This module requires the synthesis of information from across the whole course and is based around the extensive research, selection, development and performance of an appropriate solo from existing ballet or contemporary dance repertoire. The selection of the solo requires personal exploration of strengths, weaknesses and targets, review of current knowledge i.e. solos previously studied, research of new areas, through video, interview, live performance, and consultation with appropriate tutors and professional practitioners. Following selection of the solo the student undertakes extensive research to support the appropriate stylistic performance of the solo to a high standard. This will include historical and contemporary context, appropriate costuming, interview with performers of the role in a professional context. The student plans the rehearsal process drawing on the skills of tutors and professional dancers and examines development potential within the role. Finally the student prepares for performance of the solo which is given at the end of the academic year.
