## Programme Specification

**Please note:** This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she passes the programme. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the programme handbook. The accuracy of the information contained in this specification is reviewed by the University and may be checked by the Quality Assurance Agency for Higher Education.

**Degree and Programme Title:** BSc Professional Accounting in Business, Integrated Masters in Advanced Professional Accounting in Business

## UNIVERSITY OF KENT

### 8. Programme
| Professional Accounting in Business  
Integrated Masters in Advanced Professional Accounting in Business |

### 9. UCAS Code (or other code)
| BSc (Hons) Professional Accounting in Business - N400  
Integrated Masters in Advanced Professional Accounting in Business - |

### 10. Credits/ECTS value
| Integrated Masters in Advanced Professional Accounting in Business – 480 credits  
BSc (Hons) Professional Accounting in Business – 360 credits |

### 11. Study Level
4 – 7

### 12. Relevant QAA subject benchmarking group(s)
| Accounting 2016 (SBS1)  
Business and Management (PG) 2015 (SBS2)  
Finance 2016 (SBS3) |

### 13. Date of creation/revision (note that dates are necessary for version control)
December 2015, June 2018, February 2019

### 14. Intended Start Date of Delivery of this Programme
September 2016

### 15. Educational Aims of the Programme
The programme aims to:

This programme is a gateway into the accountancy profession. It has two core aims: to enable learners to become part exam-qualified professional accountants, and to develop the wider business skillset required within contemporary finance teams. The programme will be primarily accredited to the first part of the exam element of the Association of Chartered Certified Accountants (ACCA) qualification.

The specific aims of the BSc (Hons) programme are to:

- Prepare students for a contemporary accounting and/or finance career in professional organisations.
- Develop the academic knowledge, technical skills and professional competencies required for an international career in accounting or finance.
- Apply academic and technical knowledge to professional situations.
- Enable learners to become a part exam-qualified Chartered Certified Accountant
- Blend academic theory with professional practice and application.
- Promote and demonstrate at all times ethical behaviour and practice in business, accountancy and finance.
- Give learners exposure to business and accounting practices in a range of organisations.
• Instil in students the capacity to work autonomously and behave authentically, constantly seeking to self-improve through reflection and renewal, and to ensure they stay at the cutting edge of business.
• Enable learners to develop a synoptic and holistic approach to solving business, accounting and finance problems
• Enable learners to conduct professionally-focussed research into a contemporary area of accounting and finance.

Integrated Masters in Advanced Professional Accounting in Business

• Produce graduates who are fully exam-qualified with the ACCA qualification and who possess the core professional skills for a financial career in business;
• Develop graduates who meet the needs of finance teams in organisations.
• Help learners to hone and develop their professional skills, attitudes and judgement;
• Help develop the ethical influence of future financial leaders and accounting and finance professionals

16 Programme Outcomes

The programme provides opportunities for students to develop and demonstrate knowledge and understanding, qualities, skills and other attributes in the following areas. The programme outcomes have references to the subject benchmarking statement for accountancy (2016), Finance (2016) and business management (PG) (2015).

BSc Professional Accounting in Business Programme Learning Outcomes:

By the end of the programme, students should be able to:

A. Knowledge and Understanding of:

A1 A systematic knowledge and understanding of the business environment and the influence this has on how organisations and accountants operate, and of the role of the accountant and other key business functions in contributing to an efficient, effective and ethical organisation, and building knowledge and understanding of the basic principles of effective management. (SBS1 3.2.1; SBS3 3.2.1) (ACCA, Accountant in Business)

A2 A systematic knowledge and understanding of key areas within an accountancy and finance department in an organisation, such as: financial and management reporting, tax, planning, strategy, budgeting, governance, assurance, financial management, and record-keeping, including developments and changes in professional practice in these areas. (SBS1 3.2.1; SBS3 3.2.1)

A3 A systematic knowledge and understanding of the pervasive issues within modern finance functions and management practice, such as sustainability, globalisation, technology, risk, analytics and corporate social responsibility, and of the need to consider such issues when formulating strategy and making business decisions (SBS1 3.2.1, 3, 5; SBS3 3.2.1,3; SBS3 3.2.5,6,7).
A4 | A systematic knowledge and understanding of the function of financial markets and institutions (including the role of the firm, the capital markets and the public sector). (SBS1 3.2.1; SBS3 3.2.1).

A5 | A systematic knowledge and understanding in an international context of the effective management of organisations, including cutting edge theories, models and frameworks which inform current practice (SBS1 3.2.1, 5, 6; SBS3 3.2.1,3)

A6 | A systematic understanding of the tax system as applicable to individuals, single companies, and groups of companies. (SBS1 3.2.1-2; SBS3 3.2.1, 2) (ACCA, Taxation)

A7 | An ability to use the general legal framework, and be aware of specific legal areas relating to business, recognising the need to seek further specialist legal advice where necessary. (SBS1 3.2.1; SBS3 3.2.1) (ACCA, Corporate and Business Law)

Teaching/learning and assessment methods and strategies used to enable outcomes to be achieved and demonstrated

For further information refer to programme learning, teaching and assessment strategy.

Teaching/Learning

Lectures and staff-led seminars; workshops and industry days, placements; problem based learning scenarios, role play exercises and debates. Independent learning facilitated by on-line learning environment.

Assessment

Practice related coursework, problem solving case-studies, reports, reflective assignments, seminar contribution, presentations, business reports and written examination papers (time-constrained).

Skills and Other Attributes

B. Intellectual Skills: (i.e. subject-specific intellectual skills)

B1 | Critically analyse and evaluate information and arguments presented in a variety of formats and draw appropriate conclusions (SBS1 4.1.1,3; SBS3 4.1.1,3).

B2 | Conduct professionally-orientated research using a variety of sources and methodologies and synthesise the data collected for use in the support of rational arguments and conclusions (SBS1 4.1.2,4; SBS3 4.1.4).

B3 | Critically analyse and evaluate aspects of current research relevant to accountancy and finance (SBS1 4.1.1, 4; SBS3 4.1.1,3,4).

B4 | Apply a range of appropriate techniques to analyse data to solve structured and unstructured business problems. (SBS1 4.1.2, 3)
Teaching/learning and assessment methods and strategies used to enable outcomes to be achieved and demonstrated

For further information refer to programme learning, teaching and assessment strategy.

**Teaching/Learning**

Lectures and staff-led seminars; workshops and industry days, placements incorporating visiting speakers; problem based learning scenarios, role play exercises and debates. Independent learning facilitated by on-line learning environment.

**Assessment**

Practice related coursework, problem solving case-studies, reports, reflective assignments, seminar contribution, presentations, business reports and written examination papers (time-constrained).

**C. Subject-specific Skills:** *(These will include practise and professional skills)*

<p>| | |</p>
<table>
<thead>
<tr>

<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>C1</td>
<td>Critically evaluate the major theoretical and professional tools that relate to accounting and finance, such as the IASB Framework; budgeting; and risk management. (SBS1 3.2.1, 5; SBS3 3.2.1,3)</td>
</tr>
<tr>
<td>C2</td>
<td>Draft financial statements and critically evaluate the limitations of financial reporting practices and procedures. (SBS1 3.2.4; SBS3 3.2.8)</td>
</tr>
<tr>
<td>C3</td>
<td>Interpret financial data arising from accounting statements and data generated in financial markets. (SBS1 3.2.4; SBS3 3.2.4; SBS3 3.2.8)</td>
</tr>
<tr>
<td>C4</td>
<td>Analyse financial and non-financial information through the application of techniques using technology in the context of financial performance measurement and management control, showing an advanced knowledge of management accounting. (SBS1 3.2.3; SBS3 3.2.4,8)</td>
</tr>
<tr>
<td>C5</td>
<td>Critically evaluate the theory and practice of the financing arrangements and governance structures of business entities. (SBS1 3.2.1)</td>
</tr>
<tr>
<td>C6</td>
<td>Apply management accounting techniques to quantitative and qualitative information to support planning, decision-making performance evaluation and control. (SBS1 3.2.2; SBS3 3.2.2) (ACCA, Management Accounting, Performance Management)</td>
</tr>
<tr>
<td>C7</td>
<td>Demonstrate technical proficiency in the use of double-entry accounting techniques and the ethical application of International Financial Reporting Standards (IFRSs). (SBS1 3.2.4; SBS3 3.2.8)</td>
</tr>
<tr>
<td>C8</td>
<td>Prepare individual and consolidated financial statements and interpret financial statements. (SBS1 3.2.2, ; SBS3 3.2.2, 8) (ACCA, Financial Accounting, Financial Reporting.)</td>
</tr>
<tr>
<td>C9</td>
<td>Apply accounting standards and theoretical frameworks in the preparation of financial statements of entities, including groups, and analyse and interpret those financial statements. (SBS1 3.2.2; SBS3 3.2.2) (ACCA, Financial Reporting)</td>
</tr>
</tbody>
</table>
C10 | Apply the process of an assurance engagement and discuss its application in the context of the professional regulatory framework. (SBS1 3.2.2; SBS3 3.2.1; SBS3 3.2.2) (ACCA, Audit and Assurance)  

C11 | Develop the skills required for a graduate-level role in a finance team - relating to issues affecting investment, financing, and dividend policy decisions from an ethical perspective. (SBS1 3.2.1, 3, 5; SBS3 3.2.1,3) (ACCA, Financial Management)

**Teaching/learning and assessment methods and strategies used to enable outcomes to be achieved and demonstrated**

For further information refer to programme learning, teaching and assessment strategy.

**Teaching/Learning**
Lectures and staff-led seminars; workshops and industry days, placements incorporating visiting speakers; problem based learning scenarios, role play exercises and debates. Independent learning facilitated by on-line learning environment.

**Assessment**
Practice related coursework, problem solving case-studies, reports, reflective assignments, seminar contribution, presentations, business reports and written examination papers (time-constrained).

**D. Transferable Skills: (Non-subject specific key skills)**

| D1 | Communicate information, ideas, problems and solutions effectively in a professional manner using appropriate media, with an awareness of the needs of their intended recipients (SBS1 4.1.7; SBS3 4.1.7). |
| D2 | Present themselves in a way which maximises their personal impact, demonstrating an awareness of different business cultures and environments and adaptability in meeting the challenges posed. |
| D3 | Demonstrate strong interpersonal skills, including effective listening and oral communication skills, as well as the associated ability to persuade, present and negotiate (SBS1 4.1.8; SBS3 4.1.8) |
| D4 | Collaborate and network effectively on a personal and organisational level, as part of a business entity working with others (including ‘competitors’) to achieve its goals (SBS 4.1.8; SBS3 4.1.8). |
| D5 | Demonstrate numeracy (SBS 4.1.5), analytical, literacy (including IT literacy) to excel effectively in contemporary business environments (SBS 4.1.5, 6; SBS3 4.1.5, 6). |
| D6 | Work autonomously and independently on projects with appropriate guidance from others, taking responsibility for their own work and learning (SBS 4.1.4). |
| D7 | Work with resilience under pressure, producing set outputs within a definite time-limited period. (SBS 4.1.2; SBS3 4.1.2). |
| D8 | Reflect self-critically on their performance and how they come across to others with a view to ongoing learning, development and improvement. (SBS 4.1.2; SBS3 4.1.2). |
| D9 | Demonstrate an ability to communicate effectively with a diverse range of people of different cultural backgrounds and levels of seniority through digital collaboration on real projects. |

**Teaching/learning and assessment methods and strategies used to enable outcomes to be achieved and demonstrated**

For further information refer to programme learning, teaching and assessment strategy.

**Teaching/Learning**

Lectures and staff-led seminars; workshops and industry days, placements incorporating visiting speakers; problem based learning scenarios, role play exercises and debates. Independent learning facilitated by on-line learning environment.

**Assessment**

Practice related coursework, problem solving case-studies, reports, reflective assignments, seminar contribution, presentations, business reports and written examination papers (time-constrained).

**Integrated Masters in Advanced Professional Accounting in Business:**

By the end of the programme students should be able to:
A. Knowledge and Understanding of:

<p>| | |</p>
<table>

**Teaching/learning and assessment methods and strategies used to enable outcomes to be achieved and demonstrated**

For further information refer to programme learning, teaching and assessment strategy.

**Teaching/Learning**
Lectures and staff-led seminars; workshops and industry days, placements incorporating visiting speakers; problem based learning scenarios, role play exercises and debates. Independent learning facilitated by on-line learning environment.

**Assessment**
Practice related coursework, problem solving case-studies, reports, reflective assignments, seminar contribution, presentations, business reports and written examination papers (time-constrained).

**Learning and Teaching Strategy**
The learning and teaching strategy has been designed to facilitate the acquisition by students of the knowledge and understanding, skills and attributes which learners should develop during their time on the programme.

The learning and teaching strategy is based on a blended pedagogy and is designed to be flexible, allowing students to choose the approach that best suits their circumstances and learning needs.
All students are provided with the same resources on the OLE, which is the backbone of the programme and ensures a minimum level of consistency. The programme is based on a blended pedagogy that allows students to experience primarily face to face teaching over the programme while also developing the capacity to learn online, which is becoming increasingly the norm for workplace learning to take place. Modules can either be studied in the interactive classes model or the mentored independent study model and we expect students to experience a mix of these models during their time on the programme.

The following learning and teaching interventions have been designed to enable students to achieve the learning outcomes:

<table>
<thead>
<tr>
<th>Learning intervention</th>
<th>Content and learning outcomes</th>
<th>Mode of experience</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lectures</td>
<td>These provide an introduction to each topic area, contextualising students’ pre-reading and drawing out interesting points of academic interest in a practical, business context. As such, lectures relate mainly, though not exclusively, to the knowledge outcomes A1-5 set out above.</td>
<td>These may be experienced live (face to face or streamed online, with the facility to ask questions in both) or pre-recorded.</td>
</tr>
<tr>
<td>Seminars</td>
<td>These provide a forum for students to practise techniques, and explore and apply theory to problems and case studies, developing their skills and deepening their knowledge in the process. They are often premised upon the flipped classroom approach, with students expected to have reviewed the lecture, done the reading, and prepared exercises in advance. The focus is on the cognitive and business skills set out above at B1-3</td>
<td>These may be experienced live (face to face or synchronously online in a virtual classroom).</td>
</tr>
</tbody>
</table>
Workshops and Industry Days

These provide a forum for students to apply the knowledge and skills that they have developed in the context of highly practical sessions, usually facilitated by industry professionals. For students in a relevant job, work experience can replicate and replace workshops. The focus here is on the general transferable skills set out at D1-7 above.

These may be experienced live (face to face or online, using appropriate technology).

One-on-one support

This provides the opportunity for students to clarify issues arising from their reading / any of the above activities, as well as to seek guidance on how to develop and improve their skills.

As such, there is both a knowledge and skills component to this support, albeit tailored to the specific needs of the individual students.

Students will have open access to their module tutor for advice by a range of communication methods (face to face, telephone, email, chat etc.). For modules without regular taught sessions, students will have a timetabled weekly meeting with their module tutor.

In addition, part-time students will have regular meetings with the tutor with special responsibility for part time students, who will act as their personal tutor.
Assessment Strategy
A variety of modes of assessment are used on the programme. These are designed to be the most appropriate assessment vehicles for each of the modules in question in terms of their learning outcomes. Assessments are designed to replicate the kind of activity students would be expected to undertake in the workplace wherever possible.

The following tools are therefore employed:

- Written examinations;
- Group assessment;
- Peer assessment;
- Portfolio assessment (including learning logs);
- Viva assessment;
- Practice related coursework (examples of this might include: Blogs, Advertising campaigns, Wireframe design for an app, Pitches, Briefing notes for a manager / Board of Directors, Business cases, Management Reports, Presentations, Training slides).

This multi-dimensional approach has the following benefits:

- As in work, students are assessed on the basis of their performance over the entire programme;
- In the course of this assessment regime, students’ written, oral and online communication skills will be tested along with their capacity to work in a team and individually under pressure.

For details of when coursework / examinations will typically take place, please see above.

Feedback
Students will have the opportunity to receive constructive and developmental formative feedback, typically in weekly seminars or one to one meetings with the module tutor during the term. During seminars or one to one meetings feedback will be provided in writing and orally. Mock presentations and examinations are also scheduled for which feedback is provided in advance of the summative assessment. Students will receive feedback on summative assessment at the end of the term.
The Online Learning Environment
Students are supported by a wide range of learning resources made available via the Online Learning Environment enabling them to study wherever and whenever they want, on their laptop, tablet or smartphone.

Through our Online Learning Environment students can access a variety of high quality study materials designed to support their learning. These include all essential reading including textbooks, articles and multimedia content such as videos. In addition:

- Recommended reading is available in electronic format which can be read online or downloaded on to student devices for offline reading.
- All lectures are recorded and available online so that students can watch them on their laptops, tablets or smartphones, pause and review subject matter that they find difficult to understand and watch them again as revision.
- Interactive topic reviews are provided to help students self-assess their understanding of a subject either at the start or end of a topic in order to help embed learning.
- Discussion forums for online discussion and debate are provided.

Students can access all their recommended reading digitally via online Reading Lists. Online reading lists are embedded into student's modules on the VLE and are also accessible via the College’s reading list portal.

Students can access a wide range of library resources relating to their studies via the online library including databases, ebooks, academic articles, market reports, company profiles, statistical datasets, legal materials, video resources and more. The Library Service also offers a range of study skills resources that students may find useful to refer to when developing their academic skills.

Talent Development information

Pearson College London has a Talent Development service and every student has the opportunity to book a one to one to receive tailored guided support. Students are encouraged to reflect on their experiences, review possible career options and develop an action plan for next steps. One to ones enable the Talent Development team to gain a better understanding of the students’ aspirations and goals. These are often recorded, so opportunities can be more targeted to students interested in specific fields.

The Talent Development team also support students through the application and selection process for internships and graduate roles, the development of their LinkedIn profiles, review and feedback on CVs and general guidance on how to research and target employers.

For more information on the skills developed by individual modules and on the specific learning outcomes associated with any fallback award relating to this programme of study, see the module mapping table, located at the end of this specification.
Overview of programme
The core theme throughout the BSc (Hons) programme is accountancy, with learners developing their knowledge and application of both financial and management accounting at each level.

At stage 1, all students will study two 30 credit modules which complement each other: Principles of Business 1 and Principles of Business 2. These modules have been designed to give learners a holistic introduction to business. After completing Principles of Business 1, learners will recognise that there are many interconnected core areas of business (such as strategy, finance, organisational behaviour, people management, and marketing) that need to be considered in successfully running an organization. In Principles of Business 2, students will develop an integrated understanding of the operations of a business in the context of real organisations, to inspire them with a real interest in the discipline at the beginning of their degree study. This module proceeds in two parts. The first part consists of an experiential project, where students will be placed into real world, authentic situations in order to run an organisation of their own. This will be facilitated through workshops and seminars and students will develop a range of applicable soft skills whilst putting their learning based on Principles of Business 1 into practice. In the second part, students will need to consider key issues around strategy, leadership, governance and the ability to function as a team, as well as the impact that will have on the success of a business. Students will be assessed in two ways each term and will complete these modules with a strong introduction to the world of business both in theory and practice.

The other level 4 modules cover the technical foundations and skills required for the higher stages of the programme, including mathematics, double-entry bookkeeping, and basic management accounting techniques.

Stage 2 of the programme is very technical, building on the level 4 technical modules as well as a wider range of accountancy and finance subjects including performance management, tax, and law. All of these modules follow a similar curriculum and assessment strategy to their professional body (ACCA) equivalent modules. Students also study in depth business ethics, which is a core theme throughout the programme.

Stage 3 of the programme requires the learner to build upon their technical knowledge and skills while developing their ability to synthesise their learning and synoptically apply it to help solve complex business problems. The final two modules at this stage are two 30 credit consultancy modules, technical and strategic, which are assessed by integrated case studies. These modules will not only help learners to develop a "real world" approach to business issues, but also help to prepare them for the higher level professional accountancy exam modules.

The level 6 Strategic Consultancy 1 module (30 credits, level 6) is based on the first part of the ACCA Strategic Business Leader module, which forms part of level 7 integrated masters programme.
This module in effect acts as a gateway to the Masters level of the programme, enabling learners to get a head start in preparing for the rigours of level 7 modules.

At each stage of the programme, non-credit bearing placements will take place which aim to enable learners to apply their knowledge and skills to develop workplace competencies relevant to finance teams in a workplace environment. These will become increasingly...
complex in nature during the programme. At Stage 1 level 4, learners may learn to use
common IT based accountancy systems such as SAGE or Navision. By stage 3 level 6 they
may attempt more complex tasks such as writing a management representation letter or
negotiating a departmental budget.

On completion of the BSc Professional Accounting in Business learners should be part-
qualified professional accountants with exemptions from the applied knowledge and applied
skills ACCA modules..

The core theme throughout the Integrated Masters programme is accountancy, with learners
developing their knowledge and application of both financial and management accounting at
each level. At the final stage all learners study a module on financial accounting, and three
other technical modules which focus on other areas of the subject including management
accounting, financial management, taxation, and audit.

Graduates who progress onto stage 4 will then “top up” their knowledge and skills covered in
Strategic Consultancy 1 in the Strategic Consultancy 2 module (30 credits, level 7) based on
recent updates to applicable standards and professional practice, as well as further developing
the higher professional, technical and communication skills required to succeed in the ACCA
Strategic Business Leader module.

At stage 4 students will sit the actual ACCA Strategic Business Leader and ACCA Strategic
Business Reporting exams as their summative assessments for Advanced Corporate
Reporting (level 7) and Strategic Consultancy 2. These modules will be APL’d on to the MSc
(Integrated Masters) Advanced Professional Accounting in Business. Students will then
choose from two out of four final technical accounting and finance elective modules to
complete the programme. On completion of the integrated masters element of the programme
learners should be fully exam-qualified with the ACCA.

Learners on the integrated masters programme will be able to undertake continuing
professional development after graduation, with a number of electives available to study on an
individual basis.

Accreditation

Accreditation has been gained for the programme and/or specific modules from:

- Association of Chartered Certified Accountants (ACCA)

Additional accreditation for individual modules has also been gained from:

- Chartered Institute of Management Accountants (CIMA) Certificate in Business
  Accounting
- Institute of Chartered Accountants in England and Wales (ICAEW) Certificate in
  Finance Accountancy and Business qualification

The BSc stage of the programme is aligned to the ACCA papers (Applied Knowledge and
Applied Skills levels). Whilst the Integrated Masters is aligned to the ACCA’s Strategic
Professional level.

The programme may be undertaken within the conventional timeframes for completion of full
or part time undergraduate study, or accelerated to two or four years respectively by studying
through the traditional summer breaks.

The programme is divided into four stages:

- Stage 1 comprises modules to a total of 120 credits and relates to the first year of an
  undergraduate degree (level 4) with an exit award of Certificate of Higher Education.
- Stage 2 comprises modules to a total of 120 credits and relates to the second year of
an undergraduate degree (level 5) with an exit award of Diploma of Higher Education.

- Stage 3 comprises modules to a total of 120 credits and relates to the final (honours) year of an undergraduate degree (level 6) with an exit award of BSc with honours.
- On successful completion of Stage 3 students may proceed to Stage 4, the Integrated Masters year (level 7) comprising 120 credits.
Students must successfully complete each module in order to be awarded the specified number of credits for that module. One credit corresponds to approximately ten hours of 'learning time' (including all classes and all private study and research). Thus obtaining 120 credits in an academic year requires 1,200 hours of overall learning time. For further information on modules and credits refer to the Credit Framework at http://www.kent.ac.uk/teaching/qa/credit-framework/creditinfo.html.

Each module and programme is designed to be at a specific level. For the descriptors of each of these levels, refer to Annex 2 of the Credit Framework at http://www.kent.ac.uk/teaching/qa/credit-framework/creditinfoannex2.html.

Students successfully completing Stage 1 of the programme and meeting credit framework requirements who do not successfully complete Stage 2 will be eligible for the award of Cert He.

Students successfully completing Stage 2 of the programme and meeting credit framework requirements who do not successfully complete Stage 3 will be eligible for the award of Diploma of Higher Education. Students successfully completing Stage 2 of the programme and achieving 300 credits overall including at least 60 credits at level H (6) or above in Stage 3 and meeting Credit Framework requirements will be eligible for the award of a BA/BSc non-honours degree.

Students successfully completing Stage 3 of the programme and meeting credit framework requirements who do not successfully complete Stage 4 will be eligible for the award of BSc (Honours).

The maximum number of years permitted to complete either the BSc (Hons) or Integrated Masters award (full-time or part-time) is 8 years. The normal period of time to complete the degree full-time (non-accelerating) is 3 years for the BSc (Hons) and 4 years for the Integrated Masters.

**Compulsory and Option Modules**

Compulsory modules are core to the programme and must be taken by all students studying the programme.

Optional modules provide a choice of subject areas, from which students will select a stated number of modules. Optional modules are available at stages 3 and 4 only.

Where a student fails a module(s) due to illness or other mitigating circumstances, such failure may be condoned, subject to the requirements of the Credit Framework and provided that the student has achieved the programme learning outcomes. For further information refer to the Credit Framework at http://www.kent.ac.uk/teaching/qa/credit-framework/creditinfo.html.

Where a student fails a module(s), but has marks for such modules within 10 percentage points of the pass mark, the Board of Examiners may nevertheless award the credits for the module(s), subject to the requirements of the Credit Framework and provided that the student has achieved the programme learning outcomes. For further information refer to the Credit Framework.
Acceleration

Pearson College undergraduate degree programmes are available to be studied on an accelerated basis, giving students an opportunity to complete their degree in two years rather than the traditional three. Students who accelerate study during the summer term, thus completing three terms per academic year, rather than two. Accelerated degrees are an important aspect of Pearson College's distinctive and flexible approach to higher education provision.

Students do not apply for accelerated programmes from the outset. Instead, they start on the three-year programme and apply to accelerate during the second term of their first year.

Accelerated programmes are academically demanding and require high levels of commitment as well as good time management skills. They are not suitable for all students and students do not have an automatic right to accelerate.

Criteria for acceleration

Students are permitted to accelerate on the basis of satisfactory performance on the programme, based on their absence record, results in Level 4 assessments and feedback from their personal tutor. The specific criteria are set out below.

- 80% attendance at scheduled classes (authorised absences count as attendance)
- Passed all assessments at first attempt with 2:1 grades or above.
- Supporting reference from the personal tutor focussing on participation in class.

Process for acceleration

Decisions about acceleration will be made by the Progression and Retention Committee. Applications for acceleration should be sent to the Registry by the end of Week 8 of the Spring Term.

The Progression and Retention Committee will normally meet in the second week of May. It will consider the following evidence for each applicant for acceleration:

- Absence record
- Assessment results for Level 4. If necessary, the marking of work submitted at the end of the Spring term will be expedited.
- Personal tutor reference

Part-time Students

Students may apply to study part-time. Part-time students will normally study modules up to 90 credits each year for four years by studying 30 credits per term, 3 terms per year. Students can opt to undertake fewer modules per year in order to fit around their other (e.g. work or family) commitments.

The programme is delivered as either part-time day or part-time evening (both subject to demand). Delivery is therefore either 2 days per week or two evenings per week during term time. Both routes will utilise selected weekends. The evenings will typically be between 6pm until 9pm and the specific days/evenings of the week will remain the same throughout the degree.

Lectures, seminars and clinics will be timetabled to only occur at these times/days.
Compensation and Condonement

The following modules may not be compensated or condoned:

- **Principles of Business 1 and 2; 30 credits each, level 4** (students who fail either of these modules will have an opportunity to resit the elements of the assessment upon which they have scored below 40).

- **Financial Assurance and Risk Management; 15 credits, level 5** (students who fail this module overall will have an opportunity to resit the elements of the assessment upon which they have scored below 40).

- **Technical Consultancy Project; 30 credits, level 6** (students who fail this module overall will have an opportunity to resit the elements of the assessment upon which they have scored below 40).

- **Final Project; 30 credits, level 6** (students who fail this module overall will have an opportunity to resit the elements of the assessment upon which they have scored below 40).

- **Strategic Consultancy 2; 30 credits, level 7** (students who fail this module overall will have an opportunity to resit the elements of the assessment upon which they have scored below 50).

18 Work-Based Learning
Disability Statement: Where disabled students are due to undertake a work placement as part of this programme of study, a representative of the University will meet with the work placement provider in advance to ensure the provision of anticipatory and reasonable adjustments in line with legal requirements.

19 Support for Students and their Learning

- Pearson College London extended induction programme
- Personal development workshops
- Online tutorials
- Access to industry professionals
- Programme handbook
- Learning resources & support - [https://www.pearsoncollegelondon.ac.uk/student-experience/undergraduate/learning-support.html](https://www.pearsoncollegelondon.ac.uk/student-experience/undergraduate/learning-support.html)
- Student Support & Wellbeing - [https://www.pearsoncollegelondon.ac.uk/study/postgraduate/student-support.html](https://www.pearsoncollegelondon.ac.uk/study/postgraduate/student-support.html)
- PCL Student Association - [https://www.pearsoncollegelondon.ac.uk/student-experience/undergraduate/pcsa.html](https://www.pearsoncollegelondon.ac.uk/student-experience/undergraduate/pcsa.html)
- Careers and Employability - [https://www.pearsoncollegelondon.ac.uk/working-with-business/career-coaching.html](https://www.pearsoncollegelondon.ac.uk/working-with-business/career-coaching.html)

**Academic and pastoral support**

- At programme commencement, students will be allocated a Personal Tutor, who will effectively act as their academic mentor. Students will be allocated a Personal Tutor at each level of the programme.

- Personal Tutors will provide ongoing advice on academic and pastoral matters (in partnership with academic tutors in other modules). They will act as students’ first port of call for support during their studies at the relevant level.

- Students will have an initial meeting with their Personal Tutor in the first few weeks of their studies as part of a settling in process, in which any early issues of an academic or pastoral nature may be addressed.

- Students academic progress will be formally reviewed at least once per academic year by their Personal Tutor at the Annual Appraisal Meeting.

- Personal Tutors will keep records of the Annual Appraisal Meeting and other significant meetings with tutees which will be used when writing references.

- If a student experiences issues or problems which their Personal Tutor the student may contact the Head of Student Services.
Learning support

Students with specific learning support needs will be directed to the Registry to obtain advice and guidance on how to progress through their studies. This includes addressing any special needs requirements through appropriate Learning Contracts. Further information is available in the Student Handbook.

20 Entry Profile

The minimum age to study a degree programme at the university is normally at least 17 years old by 20 September in the year the programme begins. There is no upper age limit.

20.1 Entry Route

For fuller information, please refer to the College website.

Pearson College London aims to recruit students with a variety of backgrounds and perspectives, each of whom have the ability to succeed on the programme, to make an active contribution to the student cohort and to the wider society on programme completion. The entry routes are designed to assess an applicant's potential and motivation rather than solely their prior qualifications.

To achieve this aim there is a twin track admissions process:

Either UCAS tariff points and interview or Assessment Day and interview.

Tariff Points Route

The typical minimum entry requirements are:

For 2017/18 entry onwards: 120/128 UCAS tariff points from three level 3 qualifications, such as A Level, BTEC, IB Diploma etc. and interview.
Assessment Day Route
This route aims to widen participation responsibly beyond the traditional constituency which historically participates in higher education, enabling the College to admit students with the potential to achieve the learning outcomes set for their chosen degree programmes and successfully graduate from the College, regardless of their prior record of academic achievement.

The vehicle for assessing whether such students do have this potential is the Assessment day. The Assessment Day comprises a series of tests and an interview, designed to assess the following:

Numerical, verbal and non-verbal reasoning
Critical thinking skills
Written communication skills
Oral communication skills
Motivation to study the chosen subject
Motivation and suitability for study in the unique environment of Pearson College London

Currently, we use the following tests for these purposes alongside the interview:

- A piece of written work set on the day
- The Core Abilities Test https://login.talentlens.co.uk/v2/RPRHMBKHHU
- The Watson Glaser critical thinking test https://login.talentlens.co.uk/v2/YYJAZMUAT

Interview
The College interviews applicants to assess their potential to succeed on the programme, taking into account their attitude and motivation, as well as their academic potential and experience. The interview is also important to ensure that students understand as much as possible about studying at Pearson College London before deciding whether to accept any offer of a place. All applicants are interviewed regardless of their qualifications and experience (and regardless of whether they are being assessed under the tariff point route or the assessment day route).

Non-Native English Speakers
Non-native English speakers must demonstrate their proficiency with appropriate qualifications or evidence of having been taught English previously. Typical English Language Level: Average 6.5 IELTs, minimum 6.0 reading and writing or Pearson Test of English 61 overall, with reading and writing 54 and no other sub score lower than 51.
Diversity
Pearson College welcomes applications from people of all backgrounds and abilities. Those with a disability are encouraged to discuss the nature of their disability with the College during the application process. The College has a process to assess additional learning needs, providing support and where appropriate ‘reasonable adjustments’ in assessment.

APECL
Students may be admitted at Stage 2 or Stage 3 of the programme, or may gain exemptions from particular modules, based on APECL. Such cases are subject to prior approval by the University of Kent according to its APECL process see:

http://www.kent.ac.uk/teaching/qa/codes/taught/annexr.html.

20.2 What does this programme have to offer?

Key features of the programme

Students on the programme will have the opportunity:

- To study at a pace (accelerated or standard) and place (face to face in the classroom or online) of their choosing
- To study modules designed and delivered with direct employer input
- To become part exam-qualified professional accountants with the ACCA for those exiting with a BSc (hons).
- To become fully exam-qualified professional accountants with the ACCA for those exiting with an Integrated Masters
- Design of the programme included industry and student involvement through the College’s Design Concept Team (DCT) approach in both curriculum but also the approach to learning, teaching and assessment.

20.3 Personal Profile

A typical applicant might be expected to demonstrate at the commencement of his/her studies the following:

- a general interest in business and managing organisations
- a strong interest in developing a career in accountancy
- a willingness to be good at working with others
- good oral and written communication skills
- a willingness to build knowledge across all aspects of business management
- appropriate levels of numeracy and/or a willingness to develop them
- a willingness to acquire relevant IT skills

21 Methods for Evaluating and Enhancing the Quality and Standards of Teaching and Learning

21.1 Mechanisms for review and evaluation of teaching, learning, assessment, the curriculum and outcome standards
- Periodic Programme Review [http://www.kent.ac.uk/teaching/qa/codes/taught/annexf.html](http://www.kent.ac.uk/teaching/qa/codes/taught/annexf.html)
- External Examiners system [http://www.kent.ac.uk/teaching/qa/codes/taught/annexk.html](http://www.kent.ac.uk/teaching/qa/codes/taught/annexk.html)
- Annual programme and module monitoring reports [http://www.kent.ac.uk/teaching/qa/codes/taught/annexe.html](http://www.kent.ac.uk/teaching/qa/codes/taught/annexe.html)
- QAA Higher Education Review [http://www.qaa.ac.uk/InstitutionReports/types-of-review/higher-education-review/Pages/default.aspx](http://www.qaa.ac.uk/InstitutionReports/types-of-review/higher-education-review/Pages/default.aspx)
- Student module evaluations
- Annual staff appraisal
- Peer observation
- External accreditation from the ACCA, ICAEW and CIMA

### 21.2 Committees with responsibility for monitoring and evaluating quality and standards

Committees at the University of Kent include:
- Board of Examiners
- School Education Committee
- Faculty Education Committee
- Faculty Board
- Education Board

Committees at Pearson College London include
- Staff-Student Liaison Committee
- Admissions, Progression, Retention and Attainment Committee
- Review and Enhancement Committee
- Academic Board
- School Board
- Governing body
- Executive Team

### 21.3 Mechanisms for gaining student feedback on the quality of teaching and their learning experience

- Student module evaluations
- Staff-Student Liaison Committee
- Student representation system
- Annual NSS (from 2017 onwards) and PCL internal annual student surveys

### 21.4 Staff Development priorities include:

- Annual Appraisals
- Institutional Level Staff Development Programme
- Study Leave
- PGCHE requirements
- HEA (associate) fellowship membership
- Professional body membership and requirements
- Programme team meetings
- Research seminars
- Conferences
- Opportunities to return to practice and engage with industry
## Indicators of Quality and Standards

- PCL QAA Higher Education Review Plus report May 2014
- QAA Educational Oversight Report May 2015

Future indicators after the commencement of the programmes will include:
- Annual External Examiner reports
- Annual programme and module monitoring reports (UoK and PCL)
- Result of PCL periodic review
- Result of University of Kent Periodic Review
- Professional Accreditation
- Graduate Destinations

22.1 The following reference points were used in creating these specifications:
- QAA UK Quality Code for Higher Education
- Requirements of Association of Chartered Certified Accountants (ACCA)
- PCL Plan/Learning and Teaching Strategy

## Inclusive Programme Design

The School/Collaborative Partner recognises and has embedded the expectations of current equality legislation, by ensuring that the programme is as accessible as possible by design. Additional alternative arrangements for students with Inclusive Learning Plans (ILPs)/declared disabilities will be made on an individual basis, in consultation with the relevant policies and support services.
