1. **Title of the module**
   WL862 Minor Oral Surgery

2. **School or partner institution which will be responsible for management of the module**
   Health Education England Kent Surrey and Sussex (HEKSS)

3. **Start date of the module**
   Spring Term 2013

4. **The number of students expected to take the module:** 10-15

5. **Modules to be withdrawn on the introduction of this proposed module and consultation with other relevant Schools and Faculties regarding the withdrawal.** NA

6. **The level of the module (e.g. Certificate [4], Intermediate [5], Honours [6] or Postgraduate [7])**
   Level 7.

7. **The number of credits and the ECTS value which the module represents:**
   20 Credits (10 ECTS)

8. **Which term(s) the module is to be taught in (or other teaching pattern)**
   Flexible

9. **Prerequisite and co-requisite modules**
   NA

10. **The programmes of study to which the module contributes:**
    PG Diploma and MSc in Primary Dental Care

11. **The intended subject specific learning outcomes:**
    11.i Critical knowledge of the basic anatomical structures required for surgery on the teeth and jaws.
    11.ii Illustrate comprehensive knowledge around pathological and developmental conditions which would require surgical treatment and the logical treatment plans for patients.
    11.iii Evaluate various surgical approaches and their appropriateness in varying surgical situations.
    11.iv Have a sound understanding of pre-, peri- and post-operative medication.
    11.v Demonstrate appropriate oral surgical procedures to include exodontia and other procedures within the students’ expected competency framework.

12. **The intended generic learning outcomes**
    12.i Show a capacity of autonomous learning in the workplace environment and the ability to access professional resources.
    12.ii Communicate with clarity in the clinical environment.
12.iii. Show evidence of clinical self-reflection and the ability to enhance professional clinical performance.

13. A synopsis of the curriculum

This module is designed to increase knowledge, skills and performance within the clinical discipline of minor oral surgery. The module will build upon knowledge of the anatomy and pathology of the jaws and the basic skills required for the practice of oral surgery. The module will review the role of medical history, special investigation and clinical examination as a basis for the understanding of assessment of patients. As well as the academic component there will be a practical element using animal tissue under supervision and supervised working within the secondary care arena on patients.

The module will be delivered over two separate weekends: a Friday and Saturday plus a Friday or Saturday approximately 2 months later.

Weekend 1
- Knowledge based lectures on anatomy, pathology, diagnostic and surgical skills necessary in minor oral surgery.
- Practical skills session on animal tissue.

Weekend 2
- Reflective session on cases undertaken in clinical practice

14. Indicative Reading List:

Reading materials specific/relevant to the student’s individual working practices will be recommended and discussed during the taught session.

15. Learning and Teaching Methods, including the nature and number of contact hours and the total study hours which will be expected of students, and how these relate to achievement of the intended module learning outcomes

The total number of hours of study required will be 200 hours. The module includes 21 hours of contact teaching, plus 20 hours of tutorials within the clinical workplace setting. The remaining learning will be achieved through a blend of self-study, practice based learning and assessment (which includes the completion of a critical case study).

Teaching will primarily be delivered in the forms of tutor and peer led discussion and study sessions. Both tutors with specialist expertise and those actively working in the dental sector will deliver the theoretical input. An approximate division of the 200 hrs of learning are listed below:
Learning Outcomes | Lectures | Tutorials in Practice | Practice Based Placement | Assessment
---|---|---|---|---
11i | X | X | X | X
11ii | X | X | X | X
11 iii | X | X | X | X
11iv | X | X | X | X
11 v | X | X | X | X
12i | X | X | X | X
12 ii | X | X | X | X
12 iii | X | X | X | X

**Approximate Number of Hours**

| Hours | 21 | 20 | 119 | 40 |

16. Assessment methods and how these relate to testing achievement of the intended module learning outcomes

All module learning outcomes will be tested through two separate elements outlined below. An overall pass must be achieved in order to successfully complete the module.

(i). A written assignment of 2,500 words examining the students' understanding of the key issue of oral surgery and demonstrating use of referenced literature.

This will test module learning outcomes 11i-v, 12i-iii and be worth 60% of the module mark.

This will test module learning outcomes 11i-v, 12i-iii and be worth 40% of the module mark.

17. Implications for learning resources, including staff, library, IT and space

As a validated programme this module does not have implications on resourcing – other than in the matters of administration and Quality Assurance; through the CPP Graduate Studies Committee and attendance at the Board of Examiners. As part of a validated programme, this module will be delivered by specialists within the dental sector from HEKSS Dental. All learning and teaching will take place within appropriate HEKSS facilities, postgraduate centres or dental practice settings.

18. The School/Collaborative Partner (delete as applicable) recognises and has embedded the expectations of current disability equality legislation, and supports students with a declared disability or special educational need in its teaching. Within this module we will make reasonable adjustments wherever necessary, including additional or substitute materials, teaching modes or assessment methods for students who have declared and discussed their
learning support needs. Arrangements for students with declared disabilities will be made on an individual basis, in consultation with the University’s/Collaborative Partner’s (delete as applicable) disability/dyslexia support service, and specialist support will be provided where needed.

19. Campus(es) where module will be delivered: HEKSS Facilities

*If the module is part of a programme in a Partner College or Validated Institution, please complete the following:*

20. **Partner College/Validated Institution:** Health Education England Kent Surrey and Sussex (HEKSS)

21. **University School responsible for the programme:** Centre for Professional Practice

**SECTION 2: MODULE IS PART OF A PROGRAMME OF STUDY IN A UNIVERSITY SCHOOL**

Statement by the School Director of Learning and Teaching/School Director of Graduate Studies (as appropriate): "I confirm I have been consulted on the above module proposal and have given advice on the correct procedures and required content of module proposals"
