THE RESEARCH SUPERVISOR'S BIBLIOGRAPHY

DR STAN TAYLOR

11 April 2017
INTRODUCTION

This bibliography, compiled by Stan Taylor, is a resource for the Research Supervisor Network of the UK Council for Graduate Education. It is not intended to be a complete list of publications but an index of what, in his view, are the key references in the literature according to topics.

Every effort has been made to ensure that the references are accurate and the web links are live at the time of posting - however please report any inaccuracies or dead links. Similarly, where colleagues feel that important references have been omitted, please get in touch so that they can be added to the bibliography.

This will be the first in a number of resources to be made available to the members through the UKCGE website, which will collectively constitute a guide to good practice.

ABOUT THE RESEARCH SUPERVISORS NETWORK

The UKCGE’s Research Supervisors Network aims are to provide a forum for the discussion of good practice, to enable supervisors to support each other in enhancing their practice, and to encourage the dissemination of excellent practice.

ABOUT THE UKCGE

The UK Council for Graduate Education is the leading independent representative body for postgraduate education in the UK. The Council is a membership organisation providing high-quality leadership and support to our members, to promote a strong and sustainable national postgraduate sector.
