

How to find out what modules are popular in combination with one another.

Open the landing page in OTIS and select ANY of the 'Planning' links and then select 'Module choice combinations'. From this page, select the tiny arrow in the top bar (marked below) to expand the menu bar

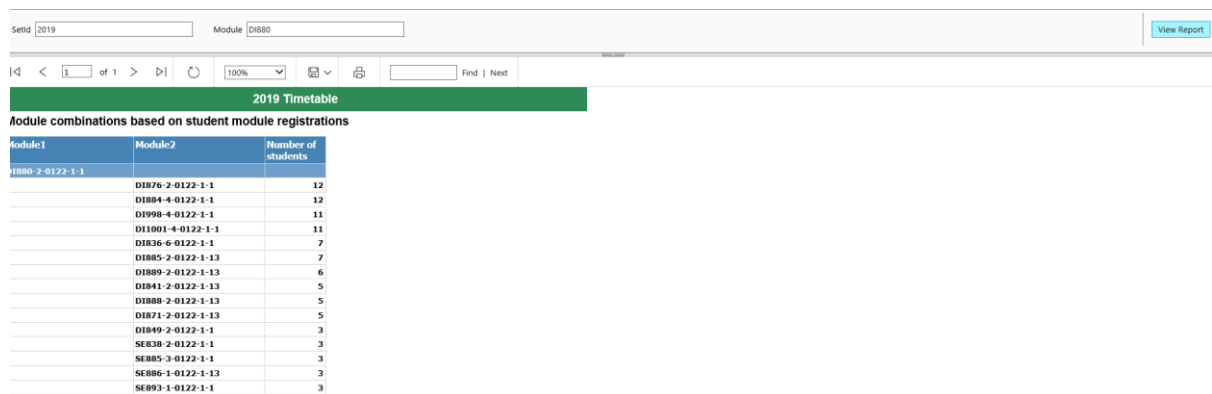

2019 Timetable

Module combinations based on student module registrations

Module1	Module2	Number of students
AC300-1-0122-1-1		
	CB312-1-0122-1-13	118
	CB333-1-0122-1-1	115
	EC302-2-0122-1-1	115
	CB372-1-0122-1-1	112
	WSHOP079-1-0122-1-1	61

Enter the module code you are interested in and then click 'View Report' on the right hand side of the screen. This will return a list of other modules that students selected in combination with your choice as well as the number of students who selected this combination. This is an indicator only as it refers to historical data and is not necessarily a predictor for future years.

Setid 2019 Module D1080 [View Report](#)
