12. Learning and Teaching methods

For full details please see the teaching and learning strategy in the programme specification. Students can study this module in the interactive classes model or the mentored independent model. Those on the former will typically experience one lecture and one seminar each week.

Scheduled Hours: 25
13. **Assessment methods.**

This module is assessed as follows:

- A 30 minute **group presentation** (30% of overall grade) will require students to demonstrate their ability to develop and grow a brand in a strategic manner. It will focus on the various challenges a brand will face when they first set up and then consider how to overcome the challenges to achieve critical mass, salience and awareness. Students will also be required to determine tools and techniques to measure a brand's health early in its evolution.

- A 3,500 word **individual report** (70% of overall grade) will require students to conduct a critical evaluation on an established brand and how it is managed and evaluated over time. This will require a strategic lens and analysis to determine the optimal direction for the brand in the future. It will also cover how to measure brand health and align it to changing customer expectations.

A pass must be achieved in all elements of assessment in order to pass the module.
