**15. Educational Aims of the Programme**

The programme aims to:

This programme is a gateway into the accountancy profession. It has two core aims: to enable learners to become part exam-qualified professional accountants, and to develop the wider business skillset required within contemporary finance teams. The programme will be primarily accredited to the first part of the exam element of the Association of Chartered Certified Accountants (ACCA) qualification.

The specific aims of the BSc (Hons) programme are to:

- Prepare students for a contemporary accounting and/or finance career in professional organisations.
- Develop the academic knowledge, technical skills and professional competencies required for an international career in accounting or finance.
- Apply academic and technical knowledge to professional situations.
- Enable learners to become a part exam-qualified Chartered Certified Accountant.
- Blend academic theory with professional practice and application.
- Promote and demonstrate at all times ethical behaviour and practice in business, accountancy and finance.
UNIVERSITY OF KENT

- Give learners exposure to business and accounting practices in a range of organisations.
- Instil in students the capacity to work autonomously and behave authentically, constantly seeking to self-improve through reflection and renewal, and to ensure they stay at the cutting edge of business.
- Enable learners to develop a synoptic and holistic approach to solving business, accounting and finance problems.
- Enable learners to conduct professionally-focused research into a contemporary area of accounting and finance.

Integrated Masters in Advanced Professional Accounting in Business

- Produce graduates who are fully exam-qualified with the ACCA qualification and who possess the core professional skills for a financial career in business;
- Develop graduates who meet the needs of finance teams in organisations.
- Help learners to hone and develop their professional skills, attitudes and judgement;
- Help develop the ethical influence of future financial leaders and accounting and finance professionals.

16 Programme Outcomes
The programme provides opportunities for students to develop and demonstrate knowledge and understanding, qualities, skills and other attributes in the following areas. The programme outcomes have references to the subject benchmarking statement for accountancy (2016), Finance (2016) and business management (PG) (2015).

BSc Professional Accounting in Business Programme Learning Outcomes:
By the end of the programme, students should be able to:

A. Knowledge and Understanding of:

<p>| A1 | A systematic knowledge and understanding of the business environment and the influence this has on how organisations and accountants operate, and of the role of the accountant and other key business functions in contributing to an efficient, effective and ethical organisation, and building knowledge and understanding of the basic principles of effective management. (SBS1 3.2.1; SBS3 3.2.1) (ACCA, F1) |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>A2</strong></td>
<td>A systematic knowledge and understanding of key areas within an accountancy and finance department in an organisation, such as: financial and management reporting, tax, planning, strategy, budgeting, governance, assurance, financial management, and record-keeping, including developments and changes in professional practice in these areas. (SBS1 3.2.1; SBS3 3.2.1)</td>
</tr>
<tr>
<td><strong>A3</strong></td>
<td>A systematic knowledge and understanding of the pervasive issues within modern finance functions and management practice, such as sustainability, globalisation, technology, risk, analytics and corporate social responsibility, and of the need to consider such issues when formulating strategy and making business decisions (SBS1 3.2.1, 3, 5; SBS3 3.2.1,3; SBS3 3.2.5,6,7).</td>
</tr>
<tr>
<td><strong>A4</strong></td>
<td>A systematic knowledge and understanding of the function of financial markets and institutions (including the role of the firm, the capital markets and the public sector). (SBS1 3.2.1; SBS3 3.2.1).</td>
</tr>
<tr>
<td><strong>A5</strong></td>
<td>A systematic knowledge and understanding in an international context of the effective management of organisations, including cutting edge theories, models and frameworks which inform current practice (SBS1 3.2.1, 5, 6; SBS3 3.2.1,3)</td>
</tr>
<tr>
<td><strong>A6</strong></td>
<td>A systematic understanding of the tax system as applicable to individuals, single companies, and groups of companies. (SBS1 3.2.1-2; SBS3 3.2.1,2) (ACCA, F6)</td>
</tr>
<tr>
<td><strong>A7</strong></td>
<td>An ability to use the general legal framework, and be aware of specific legal areas relating to business, recognising the need to seek further specialist legal advice where necessary. (SBS1 3.2.1; SBS3 3.2.1) (ACCA, F4)</td>
</tr>
</tbody>
</table>

**Teaching/learning and assessment methods and strategies used to enable outcomes to be achieved and demonstrated**

For further information refer to programme learning, teaching and assessment strategy.

**Teaching/Learning**

Lectures and staff-led seminars; academic clinics; workshops and industry days, simulated placements incorporating visiting speakers; annual residential; problem based learning scenarios, role play exercises and debates. Independent learning facilitated by on-line learning environment.

**Assessment**

Practice related coursework, problem solving case-studies, reports, reflective assignments, seminar contribution, presentations, business reports and written examination papers (time-constrained).

**Skills and Other Attributes**

**B. Intellectual Skills:** *(i.e. subject-specific intellectual skills)*
B1 Critically analyse and evaluate information and arguments presented in a variety of formats and draw appropriate conclusions (SBS1 4.1.1,3; SBS3 4.1.1,3).

B2 Conduct professionally-orientated research using a variety of sources and methodologies and synthesise the data collected for use in the support of rational arguments and conclusions (SBS1 4.1.2,4; SBS3 4.1.4).

B3 Critically analyse and evaluate aspects of current research relevant to accountancy and finance (SBS1 4.1.1, 4; SBS3 4.1.1,3,4).

B4 Apply a range of appropriate techniques to analyse data to solve structured and unstructured business problems. (SBS1 4.1.2, 3)

Teaching/learning and assessment methods and strategies used to enable outcomes to be achieved and demonstrated

For further information refer to programme learning, teaching and assessment strategy.

Teaching/Learning

Assessment

Practice related coursework, problem solving case-studies, reports, reflective assignments, seminar contribution, presentations, business reports and written examination papers (time-constrained).

C. Subject-specific Skills: (These will include practise and professional skills)

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>C1</td>
<td>Critically evaluate the major theoretical and professional tools that relate to accounting and finance, such as the IASB Framework; budgeting; and risk management. (SBS1 3.2.1, 5; SBS3 3.2.1,3)</td>
</tr>
<tr>
<td>C2</td>
<td>Draft financial statements and critically evaluate the limitations of financial reporting practices and procedures. (SBS1 3.2.4; SBS3 3.2.8)</td>
</tr>
<tr>
<td>C3</td>
<td>Interpret financial data arising from accounting statements and data generated in financial markets. (SBS1 3.2.4; SBS3 3.2.4; SBS3 3.2.8)</td>
</tr>
<tr>
<td>C4</td>
<td>Analyse financial and non-financial information through the application of techniques using technology in the context of financial performance measurement and management control, showing an advanced knowledge of management accounting. (SBS1 3.2.3; SBS3 3.2.4,8)</td>
</tr>
<tr>
<td>C5</td>
<td>Critically evaluate the theory and practice of the financing arrangements and governance structures of business entities. (SBS1 3.2.1)</td>
</tr>
</tbody>
</table>
UNIVERSITY OF KENT

C6  Apply management accounting techniques to quantitative and qualitative information to support planning, decision-making performance evaluation and control. (SBS1 3.2.2; SBS3 3.2.2) (ACCA, F2, F5)

C7  Demonstrate technical proficiency in the use of double-entry accounting techniques and the ethical application of International Financial Reporting Standards (IFRSs). (SBS1 3.2.4; SBS3 3.2.8)

C8  Prepare individual and consolidated financial statements and interpret financial statements. (SBS1 3.2.2, ; SBS3 3.2.2, 8) (ACCA, F3, F7.)

C9  Apply accounting standards and theoretical frameworks in the preparation of financial statements of entities, including groups, and analyse and interpret those financial statements. (SBS1 3.2.2; SBS3 3.2.2) (ACCA, F7)

C10  Apply the process of an assurance engagement and discuss its application in the context of the professional regulatory framework. (SBS1 3.2.2; SBS3 3.2.1; SBS3 3.2.2) (ACCA, F8)

C11  Develop the skills required for a graduate-level role in a finance team - relating to issues affecting investment, financing, and dividend policy decisions from an ethical perspective.(SBS1 3.2.1, 3, 5; SBS3 3.2.1,3) (ACCA, F9)

Teaching/learning and assessment methods and strategies used to enable outcomes to be achieved and demonstrated

For further information refer to programme learning, teaching and assessment strategy.

Teaching/Learning
Lectures and staff-led seminars; academic clinics; workshops and industry days, simulated placements incorporating visiting speakers; annual residential; problem based learning scenarios, role play exercises and debates. Independent learning facilitated by on-line learning environment.

Assessment
Practice related coursework, problem solving case-studies, reports, reflective assignments, seminar contribution, presentations, business reports and written examination papers (time-constrained).

D. Transferable Skills: (Non-subject specific key skills)

D1  Communicate information, ideas, problems and solutions effectively in a professional manner using appropriate media, with an awareness of the needs of their intended recipients (SBS1 4.1.7; SBS3 4.1.7).
| D2 | Present themselves in a way which maximises their personal impact, demonstrating an awareness of different business cultures and environments and adaptability in meeting the challenges posed. |
| D3 | Demonstrate strong interpersonal skills, including effective listening and oral communication skills, as well as the associated ability to persuade, present and negotiate (SBS1 4.1.8; SBS3 4.1.8) |
| D4 | Collaborate and network effectively on a personal and organisational level, as part of a business entity working with others (including 'competitors') to achieve its goals (SBS 4.1.8; SBS3 4.1.8). |
| D5 | Demonstrate numeracy (SBS 4.1.5), analytical, literacy (including IT literacy) to excel effectively in contemporary business environments (SBS 4.1.5, 6; SBS3 4.1.5, 6). |
| D6 | Work autonomously and independently on projects with appropriate guidance from others, taking responsibility for their own work and learning (SBS 4.1.4). |
| D7 | Work with resilience under pressure, producing set outputs within a definite time-limited period. (SBS 4.1.2; SBS3 4.1.2) |
| D8 | Reflect self-critically on their performance and how they come across to others with a view to ongoing learning, development and improvement. (SBS 4.1.2; SBS3 4.1.2). |
| D9 | Demonstrate an ability to communicate effectively with a diverse range of people of different cultural backgrounds and levels of seniority through digital collaboration on real projects. |

**Teaching/Learning**
UNIVERSITY OF KENT
Lectures and staff-led seminars; academic clinics; workshops and industry days, simulated placements incorporating visiting speakers; annual residential; problem based learning scenarios, role play exercises and debates. Independent learning facilitated by on-line learning environment.

Assessment
Practice related coursework, problem solving case-studies, reports, reflective assignments, seminar contribution, presentations, business reports and written examination papers (time-constrained).

Skills and Other Attributes
B. Intellectual Skills: (i.e. subject-specific intellectual skills)

| B1 | Critically analyse and evaluate information and arguments presented in a variety of formats and draw appropriate conclusions (SBS2 3.13). |
| B2 | Draw upon a comprehensive understanding of relevant techniques to conduct professionally-orientated research and scholarship using a variety of sources and methodologies and synthesise data collected for use in the support of rational arguments and conclusions (SBS2 3.13). |
| B3 | Develop a conceptual understanding of the subject to critically analyse and evaluate current research relating to aspects of accountancy and finance (SBS2 3.13). |
| B4 | Apply a range of appropriate techniques to analyse incomplete data to help solve complex business problems, which may be structured or unstructured in nature, while appreciating the ambiguity that such problems may present (SBS2 3.13). |
| B5 | Evaluate accounting and finance methodologies and develop critiques of them, and, where appropriate propose new hypotheses and improved techniques (SBS2 3.13). |

C. Subject-specific Skills: (These will include practise and professional skills)

<p>| C1 | Critically evaluate the major theoretical and professional tools that relate to accounting and finance, such as the IASB Framework; investment appraisal, budgeting; and risk management. |
| C2 | Systematically draft individual and consolidated financial statements from accounting records and information and critically evaluate the limitations of financial reporting practices and procedures. |
| C3 | Interpret financial data arising from accounting statements and data generated in financial markets, communicating their findings and conclusions to specialist and non-specialist audiences. (ACCA Strategic Leader) |
| C4 | Analyse financial and non-financial information through the application of techniques using technology in the context of financial performance measurement and management control, showing an advanced knowledge of management accounting. |</p>
<table>
<thead>
<tr>
<th>Code</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>C5</td>
<td>Critically evaluate the theory and practice of the financing arrangements and governance structures of business entities.</td>
</tr>
<tr>
<td>C6</td>
<td>Apply advanced management accounting techniques to systematically prepare and analyse-quantitative and qualitative information that supports planning, decision-making, performance evaluation and control.</td>
</tr>
<tr>
<td>C7</td>
<td>Demonstrate advanced technical proficiency in the use of double-entry accounting techniques and the application and critical interpretation of International Financial Reporting Standards (IFRSs). (ACCA P2)</td>
</tr>
<tr>
<td>C8</td>
<td>Demonstrate the ability to deal with complex tax issues systematically and creatively, communicating their conclusions clearly to specialist and non-specialist audiences (ACCA Strategic Leader)</td>
</tr>
<tr>
<td>C9</td>
<td>Demonstrate self-direction and originality in applying the process of professional assurance and external audit engagements and critically discuss its application in the context of the professional regulatory framework.</td>
</tr>
<tr>
<td>C10</td>
<td>Develop the skills required for a senior role in a finance team - relating to issues such as capital investment, financing, risk management, investments, mergers &amp; acquisitions and dividend policy decisions (SBS2 3.13).</td>

Teaching/learning and assessment methods and strategies used to enable outcomes to be achieved and demonstrated

For further information refer to programme learning, teaching and assessment strategy.
UNIVERSITY OF KENT

Teaching/Learning
Lectures and staff-led seminars; academic clinics; workshops and industry days, simulated placements incorporating visiting speakers; annual residential; problem based learning scenarios, role play exercises and debates. Independent learning facilitated by on-line learning environment.

Assessment
Practice related coursework, problem solving case-studies, reports, reflective assignments, seminar contribution, presentations, business reports and written examination papers (time-constrained).

Learning and Teaching Strategy
The learning and teaching strategy has been designed to facilitate the acquisition by students of the knowledge and understanding, skills and attributes which learners should develop during their time on the programme.

The learning and teaching strategy is based on a blended pedagogy and is designed to be flexible, allowing students to choose the approach that best suits their circumstances and learning needs.

All students are provided with the same resources on the OLE, which is the backbone of the programme and ensures a minimum level of consistency. The programme is based on a blended pedagogy that allows students to experience primarily face to face teaching over the programme while also developing the capacity to learn online, which is becoming increasingly the norm for workplace learning to take place. Modules can either be studied in the interactive classes model or the mentored independent study model and we expect students to experience a mix of these models during their time on the programme.

The following learning and teaching interventions have been designed to enable students to achieve the learning outcomes:

<table>
<thead>
<tr>
<th>Learning intervention</th>
<th>Content and learning outcomes</th>
<th>Mode of experience</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lectures</td>
<td>These provide an introduction to each topic area, contextualising students' pre-reading and drawing out interesting points of academic interest in a practical, business context. As such, lectures relate mainly, though not exclusively, to the</td>
<td>These may be experienced live (face to face or streamed online, with the facility to ask questions in both) or pre-recorded.</td>
</tr>
</tbody>
</table>
### Seminars

These provide a forum for students to practise techniques, and explore and apply theory to problems and case studies, developing their skills and deepening their knowledge in the process.

They are often premised upon the flipped classroom approach, with students expected to have reviewed the lecture, done the reading, and prepared exercises in advance.

The focus is on the cognitive and business skills set out above at B1-3 and C1-11.

These may be experienced live (face to face or synchronously online in a virtual classroom)

### Clinics

These provide an opportunity for students to develop their individual learning through individual or small group contact with their lecturer. There is no formal teaching structure for these sessions. Students might use these to:

1. Revisit topics covered in lectures, seminars or their own individual study
2. Develop their understanding of topics covered in lectures and seminars
3. Obtain formative feedback on work or coursework assessments. There is a clinic each week for every module.

These may be experienced live (face to face or synchronously online in a virtual classroom)

### Workshops and Industry Days

These provide a forum for students to apply the knowledge and skills that they have developed in the context of highly practical sessions, usually facilitated by industry professionals. For students in a relevant job, work experience can be gained.

These may be experienced live (face to face or online, using appropriate technology)
| Simulations and simulated placements | These carry similar objectives to workshops i.e. they offer an opportunity for students to apply their knowledge and skills in a simulated environment where they replicate tasks carried out in the workplace in the context of the subject being studied. Often facilitated by industry professionals, they present an opportunity for learners to benchmark their performance to the standard of a professional. | These may be experienced live (face to face or online, using appropriate technology) |
| One-on-one support | This provides the opportunity for students to clarify issues arising from their reading / any of the above activities, as well as to seek guidance on how to develop and improve their skills. As such, there is both a knowledge and skills component to this support, albeit tailored to the specific needs of the individual students. | Students will have open access to their module tutor for advice by a range of communication methods (face to face, telephone, email, chat etc.). For modules without regular taught sessions, students will have a timetabled weekly meeting with their module tutor. In addition, part-time students will have regular meetings with the tutor with special responsibility for part time students, who will act as their personal tutor. |

**Annual Residential**

Every summer at Pearson College London there is an annual residential event away from the Pearson Business School campus. The cost of the residential event is included in student fees and students are expected to attend. This provides an opportunity for the entire School to come together, in much the same way as the team in a FTSE 100 might convene to reflect and then refocus for the challenges ahead. Activities typically include: team-building exercises; assessments; industry workshops; social activities and the conference dinner. The annual residential event builds upon the termly industry conferences, which are either held at external industry premises or in Pearson on the Strand, the aim of which is to contextualise in the real world the academic study of the foregoing term.
UNIVERSITY OF KENT

Assessment Strategy

A variety of modes of assessment are used on the programme. These are designed to be the most appropriate assessment vehicles for each of the modules in question in terms of their learning outcomes. Assessments are designed to replicate the kind of activity students would be expected to undertake in the workplace wherever possible.

The following tools are therefore employed:

- Written examinations;
- Group assessment;
- Peer assessment;
- Portfolio assessment (including learning logs);
- Viva assessment;
- Practice related coursework (examples of this might include: Blogs, Advertising campaigns, Wireframedesign for an app, Pitches, Briefing notes for a manager / Board of Directors, Business cases, Management Reports, Presentations, Training slides).

This multi-dimensional approach has the following benefits:

- As in work, students are assessed on the basis of their performance over the entire programme;
- In the course of this assessment regime, students’ written, oral and online communication skills will be tested along with their capacity to work in a team and individually under pressure.

For details of when coursework / examinations will typically take place, please see above.

Feedback

Students will have the opportunity to receive constructive and developmental formative feedback, typically as part of the academic clinics during the term. During the clinics feedback will be provided in writing and orally. Mock presentations and examinations are also scheduled for which feedback is provided in advance of the summative assessment. Students will receive feedback on summative assessment at the end of the term.

The Online Learning Environment

Students are supported by a wide range of learning resources made available via the Online Learning Environment enabling them to study wherever and whenever they want, on their laptop, tablet or smartphone.
UNIVERSITY OF KENT

Through our Online Learning Environment students can access a variety of high quality study materials designed to support their learning. These include all essential reading including textbooks, articles and multimedia content such as videos. In addition:

- Recommended reading is available in electronic format which can be read online or downloaded on to student devices for offline reading.
- All lectures are recorded and available online so that students can watch them on their laptops, tablets or smartphones, pause and review subject matter that they find difficult to understand and watch them again as revision.
- Interactive topic reviews are provided to help students self-assess their understanding of a subject either at the start or end of a topic in order to help embed learning.
- Discussion forums for online discussion and debate are provided.

In addition to learning resources the Online Learning Environment also provides students with a gateway to a wide range of other resources to help them with their studies including news and announcements, timetables, support and guidance.

In addition to the provision of all essential reading in electronic format students also have access to a wide range of online library resources via the Online Learning Environment using their Athens account which is provided at the start of the programme.

Library resources include full access to DawsonEra, an online library that contains access to over 250,000 academic books across all disciplines and databases like EBSCO Business Source Complete which contain a wide range of full text academic journals and FT.com, which includes an electronic subscription to the business newspaper Financial Times and access to the archives including market reports and interactive business tools.

Talent Development information

Pearson College London has a Talent Development service and every student has access to a Talent Coach to support the development of their skills and competencies throughout their degree.

During the induction students will be introduced to the Skills Audit and the process of drawing up a Personal Development Plan. The plan is tailored to their individual career needs and following the induction students are advised to book an appointment with the Talent Development team. The Personal Development Plan ensures that the student develops the right skills to help them to achieve their career goals and will be revisited at regular intervals during the programme through the appraisal process.

The College’s Talent Coach can provide a range of careers advice, guidance and support. Examples of the type of support and guidance includes preparation for interviews, guidance on how to apply for jobs and internships, advice on how best to promote yourself on LinkedIn, review and feedback on your CV and general guidance on how to research and target employers.
17 Programme Structures and Requirements, Levels, Modules, Credits and Awards

Overview of programme

The core theme throughout the BSc (Hons) programme is accountancy, with learners developing their knowledge and application of both financial and management accounting at each level.

At stage 1, students will study a unique 60 credit level 4 module called ‘Principles of Business’, which consists of four inter-linked parts designed to give learners a holistic introduction to business. Part 1 of the module focuses on the overall purpose of business and the set up and infancy of organisations. Part 2 then gives a technical introduction to the pillars of business: finance, law, management, marketing, and innovation. Part 3 consists of simulated placements where students are given the opportunity to apply their knowledge and skills by replicating tasks performed in the workplace by industry professionals. The final part brings together each of the pillars of business in the context of strategy, governance, ethics, and leadership before concluding with the end of an organisation’s lifecycle. This module is assessed in four parts over the course (usually two terms).

The other level 4 modules cover the technical foundations and skills required for the higher stages of the programme, including mathematics, double-entry bookkeeping, and basic management accounting techniques.

Stage 2 of the programme is very technical, building on the level 4 technical modules as well as a wider range of accountancy and finance subjects including performance management, tax, and law. All of these modules follow a similar curriculum and assessment strategy to their professional body (ACCA) equivalent modules. Students also study in depth business ethics, which is a core theme throughout the programme.

Stage 3 of the programme requires the learner to build upon their technical knowledge and skills while developing their ability to synthesise their learning and synoptically apply it to help solve complex business problems. The final two modules at this stage are two 30 credit consultancy modules, technical and strategic, which are assessed by integrated case studies. These modules will not only help learners to develop a "real world" approach to business issues, but also help to prepare them for the higher level professional accountancy exam modules.

The level 6 Strategic Consultancy 1 module (30 credits, level 6) is based on the first part of the ACCA Strategic Leader module, which forms part of level 7 integrated masters programme. This module in effect acts as a gateway to the Masters level of the programme, enabling learners to get a head start in preparing for the rigours of level 7 modules.
At each stage of the programme, non-credit bearing simulated placements will take place which aim to enable learners to apply their knowledge and skills to develop workplace competencies relevant to finance teams in a simulated environment. These will become increasingly complex in nature during the programme. At Stage 1 level 4, learners may learn to use common IT based accountancy systems such as SAGE or Navision. By stage 3 level 6 they may attempt more complex tasks such as writing a management representation letter or negotiating a departmental budget.

On completion of the BSc Professional Accounting in Business learners should be part-qualified professional accountants with exemptions from ACCA modules F1 - F9.

The core theme throughout the Integrated Masters programme is accountancy, with learners developing their knowledge and application of both financial and management accounting at each level. At the final stage all learners study a module on financial accounting, and three other technical modules which focus on other areas of the subject including management accounting, financial management, taxation, and audit.

Graduates who progress onto stage 4 will then “top up” their knowledge and skills covered in Strategic Consultancy 1 in the Strategic Consultancy 2 module (30 credits, level 7) based on recent updates to applicable standards and professional practice, as well as further developing the higher professional, technical and communication skills required to succeed in the ACCA Strategic Leader module.

At stage 4 students will sit the actual ACCA Strategic Leader and ACCA P2 exams as their summative assessments for Advanced Corporate Reporting (level 7) and Strategic Consultancy 2. These modules will be APL’d on to the MSc (Integrated Masters) Advanced Professional Accounting in Business. Students will then choose from two out of four final technical accounting and finance elective modules to complete the programme. On completion of the integrated masters element of the programme learners should be fully exam-qualified with the ACCA.

Learners on the integrated masters programme will be able to undertake continuing professional development after graduation, with a number of electives available to study on an individual basis.

Accreditation
Accreditation is being sought for the programme and/or specific modules from:

- Association of Chartered Certified Accountants (ACCA)

Additional accreditation for individual modules will also be sought from:

- Chartered Institute of Management Accountants (CIMA) Certificate in Business Accounting
- Institute of Chartered Accountants in England and Wales (ICAEW) Certificate in Finance Accountancy and Business qualification
The BSc stage of the programme is aligned to the ACCA papers F1-F9 (Fundamentals level). Whilst the Integrated Masters is aligned to the ACCA's Professional level, papers P1-P7.

The programme may be undertaken within the conventional timeframes for completion of full or part time undergraduate study, or accelerated to two or four years respectively by studying through the traditional summer breaks.

The programme is divided into four stages:
- Stage 1 comprises modules to a total of 120 credits and relates to the first year of an undergraduate degree (level 4) with an exit award of Certificate of Higher Education.
- Stage 2 comprises modules to a total of 120 credits and relates to the second year of an undergraduate degree (level 5) with an exit award of Diploma of Higher Education.
- Stage 3 comprises modules to a total of 120 credits and relates to the final (honours) year of an undergraduate degree (level 6) with an exit award of BSc with honours.
- On successful completion of Stage 3 students may proceed to Stage 4, the Integrated Masters year (level 7) comprising 120 credits.

Students must successfully complete each module in order to be awarded the specified number of credits for that module. One credit corresponds to approximately ten hours of 'learning time' (including all classes and all private study and research). Thus obtaining 120 credits in an academic year requires 1,200 hours of overall learning time. For further information on modules and credits refer to the Credit Framework at [http://www.kent.ac.uk/teaching/qa/credit-framework/creditinfo.html](http://www.kent.ac.uk/teaching/qa/credit-framework/creditinfo.html)

Each module and programme is designed to be at a specific level. For the descriptors of each of these levels, refer to Annex 2 of the Credit Framework at [http://www.kent.ac.uk/teaching/qa/credit-framework/creditinfoannex2.html](http://www.kent.ac.uk/teaching/qa/credit-framework/creditinfoannex2.html).

Students successfully completing Stage 1 of the programme and meeting credit framework requirements who do not successfully complete Stage 2 will be eligible for the award of Cert He.

Students successfully completing Stage 2 of the programme and meeting credit framework requirements who do not successfully complete Stage 3 will be eligible for the award of Diploma of Higher Education. Students successfully completing Stage 2 of the programme and achieving 300 credits overall including at least 60 credits at level H (6) or above in Stage 3 and meeting Credit Framework requirements will be eligible for the award of a BA/BSc non-honours degree.

Students successfully completing Stage 3 of the programme and meeting credit framework requirements who do not successfully complete Stage 4 will be eligible for the award of BSc (Honours).

The maximum number of years permitted to complete either the BSc (Hons) or Integrated Masters award (full-time or part-time) is 8 years. The normal period of time to complete the degree full-time (non-accelerating) is 3 years for the BSc (Hons) and 4 years for the Integrated Masters.

### Compulsory and Option Modules
Postgraduate programme specification

Compulsory modules are core to the programme and must be taken by all students studying the programme. Optional modules provide a choice of subject areas, from which students will select a stated number of modules. Optional modules are available at stages 36 and 4 only.

Where a student fails a module(s) due to illness or other mitigating circumstances, such failure may be condoned, subject to the requirements of the Credit Framework and provided that the student has achieved the programme learning outcomes. For further information refer to the Credit Framework at [http://www.kent.ac.uk/teaching/qa/credit-framework/creditinfo.html](http://www.kent.ac.uk/teaching/qa/credit-framework/creditinfo.html).

Where a student fails a module(s), but has marks for such modules within 10 percentage points of the pass mark, the Board of Examiners may nevertheless award the credits for the module(s), subject to the requirements of the Credit Framework and provided that the student has achieved the programme learning outcomes. For further information refer to the Credit Framework.

**Acceleration**

Pearson College undergraduate degree programmes are available to be studied on an accelerated basis, giving students an opportunity to complete their degree in two years rather than the traditional three. Students who accelerate study during the summer term, thus completing three terms per academic year, rather than two. Accelerated degrees are an important aspect of Pearson College’s distinctive and flexible approach to higher education provision.

Students do not apply for accelerated programmes from the outset. Instead, they start on the three-year programme and apply to accelerate during the second term of their first year. Accelerated programmes are academically demanding and require high levels of commitment as well as good time management skills. They are not suitable for all students and students do not have an automatic right to accelerate.

**Criteria for acceleration**

Students are permitted to accelerate on the basis of satisfactory performance on the programme, based on their absence record, results in Level 4 assessments and feedback from their personal tutor. The specific criteria are set out below.

- 80% attendance at scheduled classes (authorised absences count as attendance)
- Passed all assessments at first attempt with 2:1 grades or above.
- Supporting reference from the personal tutor focussing on participation in class.

**Process for acceleration**

Decisions about acceleration will be made by the Progression and Retention Committee. Applications for acceleration should be sent to the Registry by the end of Week 8 of the Spring Term.

The Progression and Retention Committee will normally meet in the second week of May. It will consider the following evidence for each applicant for acceleration:

- Absence record
Part-time Students
Students may apply to study part-time. Part-time students will normally study modules up to 90 credits each year for four years by studying 30 credits per term, 3 terms per year. Students can opt to undertake fewer modules per year in order to fit around their other (e.g. work or family) commitments.

The programme is delivered as either part-time day or part-time evening (both subject to demand). Delivery is therefore either 2 days per week or two evenings per week during term time. Both routes will utilise selected weekends. The evenings will typically be between 6pm until 9pm and the specific days/evenings of the week will remain the same throughout the degree. Lectures, seminars and clinics will be timetabled to only occur at these times/days.

Compensation and Condonement
The following modules may not be compensated or condoned:

- Principles of Business; 60 credits, level 4 (students who fail this module overall will have an opportunity to resit the elements of the assessment upon which they have scored below 40).

18 Work-Based Learning
Disability Statement: Where disabled students are due to undertake a work placement as part of this programme of study, a representative of the University will meet with the work placement provider in advance to ensure the provision of anticipatory and reasonable adjustments in line with legal requirements.

19 Support for Students and their Learning
- Pearson College London extended induction programme
- Personal development workshops
- Online tutorials
- Access to industry professionals
- Programme handbook
- Learning resources & support - [https://www.pearsoncollegelondon.ac.uk/student-experience/undergraduate/learning-support.html](https://www.pearsoncollegelondon.ac.uk/student-experience/undergraduate/learning-support.html)
- Student Support & Wellbeing [https://www.pearsoncollegelondon.ac.uk/study/postgraduate/student-support.html](https://www.pearsoncollegelondon.ac.uk/study/postgraduate/student-support.html)
- PCL Student Association [https://www.pearsoncollegelondon.ac.uk/student-experience/undergraduate/pcsa.html](https://www.pearsoncollegelondon.ac.uk/student-experience/undergraduate/pcsa.html)
- Careers and Employability [https://www.pearsoncollegelondon.ac.uk/working-with-business/career-coaching.html](https://www.pearsoncollegelondon.ac.uk/working-with-business/career-coaching.html)

**Academic and pastoral support**
- At programme commencement, students will be allocated a Personal Tutor, who will effectively act as their academic mentor. Students will be allocated a Personal Tutor at each level of the programme.

- Personal Tutors will provide ongoing advice on academic and pastoral matters (in partnership with academic tutors in other modules). They will act as students’ first port of call for support during their studies at the relevant level.

- Students will have an initial one-to-one meeting with their Personal Tutor in the first few weeks of their studies at the relevant level as part of a settling in process, in which any early issues of an academic or pastoral nature may be addressed.

- Students academic progress will be formally reviewed twice per academic year by their Personal Tutor.

- At the meeting during Term 3, it will be decided whether or not (if the student wishes to) they will be permitted to accelerate their studies over the summer based on their academic performance on the programme to date.
Personal Tutors will write annual reports on each of their students, based on the appraisal process set out above, which collectively will form the basis of the employability reference with which students will be issued upon completion of the programme.

If a student experiences issues or problems which their Personal Tutor the student may contact the Programme Leader.

**Learning support**

Students with specific learning support needs will be directed to the Registry to obtain advice and guidance on how to progress through their studies. This includes addressing any special needs requirements through appropriate Learning Contracts. Further information is available in the Student Handbook.

### 20 Entry Profile

The minimum age to study a degree programme at the university is normally at least 17 years old by 20 September in the year the programme begins. There is no upper age limit.

#### 20.1 Entry Route

For fuller information, please refer to the University prospectus

Pearson College London aims to recruit students with a variety of backgrounds and perspectives, each of whom have the ability to succeed on the programme, to make an active contribution to the student cohort and to the wider society on programme completion. The entry routes are designed to assess an applicant’s potential and motivation rather than solely their prior qualifications.

To achieve this aim there is a twin track admissions process:

Either UCAS tariff points and interview or Assessment Day and interview.

**Tariff Points Route**

The typical minimum entry requirements for this route are:

For 2016/2017 entry: 300/320 UCAS tariff points from three level 3 qualifications, such as A Level, BTEC, IB Diploma etc. and interview.

For 2017/18 entry onwards: 120/128 UCAS tariff points from three level 3 qualifications, such as A Level, BTEC, IB Diploma etc. and interview. The change in tariff points is a result of changes introduced by UCAS, the tariff points have therefore been recalibrated accordingly.
Assessment Day Route
This route aims to widen participation responsibly beyond the traditional constituency which historically participates in higher education, enabling the College to admit students with the potential to achieve the learning outcomes set for their chosen degree programmes and successfully graduate from the College, regardless of their prior record of academic achievement.

The vehicle for assessing whether such students do have this potential is the Assessment day. The Assessment Day comprises a series of tests and an interview, designed to assess the following:

- Numerical, verbal and non-verbal reasoning
- Critical thinking skills
- Written communication skills
- Oral communication skills
- Motivation to study the chosen subject
- Motivation and and suitability for study in the unique environment of Pearson College London

Currently, we use the following tests for these purposes alongside the interview:

- A piece of written work set on the day
- The Core Abilities Test [https://login.talentlens.co.uk/v2/RPRHMBKHHU](https://login.talentlens.co.uk/v2/RPRHMBKHHU)
- The Watson Glaser critical thinking test [https://login.talentlens.co.uk/v2/YYJZAZMUAT](https://login.talentlens.co.uk/v2/YYJZAZMUAT)

Interview
The College interviews applicants to assess their potential to succeed on the programme, taking into account their attitude and motivation, as well as their academic potential and experience. The interview is also important to ensure that students understand as much as possible about studying at Pearson College London before deciding whether to accept any offer of a place.

All applicants are interviewed regardless of their qualifications and experience (and regardless of whether they are being assessed under the tariff point route or the assessment day route).

Non-Native English Speakers
Non-native English speakers must demonstrate their proficiency with appropriate qualifications or evidence of having been taught English previously. Typical English Language Level: Average 6.5 IELTs, minimum 6.0 reading and writing or Pearson Test of English 61 overall, with reading and writing 54 and no other sub score lower than 51.

Diversity
Pearson College welcomes applications from people of all backgrounds and abilities. Those with a disability are encouraged to discuss the nature of their disability with the College during the application process. The College has a process to assess additional learning needs, providing support and where appropriate ‘reasonable adjustments’ in assessment.

APECL
Students may be admitted at Stage 2 or Stage 3 of the programme, or may gain exemptions from particular modules, based on APECL. Such cases are subject to prior approval by the University of Kent according to its APECL process see:

http://www.kent.ac.uk/teaching/qa/codes/taught/annexr.html.

20.2 What does this programme have to offer?

Key features of the programme

Students on the programme will have the opportunity:

- To study at a pace (accelerated or standard) and place (face to face in the classroom or online) of their choosing
- To study modules designed and delivered with direct employer input
- To become part exam-qualified professional accountants with the ACCA for those exiting with a BSc (hons).
- To become fully exam-qualified professional accountants with the ACCA for those exiting with an Integrated Masters
- Design of the programme included industry and student involvement through the College’s Design Concept Team (DCT) approach in both curriculum but also the approach to learning, teaching and assessment.

20.3 Personal Profile

A typical applicant might be expected to demonstrate at the commencement of his/her studies the following:

- a general interest in business and managing organisations
- a strong interest in developing a career in accountancy
- a willingness to be good at working with others
- good oral and written communication skills
- a willingness to build knowledge across all aspects of business management
- appropriate levels of numeracy and/or a willingness to develop them
- a willingness to acquire relevant IT skills

21 Methods for Evaluating and Enhancing the Quality and Standards of Teaching and Learning
### 21.1 Mechanisms for review and evaluation of teaching, learning, assessment, the curriculum and outcome standards

- Periodic Programme Review [http://www.kent.ac.uk/teaching/qa/codes/taught/annexf.html](http://www.kent.ac.uk/teaching/qa/codes/taught/annexf.html)
- External Examiners system [http://www.kent.ac.uk/teaching/qa/codes/taught/annexk.html](http://www.kent.ac.uk/teaching/qa/codes/taught/annexk.html)
- Annual programme and module monitoring reports [http://www.kent.ac.uk/teaching/qa/codes/taught/annexe.html](http://www.kent.ac.uk/teaching/qa/codes/taught/annexe.html)
- QAA Higher Education Review [http://www.qaa.ac.uk/InstitutionReports/types-of-review/higher-education-review/Pages/default.aspx](http://www.qaa.ac.uk/InstitutionReports/types-of-review/higher-education-review/Pages/default.aspx)
- Student module evaluations
- Annual staff appraisal
- Peer observation
- External accreditation being sought from the ACCA

### 21.2 Committees with responsibility for monitoring and evaluating quality and standards

Committees at the University of Kent include:

- Board of Examiners
- School Graduate Studies Committee
- Faculty Graduate Studies Committee
- Faculty Board
- Graduate School Board

Committees at Pearson College London include

- Staff-Student Liaison Committee
- Progression and Retention Committee
- Review and Enhancement Committee
- Academic Board
- Strategic Planning Committee

### 21.3 Mechanisms for gaining student feedback on the quality of teaching and their learning experience

- Student module evaluations
- Staff-Student Liaison Committee
- Student representation system
- Annual NSS (from 2017 onwards) and PCL internal annual student surveys

### 21.4 Staff Development priorities include:

- Annual Appraisals
- Institutional Level Staff Development Programme
- Study Leave
- PGCHE requirements
- HEA (associate) fellowship membership
- Professional body membership and requirements
- Programme team meetings
- Research seminars
- Conferences
## 22 Indicators of Quality and Standards

- PCL QAA Higher Education Review Plus report

Future indicators after the commencement of the programmes will include:

- Annual External Examiner reports
- Annual programme and module monitoring reports (UoK and PCL)
- Result of PCL periodic review
- Result of University of Kent Periodic Review
- Professional Accreditation
- Graduate Destinations

### 22.1 The following reference points were used in creating these specifications:

- QAA UK Quality Code for Higher Education
- Requirements of Association of Chartered Certified Accountants (ACCA)
- PCL Plan/Learning and Teaching Strategy

*October 2015*
