12. Learning and Teaching Methods, including the nature and number of contact hours and the total study hours which will be expected of students, and how these relate to achievement of the intended module learning outcomes

Learning and teaching takes place through four key activities. These comprise a blend of technical skills training, guided tasks assisting in self-directed research and study, practical application, and consolidation. Conceptually, the aim of the learning and teaching method is to mirror as closely as possible a trainee’s experience in a law firm.

Part A – Technical skills training
The trainee will be briefed on the relevant topic (this may take the form of live or recorded webinars or lectures).

Part B – Self-directed research/Guided tasks
The supervising partner will guide the trainee via memoranda, e-mails and/or recorded voicemails into the relevant areas that need to be researched. This may include reading articles and practitioner texts, preparing checklists and drafting documentation, as well as providing advice on various aspects of the matter and answering client/supervisor questions etc.

Part C – Seminar
The trainee will present their findings to the client and/or supervisor. New issues may arise from the presentation and/or further client information being provided to change the dynamics of advice etc.

Section D – Consolidation
This may be in the form of independent reflection and reading / online student discussion forum / associated tutor dialogue (e.g. via email) as students absorb the issues raised in the briefings and seminars through the consolidation process.

The aim is to ensure that the student has all of the applicable practical experience of working on a matter in this area by ensuring that they are required to draft and amend relevant documentation at each stage of the module.

13. **Assessment methods**

13.1 **Main assessment methods**

This module will be assessed by a supervised assessment of three hours’ duration, split into two parts:

Part A - an examination based on unseen questions set in a transactional context, in which students will be required to analyse various provided documents in order to advise a client or supervising partner accordingly (2 hours) (70%);

Part B – objective testing (1 hour) (30%).

The pass mark for the module is 50%. Students will be required to attempt both parts of this assessment. Since the learning outcomes tested by each part overlap (see further detail below) an overall pass of 50% will be sufficient to pass the assessment.

**Rationale**

This methodology reflects two key objectives: firstly, and most importantly, to assess that the learning outcomes set out above have been achieved by the students in a way which complies with the Legal Practice Course Assessment Regulations. Secondly, to align our assessment regime with that proposed by the Solicitors Regulation Authority for the new Solicitors Qualifying Exam.

The proposed assessment methodology, combining a transaction-based examination with objective testing we feel achieves both of these goals.

15. **Inclusive module design**
The Collaborative Partner recognises and has embedded the expectations of current disability equality legislation, and supports students with a declared disability or special educational need in its teaching. Within this module we will make reasonable adjustments wherever necessary, including additional or substitute materials, teaching modes or assessment methods for students who have declared and discussed their learning support needs. Arrangements for students with declared disabilities will be made on an individual basis, in consultation with the Collaborative Partner’s disability/dyslexia support service, and specialist support will be provided where needed.

16. **Campus(es) or centre(s) where module will be delivered**

Pearson College London

17. **Internationalisation**
All the modules on the MLaw/LLB programme incorporate an international dimension wherever and whenever appropriate. This includes specific areas, such as EU statutory provisions in Contract and Employment Law and Human Right issues in Constitutional and Criminal Law, alongside an all pervasive discussion of the affects of international law on English Law as a whole. In addition to the formal incorporation of international jurisprudence within the programme, the students are actively encouraged to participate in the numerous opportunities the College offers involving comparative analysis within the business world including: guest speakers, industry workshops, alumni events, etc. Specifically, the MLaw/LLB programme provides a number of opportunities for all law students to participate in educational visits to various international institutions within the legal environment including the EU (in Strasbourg, Brussels and Luxembourg), the International Court of Justice in the Hague and the Nuremberg Trials Court House. These trips are heavily subsidised by the college to ensure affordability and maximum participation.

18. **Partner College/Validated Institution:**

Pearson Business School, part of Pearson College London

19. **University School responsible for the programme:**

Kent Law School
