrees in Electronic and Communications Engineering and Computer Systems Engineering are accredited by the Institution of Engineering and Technology (IET).
There are several research centres based in the School, including:
- Centre for Colonial and Postcolonial Research
- Centre for Creative Writing
- Centre for Gender, Sexuality and Writing
- Centre for Modern Poetry
- Centre for Studies in the Long 18th Century
- Centre for Victorian Literature and Culture.

These research centres organise international conferences, symposia and workshops.

Two other research centres have strong input from the School: the Centre for Medieval and Early Modern Studies, and the Centre for American Studies. The School also plays a pivotal role in the Kent Institute for Advanced Studies in the Humanities.

**Literary culture**

Creative writers within the School have been nominated for the Booker Prize and the Orange Prize. We also have a John Llewellyn Rhys prizewinner and a Time Out ‘Book of the Year’ writer.

The School regularly hosts visits by a variety of international writers and critics.

**Study abroad**

Undergraduate students have the opportunity to spend a year studying in the USA, Canada, mainland Europe or Asia.

**Research strengths**

Our expertise ranges from the medieval to the postmodern, including British, American and Irish literature, postcolonial writing, 18th-century studies, Shakespeare, early modern literature and culture, Victorian studies, modern poetry, critical theory and cultural history.

We also count a number of distinguished creative writers among our staff, and we actively explore crossovers between critical and creative writing in all our areas of teaching and research.

---

**Key facts**

**Location**

Canterbury.

**High course rankings**

In *The Guardian University Guide* 2015, English at Kent was ranked 14th in the UK.

**World-class research**

In the most recent Research Assessment Exercise, the School was ranked 18th in the UK for research quality, with 65% of the School’s research rated as ‘internationally excellent’ or ‘world class’.

**Excellent career prospects**

The School has an excellent reputation for graduate employment. Recent graduates have gone into areas such as journalism, broadcasting and media, publishing, writing and teaching, as well as general areas such as marketing analysis and project management.

**MA in Paris**

Several of our Master’s programmes, including English and American Literature, Creative Writing, Eighteenth-Century Studies, and Postcolonial Studies allow you to share your year between Canterbury and Paris (the latter in the heart of Montparnasse).
EUROPEAN CULTURE AND LANGUAGES

The School offers an extensive range of degrees in all aspects of European cultural life (including language, literature and film) and also in Asian studies, world literature, philosophy, religious studies, classics, ancient history and archaeology.

We offer undergraduate degrees in the following areas.

Ancient History
You explore the ancient civilisations of Egypt, Greece and Rome focusing on their history or choosing to follow a pathway such as ancient literature or archaeology.

Asian Studies
Asian Studies is available as a joint honours programme. You develop your awareness of the interpretive, cultural and political challenges to understanding Asian cultures and civilisations both historically and today. You also have the opportunity to study an Asian language and can choose to spend time studying abroad in an Asian country of relevance to your studies, either for an entire year, or for a shorter period of time.

Classical & Archaeological Studies
This degree includes the study of literature, mythology, drama, archaeology, art and architecture, history, languages and philosophy. You also have the option to learn Latin or Ancient Greek and the chance to take part in fieldwork.

Comparative Literature
Degrees in Comparative Literature cover literature from the classics to the modern age. We investigate literary movements, and how and why literary forms have evolved in different cultures. Texts include translations into English of major literature, alongside literature written in English.

English Language and Linguistics
This degree allows you to enter a dynamic field of study which is crucial to our understanding of spoken and written language in all its complexity. It explores the structure of language and its relationship with society and covers aesthetics, globalisation and the psychology of language.

Languages
Canterbury’s location makes it the closest UK university to the continent, making it an ideal place to study European languages in a supportive English-speaking environment. The School offers degrees in French, German, Hispanic Studies and Italian,
Postgraduate studies
The School offers an ideal environment for postgraduate studies. We have an active, interdisciplinary research culture, with research centres focusing on heritage, language and linguistic studies, late antique archaeology, modern European literature and a centre for reasoning.

We offer subject-specific skills training for all our postgraduate students, which complements the general skills training offered by the University’s Graduate School. The School also offers a variety of scholarships; for details see www.kent.ac.uk/secl/postgraduate/funding.html

In addition to our Canterbury-based programmes, the School offers programmes that allow you to spend time in Paris, Athens or Rome. The MA in Heritage Management is taught in Athens. The MA programmes where you spend a term studying at our centre in Paris are Comparative Literature, Religion (subject to approval), Postcolonial Studies, Modern French Studies and French and Comparative Literature. Our centre in Rome offers Ancient History, Roman History and Archaeology, and Rome – Ancient and Modern (subject to approval).

For details of the University’s Athens, Paris and Rome centres, see p24-25.

Key facts
Location
Canterbury.

High course rankings
In the 2013 National Student Survey, the School achieved outstanding results for student satisfaction. For example, it was ranked:
• 2nd for Comparative Literature
• 9th for Linguistics
• 10th for Iberian Studies
• 12th for Archaeology
• 14th for Classics.

In The Guardian University Guide 2015, Kent was ranked 8th for Classics and Ancient History and 15th for modern languages and linguistics.

World-class research
The School achieved high ratings in the most recent Research Assessment Exercise with research in French ranked 7th in the UK.

Historic location
The Cathedral and its excellent theological libraries make Canterbury a rich environment for religious studies.
The School of History at Kent is recognised as one of the leading departments in the UK, renowned for its research excellence, flexible programmes and quality teaching.

Students are taught or supervised by passionate academics, active researchers and recognised experts. The School has expertise in British, European, African and American history with particularly strong research in medieval, early modern and modern cultural and social history, religious history, science and medical history, and colonial and imperial history.

History
Our undergraduate History programme allows you to tailor your degree entirely to your own interests. With over 70 modules available, you are encouraged to study new areas of history, with topics as diverse as Anglo-Saxon England and the history of colonial Africa.

Military History
This innovative degree builds upon the range of specialist research interests within the School. Choosing from a wide variety of modules, you strive to understand the issues that drive countries, ethnic groups or individuals to war, and study how warfare has changed with the introduction of new technology. From the Hundred Years’ War to the global war on terror, the modules cover war throughout history.

Joint honours
The School is also pleased to offer a broad selection of joint honours degrees, offered in association with other subjects and schools.

Historic location
Canterbury is an ideal location for studying the past. Steeped in history, its medieval heritage is apparent in its ancient streets and buildings. Canterbury is also home to Canterbury Cathedral, St Augustine’s Abbey and St Martin’s church. Together, they are recognised as a World Heritage Site.

The University is also in a unique geographic position to study war and its effects. Canterbury and Kent have been ‘front-line Britain’ in British military history and contain significant military sites, ranging from Roman forts to a Cold War nuclear bunker.

Postgraduate studies
We offer a range of taught programmes, including: Modern History; War, Media and Society; and Science, Medicine, Environment and Technology. In collaboration with other schools, we also offer taught programmes in Medieval and Early Modern Studies; Science, Communication and Society; and American Studies.

Key facts

Location
Canterbury.

High course rankings
History at Kent was ranked 10th in the UK, the National Student Survey 2013.

World-class research
Kent was rated 2nd in the UK for History in the most recent Research Assessment Exercise.

Study in mainland Europe
Undergraduate students on the European History programme have the opportunity to spend a year studying at a university in France or Germany, or taking a work placement. The MA in Modern History programme offers the chance to study for a term in Paris.

Historic resources
Kent’s library has an excellent collection of primary sources such as the British Cartoon Archive, newspapers, a large audio-visual library, and a complete set of British Second World War Ministry of Information propaganda pamphlets. It has specialised collections on slavery and anti-slavery, and medical science. Students have access to the Canterbury Cathedral Library and Archive; the Centre for Kentish Studies; and the National Maritime Collection.
In a world hungry for information about issues ranging from global warming to fashion and from armed conflict to football, today’s media market needs multimedia journalists with cutting-edge academic and vocational skills and a highly developed awareness of ethics.

Undergraduate degree
Kent’s Centre for Journalism offers a professionally accredited BA in Journalism degree, which is ranked among the best in the UK by the National Council for the Training of Journalists (NCTJ). You study for an honours degree that includes history, politics and law, while completing the NCTJ Diploma in Journalism, and learning the radio, television and online skills required by the Broadcast Journalism Training Council (BJTC). Tutors include working reporters and columnists, former editors of national newspapers and magazines, radio and television network broadcasters, and web publishers. Their expertise is reinforced by excellent academic teaching by leading historians, political scientists and lawyers.

Excellent resources
The Centre is based in state-of-the-art multimedia newsrooms equipped with the latest audio and video-editing technology, and broadcast-quality radio and television studios. There are separate newsrooms for UG and PG students. All students have access to Press Association news wires, Sky News Radio and Reuters World Television News feeds. They use the Centre’s dedicated multimedia website, which offers live publishing facilities in text, audio and video. Professional skills are taught in a live newsroom environment, which replicates the atmosphere of a working multimedia newsroom. See www.centreforjournalism.com for details. There are also excellent resources for journalism research in Medway’s Drill Hall Library.

Guaranteed placements
For our undergraduates, and for postgraduates on the MA in Multimedia Journalism, work placements with the Kent Messenger Group are guaranteed.

Postgraduate studies
Postgraduate programmes include the professionally accredited MA in Multimedia Journalism and the MA in International Multimedia Journalism. The Centre also offers you the opportunity to research and learn in an environment that combines excellence in the practice of multimedia journalism with intellectual leadership in the history, ethics and future of the news industry. The Centre is leading the development of journalism as an academic discipline. It enjoys strong links with the School of History, Kent Law School and the School of Politics and International Relations.

Key facts
Location
Medway.

High course rankings
Journalism at Kent was ranked 1st in the UK in The Guardian University Guide 2015.

Professional recognition
The BA in Journalism and the MA in Multimedia Journalism are accredited by the NCTJ and the BJTC.

Good industry links
There are guest lectures and masterclasses by working journalists and editors, including Jon Snow, Stephanie Flanders and Stuart Ramsay.

Industry scholarships
BA Journalism students can compete for the Bob Friend Scholarship, which offers a cash prize of £3,500 and a month-long, funded placement at Sky News. They can also apply for the Royal Television Society Bursary Scheme which offers a bursary of £1,000 a year for three years. Two Daily Mail scholarships are available, each worth £5,000 and work experience at Associated Newspapers – one to a final-year undergraduate, the other to a student on the MA in Multimedia Journalism. UK-based students on the MA in Multimedia Journalism can also apply for the Stationers’ Foundation £6,000 bursary.
Kent Law School (KLS) is recognised as one of the leading law schools in the UK. It has an international reputation both for its research and for the high quality, innovative, critical and socio-legal education that it provides.

At Kent, you learn and think about the law within the broader context of society – understanding the way law impacts and is impacted by morality, public perception, politics and world events. We offer a wide range of optional modules, allowing you to shape your degree to your interests. In addition, we run a highly successful ‘mooting’ programme, where mock legal presentations are made in a ‘moot’ court; KLS also houses a multi-award-winning Law Clinic where students can practise law with the supervision of qualified solicitors, representing clients in real cases. The University has an extensive paper Law Library, with its electronic Law Library giving access to thousands of legal texts and professional-standard legal databases.

Outstanding teaching
You are taught by outstanding lecturers, including the 2012 winner of the national Law Teacher of the Year award. (Kent is the only UK Law School to have had staff shortlisted for this award for three consecutive years). Academics author leading legal texts, and take an innovative approach to teaching that brings the law to life.

Global outlook
The Law School is international in character with students from over 70 countries as well as staff from around the world. Our curriculum offers a comparative and global perspective to law, giving students the freedom to analyse international legal developments.

We offer exchange programmes with universities in France, Italy, Germany, Spain, Sweden, Finland, Denmark, Austria, the Netherlands, the Czech Republic, Canada, China and Hong Kong and encourage our students to develop their studies in an international context.

Postgraduate courses
KLS is a centre of world-class critical legal research, offering a stimulating place to study a variety of postgraduate degrees with an international focus. Much of our teaching and research is based upon a critical and socio-legal approach to the study of law; our students learn and discuss the law with leading academic experts inside and outside the classroom.

Our innovative Kent LLM allows you to specialise in one or more areas of law, taught from an international perspective. Programmes are open to applicants without a background in law, and attract a range of law graduates, non-law graduates and professionals wishing to develop their legal knowledge.

Key facts
Locations
Canterbury and Medway.

High course rankings
In the 2013 National Student Survey, Law is ranked 7th for student satisfaction.

World-class research
In the most recent Research Assessment Exercise, Law at Kent was ranked 6th nationally for research quality, with 65% of our research rated ‘world-leading’ or ‘internationally excellent’.

Award-winning work
The Kent Law Clinic has received numerous awards for its work, including a Queen’s Anniversary Prize in 2008. More recently it has won Attorney General’s Awards in 2011 and 2012 (including ‘Best Contribution by a Law School’ in 2011), and in 2012 and 2013 was shortlisted for an industry-leading The Lawyer award.

Our centre in Brussels
Various postgraduate law programmes allow our students to study at our centre in Brussels, taking advantage of its position at the heart of the European Union.

Student societies
The Law School is home to student-led societies, which organise professional and social events, with international students prominently involved.
LIBERAL ARTS

A truly liberal education prepares you to live a productive and creative life in a fast-changing world. It fosters well-grounded intellectual resilience, a disposition to life-long learning and an acceptance of responsibility for ideas and actions.

Kathryn Yatrakis, Dean of New York’s Columbia College, Columbia University writes that: ‘The University of Kent in Canterbury’s new Liberal Arts programme will be very attractive to those high-achieving students who well understand that interdisciplinary study and thinking, combined with disciplinary training, is the way to best prepare for the professional world of the 21st century’.

The programme
Kent’s Liberal Arts programme enables you to see the world from a range of perspectives – political, cultural, historical and economic – and develops your understanding of how these impact on each other. At the heart of the programme is a core set of required modules that provide interdisciplinary skills for analysing and understanding how and why we think, and act, the way we do. Through collective discussion and debate around key readings, you engage with the social sciences, physical sciences, arts and humanities. You develop an understanding of the impediments to communication between different academic disciplines; of technological and economic revolutions that configure human cultures; and of the wide range of forces that shape events.

Students develop a high standard of capability in another language (European or non-European) and choose further modules from those offered across the University so as to foster individual interests and career trajectories. Seminars in the compulsory modules serve as sites where students’ diverse learnings are brought together in discussion and debate, making interdisciplinary communication an ongoing and engaged collective project.

Year abroad and dissertation
You spend a year between your second and final year studying or working abroad. We have links with top-ranking universities and NGOs across the globe. Your final year includes a dissertation module, enabling you to focus on a topic related to your year abroad, or on a research question of your own choosing.

Career opportunities
The versatility of Liberal Arts graduates – a result of their interdisciplinary experience, their engagement with qualitative and quantitative data analysis, their linguistic facility, and their critical acumen – qualifies them for postgraduate study and makes them highly marketable to prospective employers.

Key facts
Location
Canterbury.

High-ranking university
In The Guardian University Guide 2015, the University of Kent is ranked 20th in the UK.

In the 2013 National Student Survey, Kent is ranked in the top 10* in the UK for overall student satisfaction, being in a select group to score 90% or above.

High course rankings
You are taught by academics chosen from among the most highly rated schools in the University. Liberal Arts is sited in the School of Anthropology and Conservation, ranked 3rd for teaching in the 2013 National Student Survey and 3rd for student satisfaction with teaching in The Guardian University Guide 2015.

World-class research
Kent was ranked 24th in the UK for world-leading research in the most recent Research Assessment Exercise (2008). Of our academic staff, 97% work in schools or centres where the research is rated as internationally or nationally excellent.

*of all publicly funded, multi-faculty universities.
Within the School of Mathematics, Statistics and Actuarial Science (SMSAS) you are under the guidance of internationally renowned academics who also have an excellent reputation for support and training.

Actuarial science and finance
Actuaries evaluate and manage financial risks, particularly in the financial services industry. They form an influential and well-paid profession and qualifying as an actuary is a passport to a variety of careers. The compulsory actuarial modules are taught by qualified actuaries with years of experience and our undergraduate degree is one of the few in the UK to achieve full accreditation from the profession.

Our postgraduate programmes in financial mathematics and finance, investment and risk, provide a grounding in the theory and application of corporate finance, investment and risk management and prepare graduates for careers as investment and risk managers, quantitative analysts and other roles in the world of finance.

Mathematics and statistics
Mathematics is important to the modern world. All quantitative science is based on it and it provides the theoretical framework for physical science, statistics, data analysis and computer science.

Our undergraduate and postgraduate programmes reflect the diversity and the excitement generated by new discoveries within mathematics and statistics that affect our understanding of the world.

Postgraduate research degrees
The School has a strong reputation for world-class research and a well-established system of support, making it an excellent choice for postgraduate studies. Kent offers PhD degrees in all the disciplines covered by the School.

Professional recognition
Many of our degrees are accredited by professional bodies. All actuarial science degrees are fully accredited by the Institute and Faculty of Actuaries. They offer exemptions from many of the professional examinations, providing a fast-track route to qualifying as an actuary. Students can also gain exemption from some of the examinations set by the Chartered Insurance Institute.

The MSc in Finance, Investment and Risk has been accredited by the CFA Institute and has gained CFA programme recognition status. Accreditation arrangements for the new MSc in Financial Engineering and Risk Management are in progress with GARP, the body that awards the professional risk managers’ qualification, FRM.

Postgraduate degrees in statistics are fully accredited by the Royal Statistical Society and offer Graduate Statistician (GradStat) status as a first step towards becoming professionally qualified as a Chartered Statistician. Holders of our undergraduate degrees in Mathematics and Statistics may be eligible for GradStat status.
In the School of Music and Fine Art, you are taught by talented academics who are also practising artists, musicians and composers. You have use of first-class technical resources and studio spaces and are helped to develop your own vision while working in a community of artists.

The University of Kent has invested millions of pounds at the Chatham Historic Dockyard to create new, specialist facilities for music and the arts, making us one of the most interesting and exciting places to study in the UK.

We have space for music performances, art exhibitions and live events. Musicians can use our range of practice and rehearsal rooms, and all of our art students have their own studio space. There are industry-standard recording studios, film and multimedia audio-visual editing suites, and music post-production rooms. We also have workshops for woodwork, metalwork, casting, plasterwork, textiles and printing.

Event and Experience Design
This unique degree is dedicated to producing skilled practitioners for the creative events industry, and helps you to find ways of making extraordinary acts of imagination come to life. Our students explore creative, practical and logistical approaches to a range of events and experiences from public performances to product-launches and community celebrations. The programme is delivered through project work that reflects the interdisciplinary nature of the field.

Fine Art
Fine Art students work in a diverse range of media to develop their creative ideas and have the chance to integrate critical debate and the theory of art with the development of practice-based work. Today, students of Fine Art are just as likely to stage exhibitions, produce critical and creative writing, make films and performances, as to create ‘traditional’ art. We encourage students to follow their own research interests, whether that is painting, sculpture, film, video and photography, installation, or curation and critical writing.

Music and Audio Arts
Our Music degrees allow you to focus on your chosen specialism, whether this is performance, composition, music recording and production, music history, film music or surround-sound technologies. On the Music and Popular Music degrees you have instrumental lessons and you are encouraged to play and perform to a high standard. Our Music Technology degree investigates audio technologies in more detail, covering expertise in audio hardware and software, electronic music, sound design, as well as acoustics and psychoacoustic theory.

Key facts
Location
Medway.

High course rankings
Kent was ranked 10th in the UK for Art and Design in The Guardian University Guide 2015.

World-class research
The Sound–Image–Space Research Centre is the focus for the School’s research, and the School also incorporates MAARG: Music and Audio Arts Research Group.

Study abroad
We have arrangements for exchanges with universities across Europe, America, Asia and other destinations overseas, to allow you to spend a year abroad.

Contemporary facilities
The Music and Fine Art development has received an investment of £5 million. See Arts, p49.

Postgraduate studies
The strength and diversity of the School’s research allows it to offer a range of innovative postgraduate degrees. Students can study for an MA in Fine Art; Sound and Image, or a range of music subjects. We also offer PhD programmes in these and related areas.
**Key facts**

**Location**
Medway.

**High course rankings**
Kent was ranked 9th in the UK for Pharmacology and Pharmacy in *The Guardian University Guide 2015*; and 1st for employment prospects in *The Complete University Guide 2015*.

**Professional recognition**
The School has accreditation by the General Pharmaceutical Council and is recognised as an established school of pharmacy.

---

**PHARMACY**

The Medway School of Pharmacy is a unique collaboration between the University of Greenwich and the University of Kent. We have designed an innovative patient-focused MPharm programme and believe that the future of pharmacy lies in meeting patients’ needs through working in partnership with patients, other health-care professionals, the NHS and industry.

Since opening in 2004 we have become recognised as an established school of pharmacy, through accreditation by the regulator, The General Pharmaceutical Council (GPhC).

The MPharm degree is designed to be transformational for our students. Using the body systems model as an integrated context for teaching, the curriculum breaks down barriers between disciplines, helping you to learn more effectively. This is supported by an increasing focus on practice-related learning, through placements and in-house simulation-based learning, as well as additional practice experience provided in-house.

All graduates are required to undertake a pre-registration year in practice and pass a national pre-registration exam before they can register as a pharmacist in the UK.

**Research areas**

**Biological sciences**
The Biological Sciences group is housed in recently refurbished laboratories with dedicated state-of-the-art molecular biological, tissue culture, electrophysiological and microscopy facilities. Our research is divided into three main themes: infectious diseases and allergy; neuroscience, renal and cardiovascular physiology; and pharmacology.

**Chemistry and drug delivery**
The Chemistry and Drug Delivery group is based in laboratories with dedicated state-of-the-art drug delivery, nanotechnology, spectroscopy, chromatography and organic synthesis facilities. Our group brings together researchers in medicinal chemistry and drug design, nanotechnology and materials science, drug delivery and pharmaceutics, encouraging a multidisciplinary approach to research. This is enhanced via international and national collaborations with both academia and industry.

Our research is centred on three main themes; Pharmaceutics/Drug Delivery, Medicinal Chemistry, Materials Science.

**Clinical and professional practice**
Pharmacists have two key functions which serve the public – ensuring best use of medicines and supporting improvements in health. Our research encompasses both these functions by exploring the impact of using medicines, ways of enhancing medicine use and of improving public health, with a focus on cardiovascular and related diseases, mental health and neurological conditions. We underpin this by providing and evaluating the educational and other support needed by practising pharmacists.
The School of Physical Sciences offers students the chance to participate in groundbreaking science in the realms of physics, chemistry, forensics and astronomy. With strong international reputations, our staff provide ideas and enthusiasm within a stimulating environment.

Undergraduate degrees available are listed below.

**Physics**

Physics reaches from the quark out to the largest of galaxies, and encompasses all the matter and timescales within these extremes. We equip you with the skills to understand these phenomena and to qualify you for a range of careers. Our specialist modules, and an attachment to one of our research teams, opens avenues for deeper exploration: for instance, space probe instrumentation, or neutron-scattering work.

**Astronomy, Space Science and Astrophysics**

This fantastic programme allows you to get involved with real space missions from the European Space Agency and NASA and to work on Hubble Telescope data and images from giant telescopes. Our student society organises events such as virtual observing in Hawaii by remotely controlling a telescope on the other side of the world.

**Forensic sciences**

Forensic skills are used within the police force and in a wide range of other professions; for instance, at disaster scenes, within archaeology, and in the food and pharmaceutical industries. Forensic scientists are specialists, but their skills have to bridge several disciplines. At Kent, the scientific content is taught by the Schools of Physical Sciences and Biosciences, and the legal background by Kent Law School.

**Chemistry**

Chemistry is the science of everyday life – allowing us to explain properties of substances, their structures and the changes they undergo. We have a strong teaching record in analytical chemistry and are proud to link our world-leading research on materials chemistry to our undergraduate programmes.

**Postgraduate studies**

We offer Chemistry and Physics programmes (including specialisations in forensics, astronomy and space science) by research. We also offer taught programmes in Forensic Science, and a two-year European-style Master’s in Physics. Our research covers a wide variety of topics within physics, astronomy and chemistry, ranging from theoretical work on surfaces and interfaces, through experimental physics, astrobiology, space science and astrophysics, to applied areas such as biomedical imaging and space vehicle protection.

**Key facts**

**Location**

Canterbury.

**High course rankings**

The University of Kent is ranked as a top 20 university in The Guardian University Guide 2015.

**World-class research**

In the most recent Research Assessment Exercise, our Functional Materials research group was ranked 2nd nationally, with 80% of research rated ‘world-leading’ or ‘internationally excellent’.

**A year in industry**

Undergraduate students in Forensic Science and in Chemistry have the opportunity to spend a year in industry, with help from the School in finding a placement.

**A year in the USA**

Undergraduate students in Physics or Astronomy, Space Science and Astrophysics have the option to study in the USA. Our partners include Pennsylvania State University, the University of California and the University of Indiana.
POLITICS AND INTERNATIONAL RELATIONS

The School of Politics and International Relations is diverse and highly international, offering exciting and professionally valuable programmes of study.

The School prides itself on its global outlook, which is reflected in the wide range of international partnerships and the fact that it is the only politics school in the country with a postgraduate centre in Brussels.

The School combines high-quality teaching with cutting-edge research in a supportive environment that welcomes students from all over the world.

Undergraduate studies
Politics and international relations is an exciting, fast-changing, broad-based discipline. Our programmes are extremely flexible and offer extensive module choice, reflecting the research interests of our staff, including conflict resolution, comparative politics, European integration, ethnic conflict, terrorism, political theory, international relations theory, and the politics of countries such as China, Japan, Russia and the USA.

At Kent, we offer a range of four-year programmes, which include the opportunity to study for a year in places such as Belgium, Canada, France, Germany, Italy, Portugal, South America and Spain, where you study in the local language. You can also study for a year in the Czech Republic, Finland, mainland China, Hong Kong, Japan, North America, Norway, Poland and Turkey, where the teaching is in English.

We also offer the rare opportunity to gain dual British and French qualifications with our Politics and International Relations (Bi-diplôme) programme, offered in partnership with Sciences Po Lille.

Postgraduate studies
All our postgraduate programmes are designed to be flexible and the size and strength of our academic body generates a vibrant research culture and has led us to achieve international excellence in many areas of the discipline. Our specialist postgraduate centre in Brussels allows students on some postgraduate programmes to study at our Brussels School of International Studies. The city is known as ‘the Capital of Europe’ and is home to the headquarters of the European Union and NATO, as well as hundreds of NGOs.

Students also have access to numerous archives, scholars, experts and practitioners that thrive among the institutions of this city.

Agreements with partner institutions in France, Germany, Poland and Russia enable us to offer Double Award versions of the MAs in European and Global Governance, International Relations, and Peace and Conflict Studies leading to the award of two Master’s degrees.

Key facts
Location
Canterbury.

High course rankings
The School of Politics and International Relations offers excellent teaching and academic support. In The Guardian University Guide 2015, Politics was ranked 11th in the UK for employment prospects.

International community
We have a cosmopolitan atmosphere in the School with close to half of our students coming from outside the UK.

Study in another country
Undergraduate students can spend a year studying in one of our partner institutions from around the world (see left). You study in English or in the local language.

Various postgraduate programmes allow our students to study at our centre in Brussels, taking advantage of its position at the heart of the European Union.

Research centres
• Centre for Critical Thought
• Global Europe Centre
• Conflict Analysis Research Centre
• Centre for Federal Studies
Psychology is the study of people: how they think, act, react and interact. By collecting information about what people do, think, perceive and feel, psychologists answer questions about human behaviour, cognition and development.

Undergraduate studies
Our Psychology and Social Psychology programmes highlight the study of cognition and behaviour in social and cultural contexts. They train you in experimental methodology and emphasise the practical value of psychology.

Psychology with Clinical Psychology follows the Psychology programme with two specialist compulsory modules in clinical psychology. It is especially suitable if you are considering a career in mental health or social services.

Applied Psychology and Applied Psychology with Clinical Psychology include a year on placement within an organisation providing some form of psychological service, such as the National Health Service, Home Office, Department for Education, or social services.

Psychology with Studies in Europe combines psychology with a year abroad at one of our partner universities in Belgium, Finland, France, Germany, Italy, Poland, Spain, or Turkey.

Postgraduate studies
The School of Psychology is highly regarded as a leading European centre for postgraduate research, with an international reputation for excellence in social psychology (including group processes and intergroup relations); cognitive psychology and neuropsychology; developmental psychology; and forensic psychology. We have staff who can supervise research degrees in all of these areas.

The School has three research centres: the Centre for the Study of Group Processes, the Centre for Cognitive Neuroscience and Cognitive Systems, and the Centre of Research and Education in Forensic Psychology. The School is also home to the Kent Child Development Unit and the Kent Adult Research Unit.

The School has a strong track record of attracting funding from the Economic and Social Research Council (ESRC) and other prestigious bodies.

Key facts
Location
Canterbury.

High course rankings
Psychology at Kent was ranked 5th in the UK for employment prospects by The Guardian University Guide 2015.

World-class research
In the most recent Research Assessment Exercise, Psychology at Kent was ranked in the top 20 psychology departments in the UK for world-leading research.

Excellent levels of funding
Our excellent RAE results (see above) helped the School to achieve a 50% increase in research-related income, with over £1.2 million in research grants and enterprise tenders.

Professional recognition
BSc graduates are eligible for Graduate Membership of the British Psychological Society and Graduate Basis for Chartered Membership. The MSc in Forensic Psychology provides the first (academic) year of professional training for those who wish to qualify as Chartered Forensic Psychologists.

Our Graduate Diploma in Psychology offers students the opportunity to extend their subject knowledge within the field of Psychology while developing their language and academic skills.
The Tizard Centre
Based at the Canterbury campus, the Centre works in the area of intellectual disability and community care. It offers courses at undergraduate and postgraduate level and has excellent links with health and social care organisations.

The Centre has a worldwide reputation for excellent research in the areas of: deinstitutionalisation and community living, challenging behaviour, quality of staff support, sexuality and autism and has had a significant impact on national policies in these areas.

In 2013, the Centre was awarded a Queen’s Anniversary Prize for improving the lives of people with intellectual and developmental disabilities.

Degrees and short courses in Intellectual and Developmental Disabilities and Autism Studies are offered. For more details see www.kent.ac.uk/tizard

Health and Social Care
Health and social care present numerous challenges within society as expectations rise, new technologies become available and debates ask how care should be provided and paid for. You gain skills that enable you to work directly with users of services or in areas such as management, research or policy.

Social Policy
Social Policy looks at how society promotes the welfare of individuals and families. You study issues, such as poverty, domestic violence, ill-health, crime, homelessness and child protection. This includes looking at the ‘causes’ of such problems, the policies directed towards them by government, and at the role of the voluntary and private sectors. You evaluate debates around how best to provide health care, reduce homelessness, balance work and family life, achieve equality for women, minority ethnic groups and people with disabilities, among other topical issues.

Sociology
Sociology provides ways of making sense of a world undergoing unprecedented social change. It aims to explain the formation and development of modern societies. The degree looks at the core traditions and contemporary developments in sociological thinking and research. You also study specialist areas such as race and ethnic identity, risk and society, sociological approaches to violence, terrorism and society, new media technologies, the sociology of health, sex, gender and socialisation, and the sociology of work. We also offer the opportunity to study sociology with a year in Europe or Hong Kong where teaching is in English.
Medway

Criminal Justice and Criminology

This programme looks at the key elements of contemporary crime policy: policing, the courts, punishment and prevention. You study issues in criminal justice, including: poverty, hate crime, illegal drug use, restorative justice, the care of victims, community safety, domestic violence, political responses to crime, antisocial behaviour, penal policy, social justice and human rights.

Social Sciences

Social Sciences offers an interdisciplinary approach to investigating society and people, by allowing you to study different subjects (social policy, sociology, criminal justice, history, politics, psychology and geography).

Social Work

This degree is the professional qualification to become a UK social worker. You gain the knowledge and skill base for practice in the UK as well as developing your intellectual capacity.

Q-step Centre

Our new Q-Step Centre, Kent Counts, offers advanced training in quantitative methods (QM). The QM training is delivered via modules in Sociology, Social Policy, Criminology and Social Work (as well as other degree programmes across the University). It is possible to follow a bronze pathway, where you reach a statistical literacy that allows you to generate and explain quantitative analyses in real-world settings. Alternatively, a silver pathway leads to a minor in Quantitative Social Science within your degree.

In addition, the Q-Step Centre offers a BSc in Statistical Social Research; see p71 for details.

Postgraduate studies

We support a large and thriving postgraduate community at our Medway and Canterbury campuses. Staff specialise in research of international significance, and we have strengths in the following areas: civil society, NGOs and the third sector; cross-national and European social policy; work, employment and economic life; ‘risk society’; race, ethnicity, and religion; social and public policy; sociology and the body; crime, culture and control; sociological theory; philanthropy; methods of social research; political sociology; science and society; child protection; autism; and intellectual and developmental disabilities.

Key facts

Locations
Canterbury and Medway.

High course rankings
Social Policy at Kent was ranked 7th in the UK in The Guardian University Guide 2015 and 8th in The Complete University Guide 2015.

World-class research
In the most recent Research Assessment Exercise, Kent was ranked 4th in the UK in the area of social work, social policy and administration, with 95% of research judged as ‘internationally significant’.

Professional recognition
Social Work graduates are eligible to register with the Health and Care Professions Council (HCPC) in the UK.

Research groups and centres
- Centre for Health Services Studies
- Centre for Parenting Culture Studies
- Centre for Child Protection
- Centre for Philanthropy
- Centre for the Study of Social and Political Movements
- Kent Crime and Justice Centre
- Personal Social Services Research Unit
- The Tizard Centre (see left)
- Q-step Centre (see left)
SPORT AND EXERCISE SCIENCES

The School of Sport and Exercise Sciences is based on Kent’s award-winning Medway campus. The School has excellent facilities on campus and additional state-of-the-art sports science laboratories, sports therapy clinics, a rehabilitation gym and respiratory clinic at Medway Park, a regional centre of sporting excellence.

Students benefit from the School’s extensive links with sports teams and bodies, such as the Rugby Football Union (RFU), British Cycling, professional football clubs, GB Boxing, English Institute of Sport (EIS) and UK Sport, as well as our partnerships with the Ministry of Defense, the NHS and commercial companies.

Sport and Exercise for Health
You combine your passion for sport and exercise with the desire for health-related study. You develop a range of laboratory and clinical skills necessary for a career in sport, exercise and health. Areas studied include: sports psychology, methods of research, and the issues involved in encouraging the public to be physically active.

Sport and Exercise Management
You develop managerial skills for the sport and exercise industry.

You focus on event management, personal training, corrective exercise, and strength and conditioning and complete a placement in the sports industry.

Sport and Exercise Science
You study the application of scientific techniques to sport and exercise science and gain the skills needed to become an excellent practitioner within the sports, exercise and fitness industries. Our lecturers are involved in leading research and have worked with prominent sports bodies such as British Cycling and UK Sport.

Sports Therapy
You learn to diagnose, treat and prevent sporting injuries as well as create exercise and training programmes for groups, ranging from elite athletes to ageing adults with chronic disease. You can work in our sports injury clinics and some students also gain experience at top sporting events, such as the London Marathon and the Modern Pentathlon World Cup.

Postgraduate studies
Our School has an excellent research culture and is a superb choice for postgraduate study. Our Endurance Performance research group is the largest of all UK universities. In the past five years, members of the group have published more than 80 articles in scientific journals. We are also developing two further research groups, one in exercise and health (including sports injuries); and the other in social aspects of sport.

Key facts
Location
Medway.

High course rankings
In the 2013 National Student Survey, 89% of Sports Science students at Kent were satisfied with the quality of their course. Sports Science at Kent was ranked 11th in the UK in The Guardian University Guide 2015.

Excellent facilities
As a student you will have access to:
• a new rehabilitation gym
• teaching and student clinics
• sports science laboratories
• an environmental chamber
• one of the first Alter-G treadmills in the UK, designed to reduce impact
• 3D video imaging and analysis
• force pedal and gait analysis equipment
• ultrasound imaging equipment.

Professional recognition
Our Sports Therapy degree is externally accredited by the Society of Sports Therapists. Graduates in Sport and Exercise Science can apply for Register of Exercise Professionals accreditation; and also American College of Sports Medicine accreditation as a Certified Health and Fitness Specialist.
On this programme, you develop sophisticated statistical analysis skills, which you are then able to apply to the real-world study of politics, crime, society or business.

Your quantitative skills are developed through modules that offer specialist training in cutting-edge techniques as well as training in how to understand, explain and critique data. You also improve your skills in presenting and communicating quantitative analyses to a range of audiences including schools and the general public. In addition, you develop subject-specific knowledge in areas of interest to you, such as politics, international relations, sociology, criminology, social policy, law or business.

During your studies, you carry out at least one quantitative research project for an external organisation, in addition to other placements.

Placements
Placements are an important part of your degree and give you the opportunity to apply your quantitative skills to live projects. You take our placements module, The Practice of Social Research, which runs for one full academic year and includes a 200-hour placement within an academic learning experience. We encourage you to undertake additional placements and to do a placement linked to your dissertation. It is also possible to undertake a full-time paid sandwich year placement.

Placements may be taken across many sectors, including government (national and local), think tanks and charities (including the UK’s leading supplier of data to the voluntary sector), cultural organisations and the private sector (including leading market research agencies). You are encouraged to gain experience in more than one sector.

The degree is also available as an integrated Master’s with a subsidised fourth year. See www.kent.ac.uk/sspssr/undergraduate for details.

Careers
Alongside advanced quantitative skills, you gain excellent research skills and the ability to analyse complex information and make it accessible to non-specialist readers. You develop transferable skills such as: communication, presentation and organisational skills; experience of working as part of a team and independently; and familiarity with data computer programs. All of which places you in an excellent position for graduate employment.

Key facts
Location
Canterbury.

High ranking university
In The Guardian University Guide 2015, the University of Kent is ranked 20th in the UK.

In the 2013 National Student Survey, Kent is ranked in the top 10 in the UK for overall student satisfaction, being in a select group to score 90% or above.

Kent Q-Step Centre
This degree is offered by the Kent Q-Step Centre, one of only 15 such prestigious centres in the UK and funded by, among others, the Higher Education Funding Council for England (HEFCE).

Additional pathways
In addition to the BSc in Statistical Social Research, the University also offers quantitative pathways within a range of social science disciplines (Criminology, Business, Law, Politics and International Relations, Social Policy and Sociology), which are linked to our prestigious Q-Step Centre. These can lead to either a joint degree or a ‘minor’ in quantitative social science (to go alongside your chosen ‘major’).

To find out more about our Q-Step Centre, please email qstep-info@kent.ac.uk

### Typical grades/entry requirements

Please note that many degrees have additional entry requirements, including specific subjects at A level or in the International Baccalaureate, and these are listed in subject entries on the University website or in the full *Undergraduate Prospectus*.

† Individual consideration; contact Recruitment and Admissions for details, (see p91).
POSTGRADUATE DEGREES

Actuarial Science
School of Mathematics, Statistics and Actuarial Science (see p62), Canterbury

Taught
• Actuarial Science PDip
• Applied Actuarial Science MSc
• International Master’s in Applied Actuarial Science

Research
• Actuarial Science PhD

American Studies
Centre for American Studies (see p46), Canterbury

Taught
• American Studies MA

Research
• American Studies MA, MPhil, PhD

Anthropology
School of Anthropology and Conservation (see p47), Canterbury

Taught
• Anthropology and Conservation MA
• Anthropology of Ethnicity, Nationalism and Identity MA
• Environmental Anthropology MA/MSc
• Ethnobotany MSc
• Evolution and Human Behaviour MSc (taught jointly with the School of Psychology)
• Social Anthropology MA

Research
• Social Anthropology and Computing MA
• Visual Anthropology MA

Architecture
Kent School of Architecture (see p48), Canterbury and Paris

Taught
• Master of Architecture (MArch with ARB/RIBA Part 2 exemption)
• Architectural Conservation MSc (subject to approval)
• Architectural Visualisation MA (taught jointly with School of Engineering and Digital Arts)
• Architecture and Sustainable Environment MSc
• Architecture and Urban Design MA
• Architecture and Urban Design (Paris) MA

Research
• Architecture PhD (including research through design)

Biosciences
School of Biosciences (see p50), Canterbury

Taught
• Biosciences Pre-Master’s GDip
• Biotechnology and Bioengineering MSc
• Cancer Biology MSc
• Drug Design MSc
• Infectious Diseases MSc
• Reproductive Medicine: Science and Ethics MSc
• Science, Communication and Society MSc

Research
• Biochemistry MSc, MPhil, PhD
• Cell Biology MSc, MPhil, PhD
• Genetics MSc, MPhil, PhD
• Microbiology MSc, MPhil, PhD
• Doctor of Medicine MD

Business
Kent Business School (see p51), Canterbury and Medway

Taught
• The Kent MBA
• Business Analytics MSc
• Finance and Management MSc
• Financial Markets MSc
• Human Resource Management MSc
• International Accounting and Finance MSc
• International Banking and Finance MSc
• International Management with Management English GDip
• Logistics and Supply Chain Management MSc
• Management (General) MSc
• Management (International Business) MSc
• Management Science MSc
• Marketing MSc

POSTGRADUATE DEGREES (CONT)

Child Protection
School of Social Policy, Sociology and Social Research (see p68), Canterbury

Taught
• Advanced Child Protection MA

Classical & Archaeological Studies
School of European Culture and Languages (see p56), Canterbury, Athens and Rome

Taught
• Ancient History MA
• Ancient History (with a Term in Rome) MA
• Archaeology MA
• Archaeology of the Transmanche Region MA
• Heritage Management MA
• Humanities Pre-Master’s GDip
• Roman History and Archaeology MA
• Roman History and Archaeology (with a Term in Rome) MA
• Rome – Ancient and Modern MA (subject to approval) (taught jointly with the School of Arts)

Research
• Classical & Archaeological Studies MA, PhD

Comparative Literature
School of European Culture and Languages (see p56), Canterbury and Paris

Taught
• Comparative Literature MA
• Comparative Literature (Paris) MA
• Humanities Pre-Master’s GDip
• Modern European Literature MA
• Postcolonial Studies (Paris) MA

Research
• Comparative Literature MA, PhD

Computing
School of Computing (see p52), Canterbury and Medway

Taught Conversion Master’s
• Computer Science MSc*

Taught Advanced Master’s
• Advanced Computer Science MSc*
• Advanced Computer Science (Computational Intelligence) MSc*
• Advanced Software Development MSc*
• Computer Security MSc*
• Networks and Security MSc*

Taught IT and Business Master’s
(taught jointly with Kent Business School)
• Computing and Entrepreneurship MSc*
• IT Consultancy MSc*

*All taught Master’s programmes at Canterbury are available with an optional industrial placement or may be combined with a Pre-Master’s course to form an International Master’s programme.

Taught Pre-Master’s
• Computer Science GDip
• Computing GDip

Taught Master’s with other schools
• Information Security and Biometrics MSc (taught jointly with the School of Engineering and Digital Arts)

Research
• Computer Science MSc, PhD

Conservation
The Durrell Institute of Conservation and Ecology (DICE) in the School of Anthropology and Conservation (see p47), Canterbury

Taught
• Anthropology and Conservation MA
• Conservation and Business MSc
• Conservation and International Wildlife Trade MSc
• Conservation and Plant Science MSc
• Conservation and Primate Behaviour MSc
• Conservation and Rural Development MSc
• Conservation and Tourism MSc
• Conservation Biology MSc
• Conservation Project Management MSc
• Endangered Species Management PDip

Research
• Biodiversity Management MSc by Research, PhD

Criminology
School of Social Policy, Sociology and Social Research (see p68), Canterbury

Taught
• Criminology MA
• Criminology MA with a Semester Abroad
• Two-year MA programmes: Criminology; Criminology with a Semester Abroad

Research
• Criminology MA, MPhil, PhD
• Doctorate in Cultural and Global Criminology (DCGC): An Erasmus Mundus Joint Doctorate

Drama and Theatre
School of Arts (see p49), Canterbury

Taught
• Arts Criticism MA
• Contemporary Performance Practice (subject to approval) MA
• Drama and Theatre MA
• European Theatre and Dramaturgy MA

Research
• Physical Actor Training and Performance MA (subject to approval)
• Physical Actor Training and Performance (with a Term in Moscow) MA (subject to approval)
• Shakespeare MA
• Stand-up Comedy MA (subject to approval)

Economics
School of Economics (see p53), Canterbury and Brussels

Taught
• Agri-Environmental Economics and Policy MSc
• Applied Economics and International Development MSc
• Economics MSc
• Economics Conversion MSc
• Diploma in Economic Analysis PDip
• Economics and Econometrics MSc
• Economics and Finance MSc
• Finance and Econometrics MSc
• International Development MA
• International Finance and Economic Development MSc

Research
• Agri-Environmental Economics PhD
• Economics PhD

Education
Centre for the Study of Higher Education (see www.kent.ac.uk/cshe for details), Canterbury

Taught
• Higher Education PCert
• Higher Education PDip, MA

Research
• Higher Education PhD

Engineering and Digital Arts
School of Engineering and Digital Arts (see p54), Canterbury

Taught
• Advanced Electronic Systems Engineering PDip, MSc
• Architectural Visualisation MA (taught jointly with Kent School of Architecture)
• Broadband and Mobile Communication Networks PDip, MSc
• Computer Animation PDip, MSc
• Digital Visual Effects PDip, MSc
• Embedded Systems and Instrumentation PDip, MSc
• Engineering with Finance PDip, MSc
• Information Security and Biometrics (taught jointly with the School of Computing) PDip, MSc
• Mobile Application Design MSc
• Wireless Communications and Signal Processing PDip, MSc
POSTGRADUATE DEGREES (CONT)

Research
• Electronic Engineering MSc, MPhil, PhD, EngD
• Digital Arts MSc, MPhil, PhD

English
School of English (see p55), Canterbury and Paris

Taught

• Statistics MSc
• Statistics with Finance MSc

Research
• Statistics MSc, MPhil, PhD

Sport and Exercise Sciences
The School of Sport and Exercise Sciences (see p70), Medway

Taught
• Sport Science for Optimal Performance PDip, MSc
• Sports Therapy and Rehabilitation PDip, MSc
We’re always happy to help. You can contact us by email or telephone, meet members of staff at an education fair in your country, or talk to one of our overseas representatives.

By telephone or email
International Development
T: +44 1227 824904
E: international@kent.ac.uk

Recruitment and Admissions
T: +44 1227 827272
www.kent.ac.uk

In your own country
Fairs and exhibitions
Members of the University including academics, often visit fairs and exhibitions overseas. For details of our next visit to your country, see www.kent.ac.uk/internationalstudent

Overseas representatives
Kent has overseas representatives around the world. They can give you up-to-date advice on the courses at Kent, the application process, visa requirements and details about living and studying in the UK.

To get contact details for your local overseas representative, see our website: www.kent.ac.uk/internationalstudent

Visiting the UK
You can also visit us in the UK; see the campuses and find out everything you need to know. We offer Open Days, Applicant Days, and postgraduate events. Friends and family are all welcome. For details, see www.kent.ac.uk/opendays

Open Days
Our Open Days are big events suitable for everyone and offering information on all our courses. These take place at our Medway and Canterbury campuses with representatives from the various academic schools. This makes it a good way to see what’s on offer. There are also tours so you are able to get a taste of what the campus environment is like and look at accommodation, sport, library and leisure facilities.

Canterbury campus:
Wednesday 17 September 2014
Saturday 4 October 2014
Saturday 4 July 2015

Medway campus:
Saturday 11 October 2014
Saturday 20 June 2015

For later dates, see www.kent.ac.uk/opendays

Applicant Days
Applicant Days are for those who have already applied to Kent (for an undergraduate degree). They give you an in-depth guide to studying your subject at Kent. You hear presentations from academic staff and have the chance to ask lots of questions. You also get a tour of the campus with one of our current students.

See www.kent.ac.uk/visitdays for more information.
Postgraduate events
These events are based at our Canterbury and Medway campuses and offer information on all postgraduate courses. You can meet academic and admissions staff and have the chance to find out more about the courses on offer, studying at Kent and how to apply for funding.

The next postgraduate event is scheduled for 29 November 2014. For later dates, please see www.kent.ac.uk/courses/visit/openday/pgevents.html

Informal visits
You are also welcome to make an informal visit to our campuses at any time. The University runs tours of the Canterbury and Medway campuses throughout the year for anyone who is unable to attend an Open Day or UCAS Visit Day. It may also be possible to arrange meetings with academic staff, although we cannot guarantee this. For more details and to book your place, see www.kent.ac.uk/informal

Alternatively, we can provide you with a self-guided tour leaflet, which includes the main points of interest. For more details and to download a self-guided tour, go to www.kent.ac.uk/informal

Travelling to the University of Kent
See below for advice on travelling from overseas. For more details and directions, see www.kent.ac.uk/maps

Canterbury campus
By air: The nearest major airports to the Canterbury campus are London Heathrow (LHR) and London Gatwick (LGW). If taking a taxi directly to the campus, Heathrow is a 120-minute journey, Gatwick airport is a 90-minute journey. Both airports also have excellent transport links to central London and onwards.

From central London by train: trains from London St Pancras to Canterbury West take less than an hour. Trains from London Victoria to Canterbury East take about an hour and a half. The stations in Canterbury are a five-minute taxi ride or bus ride to campus.

By Eurostar: you can take a fast train from Paris or Brussels to Ashford International in about two hours. The station is a 30-minute taxi ride from campus.

By Channel Tunnel or ferry: the Channel Tunnel allows you to travel from Calais to Folkestone in 35 minutes. Ferries leave from Calais and arrive at Dover.

From central London by train: London Victoria or London St Pancras trains to Chatham take approximately 50 minutes. From Chatham station it is a 10-minute taxi ride to campus. London St Pancras to Ebbsfleet International takes under 20 minutes, plus a 30-minute taxi ride to campus.

By Eurostar: a fast train from Paris or Brussels to Ebbsfleet takes about two hours. Ebbsfleet is a 30-minute taxi ride from campus.

By Channel Tunnel or ferry: the Channel Tunnel allows you to travel from Calais to Folkestone in 35 minutes. Ferries leave from Calais and arrive at Dover.

Athens, Brussels, Paris and Rome
To arrange a visit to the Brussels campus, call +32 2 641 1721 or email bsis@kent.ac.uk

To arrange a visit to our European centres, please see:

Paris
www.kent.ac.uk/paris

Athens
www.kent.ac.uk/athens

Rome
www.kent.ac.uk/rome
Kent calendar

Welcome Week  21 September – 27 September 2015
Autumn term  28 September – 18 December 2015
Spring term  18 January – 6 April 2016
Summer term  9 May – 17 June 2016

Terms and conditions: the University reserves the right to make variations to the content and delivery of courses and other services, or to discontinue courses and other services, if such action is reasonably considered to be necessary. If the University discontinues any course, it will endeavour to provide a suitable alternative. To register for a programme of study, all students must agree to abide by the University Regulations (available online at: www.kent.ac.uk/regulations).

Data protection: for administrative, academic and health and safety reasons, the University needs to process information about its students. Full registration as a student of the University is subject to your consent to process such information.
