

CCEd Clergy of the Church of England Database

Journal

Welcome to **CCEd Online Journal**, the journal of **The Clergy of the Church of England Database 1540–1835**. This new initiative is intended to provide a forum for the publication and discussion both of work that draws on the resources offered by *The Clergy of the Church of England Database* and also more generally of research on all aspects of the clergy and Church of England between the Reformation and the mid-nineteenth century.

The journal's key features are:

- full-length scholarly articles on major themes
- a 'notes' section for the publication of articles on individuals, groups or places that appear in the Database
- inclusion of images, tables, graphs, and even databases
- publication of responses to articles and notes to promote scholarly debate
- all contributions peer reviewed

Articles

Using the Clergy Database and the Fasti Ecclesiae Anglicanae, 1541–1857: problems of 'career modelling' and some potential solutions

William H. Campbell

George Pretyman, bishop of Lincoln, and the University of Cambridge 1787-1801

Reider Payne
