| Action in the Event of Fire | On discovering a fire, persons should immediately retreat from the fire, raise the alarm at the nearest fire alarm call point and evacuate. On hearing the alarm signal, all persons present should immediately and calmly leave the building by the nearest available escape route, and proceed to the Assembly Point (at the front of the building). Persons evacuating must:  
  - obey Managers’ and Fire Marshals’ instructions;  
  - ensure others in the vicinity also evacuate;  
  - assist any person who needs help, if safe to do so;  
  - not stop to collect any personal belongings;  
  - not use lifts;  
  - proceed directly to the Assembly Point, which is at the junction of Boulevard Louis Schmidt and Rue Baron Dhanis;  
  - remain there until officially instructed otherwise. Building management will summon the emergency services. |
| Emergency Escape Routes | Emergency escape routes are clearly signed, and are kept immediately available and unobstructed at all times. All users of the building should ensure they are fully aware of both obvious/familiar **and** alternative escape routes. |
| Fire Fighting Equipment | Fire extinguishers are provided at key locations.  
  
  **Persons with no specific training are not expected to fight a fire**, but all occupants should familiarise themselves with the location and basic operating principles of the equipment (including types of fire for which each extinguisher is suitable) in case they need to use it – i.e. only in order to effect their escape, if cut off by fire. |
| Fire Emergency Plan | A comprehensive Fire Emergency Plan is available from Reception. |
| Persons with Disabilities | Persons with disabilities which might affect their ability to evacuate rapidly, or which might impede others evacuating, should contact Reception or management. Their needs will be discussed with appropriate members of staff, and the necessary arrangements made. |
