13   A synopsis of the curriculum

This module equips students with a strong ballet technique that both enhances and complements their contemporary dance training. It focuses on the development of an increased awareness of artistic interpretation, musicality and performance qualities. Work includes revision, repetition and development of material learned in years one and two and includes barre work, port de bras, centre practice, adage, pirouettes, petit allegro and grand allegro. Speed of execution of certain enchainements is increased employing the use of different time signatures and phrasing to increase musical awareness. Technical virtuosity is developed by encouraging students to use the body as an expressive instrument of communication with an understanding of stylistic differences within the bounds of the technique.

15 Learning and Teaching Methods, including the nature and number of contact hours and the total study hours which will be expected of students, and how these relate to achievement of the intended learning outcomes

This module is delivered as taught, studio-based class sessions usually with live accompaniment. Students are expected to attend all timetabled sessions throughout the year and should expect to practice taught material outside of class hours. Students take responsibility for their own warm-up and cool-down before and after class and should also spend time on private study by using the library, attending live performances, and referring to their own notes.

Students receive continuous feedback through correction and information whether delivered personally, to another individual or to the group. Technical principles may be reinforced
through working with partners, discussion and evaluation. Students also individually receive verbal or written feedback at the end of each assessment period.

Tutorial support is available through the College’s personal tutorial system, as required.

17. Implications for learning resources, including staff, library, IT and space

NSCD employs teaching staff who have attained the highest professional level in their field. This module is also supported by the College’s state of the art facilities which include:

- 7 large dance studios with fully sprung dance floors, pianos and drums for live accompaniment and the latest video and audio technology
- students can access specialist advice and equipment to promote their health and fitness and support their technical development
- a learner resource centre containing materials students need to support their studies including books, journals, videos, DVDs, CDs, electronic resources and internet access through 15 computers

18. The Collaborative Partner recognises and has embedded the expectations of current disability equality legislation, and supports students with a declared disability or special educational need in its teaching. Within this module we will make reasonable adjustments wherever necessary, including additional or substitute materials, teaching modes or assessment methods for students who have declared and discussed their learning support needs. Arrangements for students with declared disabilities will be made on an individual basis, in consultation with the Collaborative Partner’s disability/dyslexia support service, and specialist support will be provided where needed.
